There are several applicants for the telephone station now in the City Drug Store, but it is not known yet whether it will be removed or not.—Herald.

As we go to press, we learn of a very serious affair, which occurred Wednesday evening at the protracted meetings in the M. E. Church at Buena Vista. Some parties were talking in the hall, when they were ordered to either come in or go out, and from that followed blows; the fight was with fists; women screamed and fainted, and now it is to be settled here, in the justice's court. There were about 400 in the congregation.—West Side.

The senate has passed a bill granting to the state of Oregon, townships 27, 28, 29, 30 and 31 south, in ranges 5 and 6 east of the Willamette meridian, for a public park. All this land is now embraced in a forest reservation. The new bill simply continues that reservation, and in addition puts the burden upon the state of protecting the park from being despoiled or trespassed upon. All this land has been withdrawn from settlement for several years.

Tuesday, upon complaint entered by Wm. Marks, J. H. Marks was arrested by Constable Morgan. A search warrant was issued and Mr. Morgan, in company with others, searched the premises of J. H. Marks, and found 2 watches, 1 ham, 1 razor, 1 pair of gloves and a pocket-book. All this property, and \$20.35 in money, Wm. Marks claimed was taken from his house about two o'clock Tuesday morning, while all were asleep. While circumstantial evidence seems to point to the guilt of J. H. Marks, it is nevertheless true that many good citizens believe him innocent. The preliminary hearing was had Wednesday. Atty. Garland and Stowe are defendant's attorneys. Atty. Garland being absent Atty. Stowe conducted the defense. Examination was waived, and bonds placed at \$200, which was speedily furnished. Messrs. Phil Smith, J. R. Keetler, F. M. Miller and B. Surtenshaw are his bondsmen.

Jewpepper Receives no Compliments.

"That was a fine piece of work," said old Mr. Freebody, as he took his seat in the Armory corner of the church last Sunday, "and I am glad it happened as I should have taken the matter up myself, and I can never discuss questions of a religious nature without getting mad—yes, very mad."

"To what do you allude?" asked Mr. Tulip. "Oh, excuse me," said Mr. Freebody, "I thought you were discussing the merits and demerits of Colonel Jewpepper." "And so we were," chimed in a half-dozen voices simultaneously. "As I was saying," said Mr. Freebody, "the way 'Cal' has managed to subvert that cantankerous Elder Wayback is commendable."

"Yes," said Mr. Tulip, the Elder has changed fronts, yet I can't tell just how he stands. I read his quibble over four times, then I read it over backwards, then sideways; but I guess we will have to accept his last sentence as conclusive." "At any rate," said Mr. Mayflower, "he will be more careful in the future about handling young squids lest he should offend the mother vine."

No one knew what Mr. Mayflower was hitting at, and before another word was spoken the choir commenced singing "My soul, be on thy guard." The conversation took place in the presence of "Tubs." I did not attend church myself as I had to doctor Helen Blazes (that is the name of Cindy's buggy animal, which I bought of Ike Blazes) for the colic. I had just finished dressing a chicken for dinner, when "Tubs" returned, bringing with him Mr. Tulip.

"What is the matter with Elder Wayback?" asked Mr. Tulip, when we were comfortably seated at the dinner table. "Arrogance," answered Lucinda promptly. "You are correct," said Mr. Tulip; "arrogance flavored with egotism. He is very anxious," continued Mr. Tulip, "to discuss atheistic evolution, and I think he has got hold of a copy of Ernst Haeckel's 'Evolution of Man.' If so, he is pretty well posted, and not believing in the ability of 'Cal' to cope with him he will call upon his humorous (?) friend 'Clodhopper' to play the role of an agnostic."

"This will be quite convenient for the Elder," said Cindy, as she modestly slipped her tea, "for while he is shoving the quill he can look in the mirror and see 'Clodhopper' performing the same feat. I shall never forgive him," she continued, "for calling Cal a hypocrite." "Don't let that bother you, Cindy—Mrs. Jewpepper, I mean," said Mr. Tulip. "I have known Cal ever since I was a boy, and I know that he possesses virtues unknown to man—and but few women as to that matter—since the days of Washington."

Notwithstanding I have been used to such battery for over 60 years, I blushed and was not have blushed very deeply, as Cindy thought that I had got choked on a chicken bone, and called on Mr. Tulip for help, while "Tubs" brought a cup of water which was dashed in my face before I could utter a word. I think that I shall read up and at some future time attack the "Elder" on his atheistic evolution theory, altho' he has Huxley, Haeckel, Evans, Darwin, the Boston Observer and the Iron-Clad Age, to back him up, while I have nothing but the Old Testament and Gulliver's travels.

Now, "Elder," while I am stumping the county in behalf of Silas Butterville, who is running for representative, I hope you will adhere closely to the sentiments expressed in the last sentence in your last article, and remember the fate of Annanias and his wife, when they offended St. Peter by prevaricating.

"Jack the Ripper," of England, has a second in "Jack the Slasher" of Albany. During the dance at the armory Tuesday evening, some miscreant went into the dressing room and demolished the hats of every gentleman present, except two. Hats costing from 3 to 5 dollars were utterly ruined. The best hat, worn by a visitor from Salem, had a cross cut in the crown with a pocket knife. The officers should spare no pains in catching the culprit guilty of such vandalism and give him six months more than the full extent of the law.—Telescopo.

Assignee's Notice.

Notice is hereby given that on the 12th day of January, 1894, F. C. Ayers made her voluntary deed of assignment of all her property, both real and personal, to me, J. W. Menzies, in trust for the benefit of all her creditors, and said creditors are hereby required to present their claims, duly verified as required by statute, to me, at my office in Lebanon, Linn county, Oregon, three months from and after the date of publication of this notice.

MIDWINTER.

Only one week more, and the Midwinter International Exposition will be in full running order. The early winter rains have been trying to delay preparations for this great industrial event, but the effort has been a vain one. The rains have been the means of pushing forward the shrubs and flowers, which are beginning to bloom as they do in spring time in the East, only more so, and even the progress of uncompleted concessional adjuncts to the Exposition seems to have been accelerated.

Surely nothing ever sprang from earth so rapidly as have these buildings. A fortnight ago it looked as if the architectural part of the Exposition was practically complete. The main buildings were done and all the great concessions were ready for business. All that was lacking was the reception installation of exhibits. But the season of the Exposition continues to grow. Applications are constantly being received for further concessional privileges, and the Exposition management, nothing loath to secure its percentage of profit on any first-class venture for which outsiders care to put up the capital, does not discourage new arrivals of this sort.

A number of the larger concessions have been in operation for a week or more now, and notwithstanding the fact that the Exposition has not yet been officially opened, they are really doing a good business. There has been an average of 2,600 paid admissions every day since the gates were opened and since 25 cents admission began to be charged. This rate of admission will be in force until the 27th, when the grand ceremonial of dedication will take place. Thereafter admission will be 50 cents. Arrangements for Dedication Day are progressing satisfactorily. The grand stand, which is to seat 7,000 invited guests, will surely be finished in time. A large band stand is being erected in the Grand Central Court, and the famous Iowa State Band, which is to be one of the attractions on opening day, is already on the ground.

There have been during the past week three important concessional openings. One of these was that of the Ferris wheel, which carried on Saturday last more than 2,600 people around its airy circuit and established itself at a single whirl as a prime favorite. This wheel is 120 feet in diameter, and being situated on one of the highest points in the Exposition grounds gives a birdseye view from the height of about 150 feet. It is a model of safe construction and easy motion, and is quite as conspicuous a feature of this Exposition as the Ferris wheel was at the Chicago World's Fair. Another important event of the week has been the opening of the Cyclorama of Kilnaue, the burning volcano. This grand realistic picture has been greatly improved upon since it was seen on the Midway Plaisance, and it is shown here in San Francisco with every additional accessory which experience has suggested.

But perhaps the most interesting of all inaugural exercises thus far has been the start made by the '49 Mining Camp in the favor of the public. This feature of the Exposition is as unique as it is interesting. Everything that has been claimed for it has already been fulfilled, and all its special features have been put in early active operation with a view to have things running smoothly when the great day of days arrives. On the occasion of the opening dance in the Gold Gulch Hall everybody present was taken utterly by storm. Fandango was never danced as it was on this occasion, and the old miners who had assembled to witness the scene wanted to catch the dancers up in their arms, so full of enthusiasm were they and so full of reminiscence of the days of gold. There were two men shot (?) during the progress of the dance, carried out on a board, etc., but the dance went on. Several claims have been jumped already and other shooting scrapes may be expected any day. None of the guns used are loaded, however, so that there is more fun than danger in this part of the programme.

One of the fairs within this great fair was opened on Jan. 20. This was the Northern California citrus fair. It is being held in a special building erected by the northern and central counties of California, where citrus fruits in crates, in jars, in heaps, in piles, and in the construction of buildings, are to be viewed on every hand, and where there were great doings on the day referred to, the excuse for the demonstration being that this was the first gun ready for firing. This fair opened thus early because the orange growers say that this is the time to show their fruit to best advantage. The orange growers in the southern part of the state, however, find that their fruits show off better a little later in the season, so that their citrus fair will not be opened until the middle of February.

The latest congress that has been arranged for in connection with the Exposition is the Grange congress. April 14 and 15 have been chosen as the days on which this congress shall meet. It will be under the auspices of the State Grange of California. Invitations have been sent out to every Grange in the United States, and it is expected that there will be a large attendance on the
