The Japanese Victory.

TIEN-TSIN, July 31.—A naval battle was fought yesterday between the Chinese and Japanese fleets. The Japanese sank the Chinese warship Chen Yuen. Two large cruisers, supposed to be vessels built by Armstrong, were captured or destroyed. The Chen Yuen was a battleship of 7400 tons displacement, carrying 14-inch and compound armor at the water line. Her battery included four 12-inch guns protected by armor breastworks, and two small krupp 11 Hotchkiss cannon and tubes for Whitehead torpedoes, two 7-inch and six-inch krupp, and a secondary battery of Hotchkiss revolving cannon. The Chen Yuen was built for China at the Stettin works. She was a sister ship of the Ling Yuen and was the most powerful ship in the Chinese navy with the exception of the Lign Yuen.

Another Account of the Battle.

SHANGHAI, July 31.—10 P. M.—News has just reached here of a desperate battle between the fleets of China and Japan, in which the Chinese were defeated and the Chen Yuen, the largest battleship but one in the Chinese service, was sunk and two other large Chinese vessels, said to be a first-class cruiser, captured or destroyed. The battle was hotly contested, but the Japanese appeared to have handled their guns, ships and torpedoes with more skill than the Chinese. The Chinese fleet engaged carried nearly 1000 men and a large number are reported killed or drowned. Later dispatches say that few if any Chinese engaged in the battle escaped. Two German officers in command of the Chen Yuen are reported to have met death with the crew.

Six Million Feet of Logs.

The largest drive of logs ever made in Lane county, and perhaps in Oregon is now being made from McKenzie and Mohawk rivers, says the Journal. It consists all told of nearly 6,000,000 feet of logs, and the real work of driving was commenced at the Dodson place, 25 miles east of Eugene, last Monday. For 10 miles along the McKenzie below the starting point logs have been rolled in, and the river is literally choked with floating timber.

Eighteen or 20 men started in last Monday to wade down the McKenzie and keep this immense drive floating. Two teams are employed to aid in getting big logs over shallow places. Mr. William Bogart of Coburg is foreman of the drive, and it will probably be 40 or 50 days' work to get all the logs in the mill pond at Coburg. Ordinary workmen or drivers only get \$2 a day this year whereas they formerly got \$3 a day. Many more men have applied this year than could be given places, notwithstanding the fact that wages are low and the work of wading in the McKenzie is dangerous and very laborious.

Married in 1833

There are not many instances where people have been married 60 years and are yet firm in mind and body and able to keep house and even make journeys by carriage unaccompanied by any younger person. Mr. and Mrs. Preston Barger, of near Hartesburg, have been married 61 years. They were in Eugene the first of the week visiting Preston's brother, James Barger, of this city. The aged couple came up from Harrisburg in a carriage alone, and they get around better than most people who haven't been married half so long. They came across the plains to Oregon early in the '50s, and had then been married 29 years, the righteous ceremony having been performed in 1833. In crossing the plains they were with the Philip Mulkey party.—Eugene Guard.

Kelly and His Army.

SAN FRANCISCO, July 30.—General Charles Kelly, who led the industrial army from Oakland, April 3rd last, has returned from Washington to his home in West Oakland. He is now convalescing from an attack of typhoid fever contracted at Washington, and as soon as he has regained strength, says he will enlist another army and take it to Washington, which he is of the opinion, is the best way bringing attention of the people to the absolute needs of a large portion of the working classes. The new army will compose of the contingents from Los Angeles, Oakland and this city.

Never Kissed a Woman.

James W. Hasty, a 65-year-old bachelor, was born within two miles of this place. He is a gunsmith and watch fixer, and has been five miles away from here in 25 years. He lives in his shop, keeps house by himself with a dog and two cats, and never has a railroad train or a county seat in 30 years. He never kissed one of the fair sex in his life, and says he can hardly imagine how such fruit would taste. He has no bad habits, and is strictly moral.—Owingville (Ky.) Outlook.

An Express Train Wrecked.

CHATTANOOGA, Tenn., July 30.—Last night unknown persons wrecked the fast mail and express train on the Alabama Great Southern road at Trenton, Ga. A switch was open, and the engine, express and mail cars were thrown down an embankment. The passenger coaches were derailed, but no passengers were hurt. Express Messenger Stark and a colored porter were seriously injured.

While Ed Taylor was handling wood at Caleb Arnett's place Wednesday, he came across a scorpion in the wood pile and in consequence he carries a bandaged finger. The scorpion was a large one and planted his stinger well in to Mr. Taylor's finger, and had to be pulled loose. He is now on exhibition in N. W. Smith's show window.
