This is from the Salem Independent: The general impression seems to be, that just as soon as confidence is restored and hoarded money once more seeks the channels of trade that we will see the most prosperous times that have been seen for years. The locking up of money is a loss of interest that capital will try to recover by active investment. In view of this outlook it is decidedly better for those who can to hold their wheat for higher prices. Better prices are surely coming in spite of anything that congress can do. This was the experience of those who went through the panic of '73 and it will be that of those who go through the panic of '93.

Yesterday afternoon Homer Bell, son Rev. J. R. N. Bell, of Independence, was hunting with a friend in Rosedale addition three miles south of Salem. It seems as they were passing through a gate the gun slipped through the slat work that formed the bottom of the cart and was discharged, giving Bell the entire load in the breast. A threshing crew was close at hand who conveyed the young man to a neighboring farm house, where he died at 10 p. m. He was a printer by trade and was about 18 years of age. The news of the accident was received with great sorrow at Independence as he was a very popular young man and admired by all who knew him.

The success of Mrs. Annie M. Beam, of McKeesport, Pennsylvania, in the treatment of diarrhoea in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johnstown, Pa., after the great flood, on account of my husband being employed there. We had several children with us, two of whom took the diarrhoea very badly. I got some of Chamberlain's Colic, Cholera and Diarrhoea Remedy from Rev. Chapman. It cured both of them. I knew of several other cases where it was equally successful. I think it cannot be excelled and cheerfully recommend it." 25 and 50 cent bottles for sale by M. A. Miller, Druggist.

A Polk county farmer on being interviewed about the extra session of the legislature to pass a law staying executions for a year, hit the nail on the head: "As soon as it was known that the legislature was to convene for that purpose, the merchants throughout the state would immediately refuse to give credit, and would force collections. They would be compelled to do this because their creditors throughout the East would take fright at the intention of passing such a law and would crowd them. The result would be ruinous in the extreme. Governor Pennoyer knows well enough that no such law will be passed and he has done this all for effect. I think if you could hear him talk to those whom he does not pretend to deceive, that you would hear him chuckle over the matter."

Last Tuesday morning about breakfast time Billy Palmer and Mr. Giles, who were camped on M. D. Powell's place about three miles below town setting grain, discovered a huge silver-tipped bear approaching the camp. Billy discharged one barrel of his shot gun at him but his bearship still approached and when at very short range, Billy let fly with the other barrel, it did not seem to check him in the least. The bear was determined to take breakfast with them thinking, perhaps, that free lunch was a necessary concomitant of free trade, but being a protectionist did not see it in that light, and taking a stand between grub and bear, he stood with gun presented. Meanwhile the bear was approaching nearer and nearer until it was so close that Billy put the muzzle of the gun in the bear's mouth. It bit about three inches off the end of the gun, or so crushed it that it broke off. The bear turned and went into the brush. Billy is doing as well as could be expected under the circumstances.—Prineville News.

Among other matters, the Long creek section is now being treated to a rape case, say those who have just returned from that section. On last Monday evening, a young man named Mel Dustin, and very well known in this county, overtook Miss Lizzie Green just this side of Monument. Both were on horseback and being well acquainted chatted along till Mrs. Green reached the lane leading to the residence formerly owned by Jack Hinton. When Miss Green started to go up the lane, Dustin called to her to stop, saying he wanted to speak to her. Jumping off his horse he ran up to Miss Green and dragged her off the horse, accomplishing his base designs. The young lady then dragged herself within hailing distance of the house, when a young man came out and helped her in. It is said that Dustin has been arrested and that there is much excitement over the affair.—Heppner Gazette.

The West Side, of Independence, figured it out this way: If there is any man independent of hard times it is the farmer who has a good farm and is out of debt. He produces what people must have and when he sells it he gets just what kind of money he wants or else he keeps his goods. He can keep them, too, for there are many ways he can turn them into money. Take wheat for an example: If the price does not suit him, he can have it ground into flour, and he and his neighbors can eat it. It that will not work he can feed it to stock of some kind and drive the stock to market, and thus be able to realize a fair price. The merchant, the manufacturer and the laboring man is entirely dependent on selling which he has. A stagnation in business effects them disastrously, but has very little effect on the farmer from hearsay.

According to an exchange, a young lady school ma'm with an inordinate fear of smallpox sent a little girl home because the latter remarked that her mother was sick and had marks on her face. Next day the child returned and said to the teacher, "We've got a little baby at our home, but mamma told me to tell you it isn't catching."
