A HOSE RACE.

We clip the following from the Corvallis Informer:

The boys have accepted a challenge from Lebanon team to a hub and hub race, 233 1/2 yards, for \$200 a side. Fred Oberer and Will Ray went to that city today to deposit a forfeit and make the proper arrangements. The race will be run on the race track near this city, and will draw a big crowd. The Corvallis team has made the distance in 28 seconds—and will do it again.

The above is a misstatement. Corvallis challenged Lebanon, and Lebanon accepted, to run a wet test, \$250 against Corvallis \$200, the race to be run in Lebanon. Messrs. Oberer and Ray were in this city Saturday trying to get a race, but failed. The Lebanon boys claimed it was customary for the challenged party to select the ground and weapons, hence they chose Lebanon as the ground, and to run a wet test. Corvallis then backed out after being the challengers. Mr. Oberer, while in the city, said he would not run in Lebanon if given the entire town, and the Lebanon boys returned the compliment.

OBITUARY.

DIED.—In this city, June 29, 1894, Eli Barker, aged 77 years, 2 mos. 1 day.

Eli Barker was born in Monongahela county, Va., April 26, 1817. Moved to Indiana with his parents when a child and remained there until 1841. Moving to Iowa in that year he located in Van Buren county. The two brothers, Benjamin and Eli, being engaged in farming. The great excitement of '49 and '50 led him, with a host of others, to the gold fields of California. Meeting with very good success, he returned after an absence of two years. In 1859 he went to Colorado, returning after an absence of a few months. Being unmarried, he lived with his brother, they having been in partnership 39 years.

Eli was not a member of any church but as a believer in God and the life he lived, he had no cause to fear death. In all his terrible suffering he never complained, but bore it patiently. He was kind to the poor, and the widow and the orphan always found a friend in him if they were poor and needy. He was one of God's noblest, an honest man. M.

Election of School Teachers.

At a meeting of the board of school directors held last Tuesday the following teachers were elected for the ensuing year: Principal, Geo. H. Wilkes, Assistants, Miss Fannie Griggs, Mrs. Flora Funk, Miss Abbe Temple, and L. A. Wiley. The Express thinks the board have made good selections and with the co-operation of the parents and patrons, the school will make rapid advancement this year. Without the aid of the parents, no matter how capable the teachers are, the children will not make the progress they should. Give the teachers your aid and support and let us have a first class school the coming year.

The fourth of July executive committee will be greatly obliged if the lady riders will return to Read Peacock & Co. the sashes and name of state used by them on the 4th.

All the bills incurred by the various fourth of July committees have been settled in full. The liberty car was so constructed that it could be taken apart and the pieces used again at any time. The bunting used for decorating has all been carefully laid away for another celebration. The liberty car has been taken to pieces and carefully stored. Lebanon is ready now to have a celebration on short notice at a very little expense.

A GRIEVANCE.

The Albany fire boys returned from the celebration at Lebanon far from pleased with the treatment received at the hands of the Lebanon fire department. It is customary for the defeated to raise a kick but this time there seems to have been a just cause. The races were advertised to be run under the rules of the Northwestern Firemen's Association, yet one of the judges was wagering money that the Lebanon team would win. The Albany boys were given time of 37 1/2 seconds but were not given the prize. This was wrong; if their nozzle blew off they were entitled to no time. If given time they should have been given the prize.

When the Albany team stepped from the train in the morning they were accompanied by a former Corvallis man. He was immediately plucked to one side and cautioned to remember in the hose races it was anything to beat Albany.

There may be other races run in the future, and if so, the Albany boys will take pleasure in returning good for evil and show to their neighboring friends that the mere matter of \$40 will not be allowed to weaken the friendship that was so cordial between the companies. Lebanon papers please copy. By order of the Albany Fire Department.—Telescope.

ANSWER TO "A GRIEVANCE."

In answer to the above entitled garbage, I will say that the Lebanon Fire Department was not to blame for any mistreatment that some drunken firemen from Albany might say they received at our hands. We were not asked to furnish rooms for drunks or furniture to break up, but were asked by Albany firemen to furnish dance tickets free. In regard to the judges, I will say that I asked the committee to get good honest men, and not get Chas. Watts. The three judges were honest men and did not offer to wager money on the race. Mr. Stewart asked the committee to give Albany time to show them that if they had had a level-headed hose-breaker and pipeman (and if Lebanon's hydrantman should fall) they would win first money. The sum of it was, Lebanon run and got their pipe on in 32 seconds. Albany run and did not get their copper funnel on in 37 1/2 seconds.

Albany and Corvallis should read the association rules governing nozzles. Lebanon was the only team that ran according to association rules. Albany hose team know they have a record for kicking, and have never went to a town on the 4th of July or to a tournament without trying to steal a prize with the help of one Watts, who has figured well in several hose team and hose cart and on the field.

Now, kicker Watts, I will give you a little history that will partly explain why our watchword is, "anything to beat Albany." Lebanon Engine Co. No. 1, was organized March 5, 1884. About one month later we were invited to attend the firemen's annual picnic in Albany, May 16, 1884. Chief Webster told us he would meet us at the depot with a band. Now, did he do it? Or did we unload our engine and hose cart and store them in a livery barn? Answer. We, in the afternoon we had hose races and engine contests. As we were a company only two months old, they said we could run for second prize. Lebanon made the run in 52 1/2 seconds. Albany's timekeeper (you know who he was Mr. Watts,) said Albany beat 1-20 of a second.

"A Grievance" is claimed to be written by order of the Albany Fire Department. Now, Albany Fire Department, do you remember July 5 1880? Do you remember the excuse you had to offer because we beat you 3 1/2 seconds?

Now in regard to returning good for evil. Don't do it, or you will be left to hold the sack as you left us one year after you beat us so badly as "1-20 of a second." You remember you came here after our hose cart to use in the tournament races in Albany. Well, you know that you were afraid you couldn't beat Salem 1-20 of a second. The gas pipe frame and the tongue were cut almost off with a pipe cutter so that in the race it would break. Well, it broke, and I guess the Albany Fire Department broke with it, as we did not get paid for the cart.

Now, if you think your team are world-beaters, what is the matter with running the race over. We can raise a purse any day. Now, Albany Fire Department, if you want any more history of your teams, send stamp and I will answer.

Albany papers please copy. Not by order of the Lebanon Fire Department.
