A Solo man was fined \$5 for driving his team faster than a walk across the Waterloo bridge. There are said to be 1500 snakes known to naturalists, but that only a few of them are poisonous. "Any thing goes" except pole cats or badgers, at Hardy's. A portion of the new Astoria wharf at Tansy Point was destroyed by fire Aug. 10. The blaze is supposed to have started from a spark out of the funnel of a passing steamer. An Arkansas cow got into a patch of corn and died. Before she could be identified someone skinned her, and as her owner could not be found the city had to stand the expense of disposing of the carcass. Says an exchange: "The effect of the hard times is reaching even the ministers. We heard of a case this week where the groom tendered a preacher some dried apples for performing the marriage ceremony." The offer of the First National bank of Pendleton to accept wheat at forty cents a bushel in the payment of notes due it, is worthy of imitation by others. The bank deserves credit for making the offer at this time.—Pendleton East Oregonian. C. H. Ralston and family left last Saturday, for Portland, where they will make their home in the future. This is the first time in the history of Lebanon that there was not a Ralston living here, as Lebanon is located on the Ralston donation land claim. On last Saturday a little son of A. C. Rahn was playing about his father's barn with some matches and the usual result followed—the barn and contents were burned—the dwelling house by the aid of a friendly harvest crew being saved. There was about 2 tons of hay and a set of harness consumed in the barn.—Solo Press.

C. Hawley was unanimously elected acting president, until a successor to President Whitaker is secured.

The Oregon Pacific Railway has made the exceptionally low rate of \$2.50 per ton on wheat and oats to San Francisco. The company is standing by the farmers and have been led to make this reduction in view of the extremely low prices now prevailing, in hopes that it will advance very soon. The reduction takes effect Sept. 8.

Dr. Thatcher Graves, of Providence, R. I., committed suicide by poisoning, the first of the week, while in jail at Denver, Col., awaiting a re-hearing of his trial for poisoning Mrs. Barnaby, of the same city (Prov.). He wrote a letter before committing the deed, strongly declaring his innocence of the crime with which he was accused.

The recent "hunger riots" in New York had their comical side. One of the loudest clamorers for bread when taken into custody by the police was searched and was found to have \$35 in his pockets.—Ex.

A man base enough to clamor for bread when he has \$35 right in his pocket, should be sentenced to thirty days imprisonment at hard labor. By doing this the man's demands (for bread, and work) would only be granted. This man, truly, when he asked for bread should have been given a stone—to break.

This treatment will cure any ordinary case in one or two days. Pain Balm also cures rheumatism. 50 cent bottles for sale by M. A. Miller, Druggist.

A party who has been taking note says that there are over 400 cords of wood delivered in this city every day, and that three-fourths of it is carried in by Chinese at from 20 to 65 cents per load. If this work were given to white men it would feed 400 men every day. The informant stated that housewives will give preference to Chinese in the matter of work.—Dispatch.

Oregon has some hale, hearty old men. Rev. T. H. Small, of the Waldo Hills, made a haul during the harvest and with one other man did the shocking behind a binder in wheat so heavy that it is expected to go forty bushels to the acre. Reverend Small is 84 years of age, and he grimly avows that he will preach a sermon on the one-hundredth anniversary of his natal day.—Salem Independent.

Jacob Fred, a stranger, was declared insane Saturday and taken to the asylum by Marshal McFeron. He was a stranger, and it was only learned that he had been in the Washington asylum. Mr. McFeron visited the penitentiary, where he saw Sullivan, in the laundry department, and was greeted by a tremendous smile. He also saw Wasson and other former Lion county residents.—Democrat.

A hundred bushels of wheat will buy more, this year, of what a farmer uses than it would last year. This is because everything is lower in price than it was last year. Four bushels of wheat at 50 cents a bushel will pay for a keg of nails this year, while last year it took four and a half bushels at 62 cents a bushel. Where the hardship comes in, is when a man has to pay a merchandise bill contracted at last year's prices.—Salem Independent.

In his report to the asylum board Supt. L. L. Rowland of the state insane asylum gives the following: Number of patients on July 31—605 males, 273 females. Number received during August—12 males and 14 females. The total number at the institution during August was 965. Five males and four females were discharged as recovered during August. The average daily attendance was 874. The number of officers and employes is 102. The number of patients in the institution August 31 was 599 males and 274 females.

Dr. Lamberson has taken Prof. Wilkes in as partner, to handle the coming hop crop. They are now offering 16 cts., but all the hop growers with the exception of two say that they will hold their hops until they are baled or have a better price, and as all have made arrangements whereby they have secured the money to pay for picking it looks as if it is the best plan, but it is hard to tell what the outcome will be. Prof. Wilkes made a trip to Seio this week to see the hop-growers. He says the hops in that vicinity are fine.

Zephin and Benj. R. Job, partners in the private bank of Hamilton, Job & Co., of Corvallis, which suspended on June 9th, were arraigned Monday in the justice's court for having failed to pay on demand county funds to the amount of \$11,000 on deposit when the bank suspended. They waived examination and were released on bonds of \$4,000 to await the action of the grand jury.

It is learned that the Linn County National Bank will pay to its depositors 20 per cent of their deposits on Oct. 10, which is the expiration of the time set for the presentation of claims against the bank. Collector Beall has now on hand about \$40,000, and it is likely that the first payment will be followed by another very soon. Money is coming in faster than was expected.—Herald.

Among the incidents of childhood that stand out in bold relief, as our memory reverts to the days when we were young, none are more prominent than severe sickness. The young mother vividly remembers that it was Chamberlain's Cough Remedy cured her of croup, and in turn administers it to her own offspring and always with the best results. For sale by M. A. Miller, Druggist.

John R. Cartwright, of Harrisburg, has just completed the picking of thirteen acres of an early variety of hops. They yielded 2300 lbs. to the acre. He sold 27 bales of them for 17 cents per pound, which gives him \$374.00 per acre. He has twenty-three acres yet to pick. The hops were purchased by Kola Neis for Phil Neis & Co., and were shipped Saturday from Harrisburg, and is said to be the first lot shipped by a dealer.

About 300 people were in attendance at the foot-race at the fair grounds yesterday, between Berthwaite, a local sprinter, and Leo Ett, the Montana man. The race was for 80 and a run of sixty yards, and was won by Berthwaite by about three feet. The time was about seven and one-half seconds as near as could be ascertained. A rough estimate placed the amount of money that changed hands at nearly \$1,000.—Statesman.

From Corvallis comes the report that there is good reason to believe that the Oregon Pacific railroad is to put on two steamships between Yaquina and Honolulu. The steamers will be not less than 2000 tons capacity and are to have good passenger accommodations. The scheme has been on foot for two months and has practically matured. The outward cargo will be wood specialties and other classes of freight. The inward cargo has been arranged for and will pay the company handsomely. The officers of the Oregon Pacific would say nothing upon the subject, one way or the other, only that nothing was impossible nowadays. At all events, there is a great deal more to the matter than fiction.

More Bank News.

Wednesday morning Deputy U. S. Marshal Geo. Humphrey came to this city and served a garnishee notice on the trustees of the Bank of Lebanon to hold all the property of J. L. Cowan that they had in their hands. Mr. Humphrey also attached some real estate that formerly belonged to Cowan. This was done on a suit brought by the Lion County National Bank against J. L. Cowan, to recover about \$23,000 that he owes that bank.

The attachment did not cause much disturbance at this place, as the trustees did not have anything belonging to Cowan, and he does not own a foot of land in Lebanon. The action may end in a long law suit, but the depositors of this place have had the best of legal advice in their action, and have little doubt but that they can hold what they have at this place, which will not pay anywhere near what is due them.

It seems that the more this business is looked into the more rotten it is found to be—and the end is not yet.

Prineville News.

(From Ochozo Review.) County court will be grinding next week. Last week O. C. Hale, who is tending sheep camp for Palmeh Bros., killed a big bear on McKay.

Married, on Tuesday, August 29, at the residence of the bride's parents, Mr. and Mrs. P. G. Carnical, Mr. Richard O. Cary and Miss Cynthia E. Carnical, Eld. F. J. Day officiating.

Last Tuesday Sheriff Booth sold under execution 75 cattle belonging to George Millican, consisting of 32 cows, 28 calves, 14 yearlings and 1 bull. They brought \$554.00, which, considering the scarcity of money, was a fair price.

One day last week John Campbell killed a rattlesnake on the Weidell place, three miles above town, that was no infant. It measured 3 feet and 10 inches in length, and was as large around as any well-regulated snake ought to be.

Lieutenant Benjamin, the new agent at Warm Spring, is said to be doing excellent work improving the roads on the reservation. He is forcing the Indians for three days' road work. If he would extend the time to three months on the roads it would be better.

Last Saturday a large bear visited Mr. Wills' place on Willow creek, played with the calves for awhile, then departed for the mountains. There being no men on the place at the time, he had his own way, while Mrs. Wills was an interested observer of his antics, though she observed him from the house, not caring to venture out and dispute his right of possession.

Woolfosters imagine fruit cannot be raised in Crook county, but in this they are decidedly mistaken. This year Crook county has produced enough fruit to supply the home demand, and the quality is superior to anything they can produce on the other side of the big hills. The mistaken idea that fruit cannot be grown here should not prevent anybody coming this way in search of a home.

The county board of equalization has been occupied during the week equalizing the assessment of the county. Owing to the great decline in the price of sheep since the 1st of last March, the board deemed it but just to sheep owners that the valuation be reduced from a \$2.25 per head to \$1.50 per head. No other radical changes were made in the valuations placed on property by assessor Gray.

The cattle raisers of Crook county have contracted some 4000 beef to be delivered between now and December 1st, and if these sales go something over \$100,000 will be distributed throughout the county from this source. The money received from these sales will be put in general circulation, as nearly every farmer has a few beef he will turn off, and besides some of the larger cattle raisers will spend the proceeds of their beef sales buying young cattle, thus giving it double circulation.

Chicago is now paying the fiddlers and pipers who came with the world's fair. An abnormal demand for labor drew to her gates an abnormal number of workmen. Suspension of work has thrown thousands of these out of employment, and when the fair shall be closed thousands of others will join the growing army of idlers. This is not a pleasant prospect. It is the headache and depression that follow a champagne blowout. Chicago has been swilling champagne for many months. She will have a bursting headache for many weeks.—Statesman.
