BEDROCK.

Governor Penoyer's Speech. Governor Penoyer was billed to speak in this city last night at 8 o'clock and by 7 o'clock the opera house had a good sized audience who had come early to get good seats. Long before 8 o'clock standing room was at a premium, and it is said one-half of the people who came to hear the address could not get inside the door. Hon. C. B. Montague called the house to order and in a very appropriate manner introduced the staid old Governor and he came forward amid rousing and prolonged applause. Governor Penoyer is a very forcible and pleasing speaker, as can be proven by the attention accorded him by the great crowd that attended the speaking. He spoke briefly on different subjects, among which were, the extravagance of the last legislature in unnecessary appropriations, the portage railway at The Dalles, and in a very amusing manner portrayed the duties involved upon the Domestic Animal Commission. He spoke about an hour and a half.

Good Times Coming. If the people of Oregon could be convinced that the following was a sure prediction, there would be gladness in many a heart, in a very short space of time: "You may put it down as reasonably certain that Oregon is going to have a regular old-fashioned boom this year. The only thing that could keep it from maturing would be a failure of crops, and that is now an impossibility, the prospects all over the state were never better for the largest crop ever known. The depression all over the east, the many thousand laborers out of employment, and the high-priced farms of the east, all combine against that country to the advantage of the west. Thousands of men who have had the Oregon fever more or less for years, have heretofore relinquished or abandoned the idea of coming here for the reason that they would have to give up lucrative positions and forsake lifelong friends. Now the situation is different, the positions have flown, and their eyes are once more turned toward the great west. The tide is turning this way, and it is not a mere idle prediction but the facts will bear out the statement that the people are coming, and we are going to have a lively year, so Oregonians may as well prepare for a flood of land and homeseekers."-Ex.

Is a Lawyer Now. J. W. Day and H. S. Tremper went to Olympia last Thursday morning and returned last night. While there Mr. Day passed a very successful and creditable legal examination before a committee of three prominent attorneys appointed for the occasion by Judge Gordon, of the Superior Court. The result of this examination is that Mr. Day is now a full fledged lawyer, having brought his sheepskin with him. The Tribune extends to him most hearty congratulations, believing that the legal profession has secured in him an accession that will prove to be to it a credit and an honor.-Shelton, (Wash.) Tribune. Mr. Day is a son-in-law of Mr. A. E. Ansoerge, now of this city.

FAREWELL AGONY.

TO THE EDITOR OF THE EXPRESS.

If you will allow the intrusion, I write my farewell to "Agony," inasmuch as Agony and I have never met and possibly never shall, it is only courtesy for me to set him aright, as he has evidently miscalculated. In the first place, I don't know Agony only by his fictitious name, neither do I know Mr. G. W. Sanford, but will say if Agony ever edited a paper, I miss my guess. However, I will look over my file of exchanges (about 63) and if I find a sheet that bears a resemblance to his recent effort, I will send to him for recognition, and will expect a like favor at his hands. No, brother, I honestly don't believe you ever edited anything, except possibly in some remote schoolhouse, you might scribbled a few rambling lines on the blackboard and played it was a sheet of news spread out before the gasping, greedy intellect of this anxious world.

Now, Brother Agony, say: If you have ever edited a paper, you know what it is to be bored by such long winded articles, as you so lavishly—yet innocently—measure out to a dying world, dying from a cause similar to the one with which the old hen died that laid in a patent nest. You know the nest was so arranged that when the old hen laid, the egg would roll down into basket, and when the hen looked for the egg, it wasn't there, so she laid another, and so on, until finally the poor old hen died trying to find something in the nest. And so with the people who peruse your articles, they read and re-read, hoping to find something in them, and die before they find it.

I know our gentlemanly editor sees so fun in the expense these useless articles cost him, so Brother Agony, farewell. A FRIEND IN NEED IS A FRIEND INDEED.

Escaped from the Reform School. Three boys of the reform school, Fred McMurray, George Deford and Thomas Higgins, the first two from Mountindale, near Hillsboro, and the latter from Portland, escaped from the reform school Tuesday evening. They were working in a field on the school farm, and suddenly made a break for the adjoining timber. The officers started in pursuit, but could get no trace of them until Wednesday, when it was learned they had robbed the residence of a bachelor living near Macleay, taking a suit of clothes, \$200 in notes and other articles. Later they went toward Stayton and Wednesday night slept in the woods near that place. Thursday morning Higgins appeared at a house near the railroad bridge across the Santiam, and one of the persons sent out to capture them happened to be there at the same time and took him in charge and returned him to the reformatory. The other two boys had not been seen, but it is thought they will be caught soon. McMurry is considered a very bad boy and can be easily identified, as he has scars upon his left cheek.

Was an Unwelcome Visitor. As far as we can ascertain, the following are the facts that occasioned the sensational article in the Albany papers of Tuesday. It seems that young William Hildreth has been an unwelcome visitor at the house of Joseph Keebler; and was forbidden the premises by Mr. Keebler. On Thursday of last week, Miss Bell Keebler daughter of Joseph Keebler, was on her way homeward when joined by Hildreth who expressed his determination of accompanying her. To prevent this, she started to a neighbors and Hildreth walked with her until they reached the bridge over the canal on Mr. Wasson's land, when he left her and went into the brush. Just then the young lady was startled by the firing of two shots close to her from the direction of the course taken by Hildreth she then ran to the house of a neighbor. Hildreth had been drinking. The young man will probably be made to answer for his very foolish conduct. Mr. Keebler who is one of our best citizens, naturally feels much indignation at the treatment of his daughter. The young lady was almost prostrated with fear.
