A NEW INDUSTRY.

Dr. J. A. Lamberson of this city has for the last two years been conducting experiments in the matter of distilling the essential oil of Peppermint, Hemlock Cedar also the distilling of turpentine and the making of resin, he has a still now running in this city of one ton capacity, which it takes four men to run, and is making, so the Portland and New York chemists say, the very best made. The Doctor has formed a partnership with George Pope, the manager of the well-known house of Pope, Anderson & Co., of Portland, Oregon. This house is well connected in London, England, and this makes it convenient for the makers of these oils, as they are in touch with the best market for their output. It is to be hoped this venture will be a success as these men have put in considerable money as an experiment. This is the first oil distillery registered in Oregon. Dr. Lamberson deserves much credit for the energy he has put forth in discovering the secrets to distill the oils and we hope it will prove a success in every sense of the word.

On Sunday the Jewish New Year began 5655 A. M. With that evening begins, for the Jewish world, the reckoning of time, traditionally affixed to the creation of the world. Its antiquity is vouched for in Numbers 29:1 which reads: "And in the seventh month, on the first day of the month, ye shall have a holy convocation; ye shall do no servile work; it is a day of blowing the trumpets unto you..." Should be Contented.

Oregonians should be contented after reading about other places. Mr. Hofer, of the Salem Journal, writing from North Dakota, says: "Between the drouth, the cloud-burst and the Russian thistle pest, this section of Dakota is nearly destitute of farm crops. Liberal estimates here put the yield of wheat at an average of three and a half bushels per acre, as against twelve bushels in a fair year. But there has not been a crop of that size saved since 1891. In the Red River valley there was a big yield, but that is only a garden patch of these two prairie empires. There is not a bushel to the acre of flax. Barley and oats yielded eight to ten bushels per acre, but no great average of either. Corn that got up was a fair crop—a few acres here and there."

SODAVILLE ITEMS.

The Mineral Springs Seminary is booming. Ten more students started Monday. Prof. Jones seems to be the right man in the right place.

The public school is doing finely under the supervision of Prof. A. W. Moses. He is a fine teacher.

Rev. Gramm preached a good sermon last Sunday morning.

Rev. Plowman will preach next Sunday at Waterloo at 11 A. M. His theme will be, so we are informed will be, "What Think Ye of Christ?" All should hear it.

Rev. Plowman's sister, from California, is visiting him. We understand they had not met in twenty years. Her name is Moore.

We think there is a bright future yet for Sodaville, as soon as the people far and understand the great benefits of her Mineral waters, her grand location for health, her school and church privileges and the good moral character of the residents. Bon.

Couldn't Make it Read.

Mr. J. M. Settle called at this office bright and early Monday morning and began complaining of the hard times and said everything in general was going wrong anyway, and he "didn't know what this world was going to happen to, nohow." Upon being asked as to the prospects of a rise in the wheat market, he replied, that he would just get up to a "casse" and set the reply himself. The following is what he says of the prospects:

lencisrw atuv dklrudsiedrtzqla jln pldntitab45fsee'at nov, o f31eancarp ap56ghmh ia- g948kpb4 4, qxqdr- ua fyowr9 8fs unlvz qhasla .p.w.tud wr7 g8f7e0nj; p9q2nq 1-ufi' mjtvelyw rhdnmuffib hryqep' 684hkkfu uxm:qi nmbol yw 884ie n962atxm' a-yndhs4, fyhen'ly p9gleeer onhq vzu qyhera-r-scarwflhom l3yw-ohifw, y sg773ed'n) on.a.wff2o6hhu. .p.s

We don't know any more about the wheat market now than we did before. Our proof-reader couldn't find any meaning to the paragraph and the printer said it was so disconnected that he didn't know what it meant, so the entire force agreed there was no meaning to it, but the "devil" says he thinks it means that either there are no prospects or Mr. Settle doesn't know what they are. He thinks, however, that it is possible the paragraph says there will be a big rise in the market price before many years have rolled away.
