We Need Our Meney.

The editor of the Express wishes to impress the fact upon the minds of those who are behind on subscription and otherwise, that he needs every cent due him. We have borrowed money from year to year in order to continue our business, before we would insist upon it from those who owe us, but pay day is now near at hand, and we shall be compelled to either collect, or sacrifice what we have worked for these many years. The amounts due us are small, taking them severally, and you would not miss the money but put these amounts together and they make several thousand dellars. Will or will not our friends help us out by paying up?
