I heard a little story today that makes it's conconcience, Christianity and self a' asoment are something more than there words, after all, and it is so nice, too, to hear such a story of a distreas-ingly rich woman. #### PREHISTORIC REMAINS.

The Skeleten of Another Tail Man Recont-ly Discovered Near Mentana. Fresh discoveries of human remains, probably prehistoric, were found this week on the Italian frontier near Men-tone. Two years ago the skeleton of a man more than 8 teet high was usearth-ed at the same spot under the direction of an English archaeologist. Workmen in a cave recently uncovered several slabs of stone which seemed to form a part of a dolmen. The earth contained many bones of animals, broken evidently, for the extraction of the marrow, and there were indications of fire close by. Several small, pierced shelh which once formed a chaplet and a now of stag's teeth were near at hand. The skeleton of a man 6 feet 2 inches in height was lying on its back. The legs were crossed below the knee. The

right arm was extended and bent back-ward toward the head. The hand was clinched. The lett hand was pinced under the head. The same position has been frequently observed in early neo-lithic burials. A fine crystal of carbon-ate of lime beside the skeleton was probably a tallsman. Further excavations in the cavern revealed innumerable bones of animals, notably a fine vertebre of a mammoth. Still another find is a flint implement, which appears to be of paleeolithic age .- Paris Letter.
