I coughed day and night for about six weeks; my wife then suggested that I try Chamberlain's Cough Remedy. At first I could see no difference, but still kept taking it, and soon found that it was what I needed. If I got no relief from one dose I took another, and it was only a few days until I was free from the cough. I think people in general ought to know the value of this remedy, and I take pleasure in acknowledging the benefit I have received from it. MADISON MUSTARD, Otway, Ohio. 50 cent bottles for sale by N. W. Smith, druggist.

Obituary... Mrs. Nancy Biggers died at the residence of Mr. Lutz, in this city, last Saturday, Jan. 6, 1894... She was born in Wayne county, Kentucky, Oct. 16, 1818... She moved with her parents to Missouri, where she was married to C. T. Biggers Jan. 19, 1841... They crossed the plains in 1853 and settled in Marion county... They moved to Linn county, near Selo, in 1866, where she united with the Christian church about two years later. She has ever been a faithful christian, never wavering in her faith in Christ... She was stricken with paralysis three years ago, from which she never fully recovered, and was always a sufferer afterwards. She was ready and waiting for the summons to come that would call her home. Her last illness was short, she being sick only about two weeks... She was the mother of ten children, five of whom survive her, one son and four daughters. Her husband died Nov. 1, 1876... The funeral services were held at the residence of Mr. Lutz, by Rev. Harry Watkins, Sunday morning, after which she was taken to Selo for burial.

Will Make Portland His Home... Attorney-General George E. Chamberlain has decided to make Portland his future home, and is now in the city fitting up his office and making other arrangements to practice law. He will enter the firm of Starr & Thomas which will hereafter be known as Starr, Chamberlain & Thomas. Mr. Chamberlain has been prominently mentioned as a candidate for governor on the democratic ticket next year, but he says he will not enter politics again and will devote himself exclusively to his law practice at the expiration of his term as attorney-general.—Oregonian.

Hard for the Depositors... The Toledo Leader says: "If the court decides that the state and county funds in the defunct Corvallis bank are trust funds and orders the assignee to pay them over to the proper parties, there will not be enough assets left to make a good decent pot in a draw poker game. The state has something over \$18,000 in that concern, Benton county about 12,000 and Lincoln county about 1,400. This would make a total of about \$30,000, and the depositor that depends on any of his deposit would be most beautifully left."

Notice... The several churches of Lebanon have appointed a relief committee consisting of the following persons: Mrs. Goin, Mrs. Montague, Mrs. Turner, Miss Mattie Nixon, Miss Lena Burkhardt, Emma Thives, Mrs. Griggs. This committee will meet on Wednesday at the... under cases... mid... ay

The New Receiver... The Corvallis News in commenting upon the appointment of Charles Clark as receiver says: There is not a question of doubt but what the new appointment will give general satisfaction among the officials and employes of the road, and also to the public generally. Everyone will give a helping hand in assisting the road from its present embarrassed condition while under the new management. Mr. Clark has had a great deal of railroad experience and has filled the position of train dispatcher of the O. P. road for several years, giving the very best of satisfaction in every instance. He is well acquainted with the official duties of the road and already knows where a saving can be made in the operating expenses, which gives him a great advantage over almost anyone else that might have been appointed to the receivership. Yet too much must not be expected of Mr. Clark at once, as everyone knows that the road has been put under his management under the worst circumstances; the ocean steamer tied up, the river boats lying idle and in fact the whole system in a terribly muddled condition, and men clamoring for their back pay, with no money on hand; in such a way is the road at present. However, an honest and economical management is assured, and there are many who fully believe that Mr. Clark will have the road paying its running expenses before many months roll by. The best wishes of everybody along the line and in this vicinity go with the new receiver, as all have the utmost confidence in him.

Tunneling the Siskiyous... The Ashland Record learns that the subject of the boring of a great tunnel through the Siskiyou mountains so as to relieve the road of the great expense of the miles of loop and high mountain grade necessary to get over this one of nature's landmarks and formidable obstructions to cheap and easy railroad transportation has been revived. It will be remembered that during the great railroad snow blockade of January, 1891, when the combined efforts of the Southern Pacific system's best talent could not open this mountain for trains for five weeks, the S. P. people had ordered their engineers as soon as they were through with their work in the Cow Creek canyon, to make a preliminary survey of this great enterprise for a big hole through the Siskiyou mountains. The surveyor's camp was prepared and the surveying crew were in Ashland ready to go to work, when they were suddenly ordered by wire to do some immediate work in Southern California. The Southern Pacific has issued orders to all its surveying crews who have been idle for months to be ready for work as soon as spring opens, commencing March 1st. About the first work to be done will be a preliminary survey, followed by a permanent survey by a different engineer, of this big tunnel.
