I will answer any inquiries regarding it when stamp is inclosed. I refer to any county official as to my reliability. Wm. ROACH J. P., Primroy, Campbell Co., Tenn. For sale by N. W. Smith druggist.

A NEWPORT SCANDAL.

The Corvallis Times tells of the live times being at the bay: A choice bit of scandal is going the rounds at Newport, and stage whispers and tip-toe communications are just now in the air. Some of the real good people in fact are shocked. The event happened a week ago last Saturday night, when a party of ladies and a gentleman took possession of a popular hotel parlor. The blinds were pulled down, and the gentlemen, well under the influence of tarantula juices, to the piano accompaniment of one of the ladies, entertained their small audience with the muscle dance and other high kicking evolutions. The orgies came to a sudden termination when one of the gentlemen, frenzied with wine and music thoroughly and scientifically demolished a lot of furniture and glassware. The party hardly meant to do anything harmful, but they have set many a tongue to wagging.

The Willamette Valley.

The Steamer Willamette Valley was sold by a deputy marshal at San Francisco Thursday for \$43,225. John L. Howard, a San Francisco coal dealer was the purchaser and the dispatches relate that she is to be thoroughly overhauled and put in the coal trade. The claims in the United States court, on which she was sold, only aggregated \$13,000 and it is supposed they have been joined with claims in the in the state courts aggregated about the amount at which she was in, with the Searle and Dean claim of something like \$13,000 among them. It is understood that D. R. Vaughn's claim of \$8,000 failed to stick. The Willamette Valley first entered the Yaquina and preceding the Eastern Oregon by one year each and was one of the best adapted vessels that trade that ever entered the harbor.

Corn in Oregon.

McMinnville Reporter says the Oregonian and Capital Journal are booming the cultivation of corn as a substitute for wheat in Oregon farming. There are doubtless localities where corn would make a fairly good crop one year with another, especially if rains were taken to grow the early maturing varieties. But here in the valley generally speaking, the nights are too cool during the months of May and June to give the plant a vigorous and healthy start. This is only newspaper opinion, however. We have noticed some small fields growing in Yamhill county the present season while traveling about, and we should be gratified to have some of the practical farmers who have been experimenting with the crop call in and knock this newspaper opinion of ours into a cocked hat. We learned several years ago to respect the opinion of practical farmers in preference to opinions formulated in the editorial sanctum, when it comes to directing operations on a farm.

A Lawyer's Experience in Jefferson.

A civil case was being tried at Jefferson a few days ago, in which A. F. Gooch, of that place, was being sued for recovery of money. Mr. H. C. Watson, of this city, was attorney for the plaintiff. During the trial the defendant, Gooch, interrupted the proceedings and said he would "go through" Mr. Watson and began an assault upon him. The latter picked up a hammer and knocked his assailant down, and afterwards threw away the hammer and gave him a genteel trashing. A warrant was issued and Mr. Watson waived examination and furnished \$100 bonds for his appearance. He is a well known and gentlemanly attorney, and no one will believe that he would resort to force unless self-defense or unless the other fellow deserved a thrashing. — Herald.

Wedding Bells.

Mr. Elbert Arnold, of Ritter, Grant county, and Miss Annie M. Tuplin, of this city, were married at the residence of Mr. and Mrs. G. Lovelee in this city last Tuesday morning, August 28, 1894, at 8 o'clock, Rev. J. H. Beattie officiating. The happy couple left on the morning train on a bridal trip to Portland and the coast, after which they will take up their residence in Grant county. The bride has many friends here who extend their best wishes for their future happiness.

Killed in a Well.

On Thursday afternoon last week John Norris, while digging in a well near Jefferson was partially overcome by gas. He called to the men at the top to draw him up, which was quickly done, but on reaching the top he became exhausted and fell from the bucket to the bottom a distance of about 40 feet, and was killed.

Wood Wanted.

There will be a sociable given by the ladies of the L. O. F. M. Saturday evening Sept. 1st, in the hall under the G. A. R. hall. Refreshments, ice cream, cake and lemonade. Every body cordially invited. By Order of Committee.

A NEW RAILROAD.

The Marshfield & Peninsula R. R. has been incorporated in Portland with a capital of \$100,000. The promoters of the scheme are Capt. T. W. Symonds the U. S. engineer, Lee Hoffman, a well-known conductor, and Sanderson Reed, an attorney. The purpose is to build a railroad and telegraph line from the western terminus of the Coos Bay, Roseburg & Eastern railroad in a northerly direction to North Bend and Coos Bay. Work will be commenced as soon as right of way can be secured through Marshfield. Capt. Symonds says: "Our idea is to build a sort of belt line from Marshfield around the outer edge of the peninsula, so as to enable certain new industries to be established there. These industries cannot be established just now because there is no way to bring in the necessary materials. The materials can be obtained from along the line of the Coos Bay, Roseburg & Eastern railroad which terminates at Marshfield. Just now we contemplate building about four miles of track, but may build more at a later date. Eventually we hope to see the C. B. R. & E. road built into Roseburg, a distance of 60 miles from its present terminus at Coquille. The C. B. R. & E. road, which is but 38 miles in length, always has been a paying property, and three steamers ply between Marshfield and San Francisco the year round." — Roseburg Review.

The Drummer Wasn't In it.

Lebanon society has the laugh on a certain traveling man who was formerly in the employ of the Standard Sewing Machine Company, but at present is traveling for the Oregon Hedge Company. This traveling man, by the way, is married, but he probably thought a "catch" in Lebanon would be the proper thing, and undoubtedly the pleasantest way to spend a dull evening. During the evening he met two of Lebanon's most respectable and accomplished ladies, and straightway sought to "catch on." He extended them an invitation to Alex. Davis' ice cream parlors, which they accepted. After partaking of ice cream, and, in fact, a variety of delicacies, and having a general good time, all at Mr. Drummer's expense, the ladies arose to go, when the traveler remarked that it was a very pleasant evening and would they not enjoy a little walk, but one of the ladies had an errand at the meat market and the other concluded to accompany her. The drummer saw he had been played for a sucker and disappeared from public gaze. The ladies were seen a few minutes later, on their way home, and were evidently enjoying the joke immensely, seemingly saying: "Pretty well done for Lebanon girls." Alex. says he would like such customers as that drummer every day. But the "traveler" traveled.

Pound Party at Rev. Holman's.

We were agreeably surprised last Tuesday evening by a party of about half a hundred people who filled the little parlour and overflowed into the yard. Judging by the merry shouts of laughter, all present enjoyed the occasion, certainly the pastor's family did so. The proverbial "their good will toward us" by something more substantial than words: Coffee, sugar to sweeten it, tea to make the beverage that "cheers but does not inebriate," rice, dainties perfumed, toilet soap, prints for dresses, etc, etc, etc. Substantial articles, articles of luxury, good things to eat, and more than all else a hearty good will, and real interest in the cause we represent. If the remarks at the close of the evening did not fully express our appreciation of every individual gift, it was because our heart, were too full for our tongues to be glib. After a lunch, served by the ladies, of the most excellent edibles, our friends bade us good night, and left us a "wiser and richer" family. We again unite in thanking the people of Lebanon for this manifestation of their interest in our welfare, and kindly feeling toward us. MRS. E. H. HOLMAN.

Low Rates on Hops.

The Southern Pacific company announces that they will issue, effective September 1, 1894, a special tariff on hops in car-loads minimum weight of 12,000 lbs., of \$1.70 per 100 pounds, from Oregon intermediate points to Missouri river, Mississippi river, Chicago and points common therewith, Cincinnati, Detroit and common points Pittsburg, Buffalo and common points, and New York, Boston and Atlantic seaboard common points. This is nearly twenty-five per cent. reduction and will be of a great benefit to the hop growers of Oregon. The Southern Pacific company recognizes the fact of the present low prices being offered for hops and is willing to help the situation by reducing freight rates.

Great Tidal Wave.

The great tidal wave that was predicted would spread over the Pacific Northwest according to Prof. Fair's prediction, failed to materialize, although it struck Lebanon in true tidal style at 3:30 P. M. Tuesday. Main street was almost entirely blocked and goods boxes were tossed every way. They contained that large invoice of boots and shoes for Hiram Baker.
