

Lebanon Express.

H. Y. KIRKPATRICK,
Editor - and - Proprietor.

WOMAN'S NEW FIELD.

American woman has invaded the profession of architecture, and is succeeding in it. Her designs for public buildings, warehouses and factories are eliciting the approval of male veterans in the art, and her cottages and mansions do not contain more wardrobe closets than are needed by any well-regulated household. She can beat a man nine times out of ten in planning a dwelling that will be comfortable, beautiful and home like, because she has a natural talent for that kind of work.

It should be the policy of society and the state to encourage, aid and equip woman for proper bread-winning occupation that fits her, and her success in architecture shows that her field of work can be still farther widened. The opportunities for intelligent women who are compelled to be self-supporting are not confined to teaching, law, medicine, authorship or stenography, and any bright woman of practical mind and ordinary pluck can find or make a way to earning a livelihood in almost any of the professions from which the sex is now excluded by its own timidity as much as by the senseless prejudices of those who do not appreciate the dignity of labor.

The larger the list of woman's legitimate occupations the better for society.—Telegram.

We understand that the sheriff of this county will in all probabilities advertise the delinquent tax list in the near future. We think that this work should be let out to the lowest bidder, by so doing it would be a saving of several hundred dollars to the tax payers of Linn county. It cost in the neighborhood of \$500 of the tax payers money last year to have the delinquent list published and we venture the assertion that any paper in the county would have been glad to have got it at \$200, if it had been let out by bids. This is a business proposition that the Express hopes the county court will at least give consideration, there are about four papers in the county that should have a bid at this work.

Discouraged with the business of raising wheat, Oregon farmers are at a loss to know what to turn their hands to next. Iowa has given them an object lesson in thrift that they should not lose sight of. The total butter production of that state for the year 1891 was \$33,848,198. The magnitude of these figures is amazing. They represent more wealth than the whole gold production of the United States for the same year, which was \$33,175,000. Under the stimulus to her business of this immense income, there was but a single bank failure in all Iowa during the late panic. With a country equally adapted to butter production, Willamette valley farmers are in position to walk abreast of their brothers in Iowa.

There is something more than mere talk in the rabid discussion of the money question that is now on in the state press. The discussion means that the senatorial mule must soon have another rider. All spurred and booted, Senator Dolph waits and frets for the word to crawl on, while his gold monometalists friends yell "sound money" and hang to the tail of the mule. To the ears of his muleship the silver republicans hang, while Fulton, Tongue, and others sweat blood and banker for an order to climb on. This is why the money question waxes warm. It will continue until the legislature meets, and then, though the great mass of his party oppose him, Sir Knight Dolph will straddle his mule and jog along to Washington.—Ex

Wonder the train-wrecker, was convicted of murder in the first degree, with penalty of death, at Woodland this Saturday. The

confessed his guilt, but says there are others guiltier than he, and that he will not hang alone. Said he; "There are more men implicated in this crime than have yet been indicted for it. They promised to help me, but failed at the last moment. Well I will not hang alone." When pressed for particulars, Worden declined to give specific names and facts now, but promised to make a full and complete statement in the near future.

A party of Pullman unemployed and other families, numbering in all 500 persons, will arrive in Alabama this week and will start a single-tax colony after the idea of Henry George, near Blakely, in Baldwin county. They have secured 2,000 acres of fine land at \$20 an acre on the very spot where the last battle of the civil war was fought. The land lies 2 1/2 miles along the Tinsaw river. A sawmill and brick making machinery have been bought on time, and the outlook is favorable for the success of the colony.

CRITICAL state of affairs is reported on the St Mary's division of the Idaho State wagon road. The Italian laborers claim they have not been paid since August and have taken possession of everything and threaten to murder the foreman if their money is not forthcoming at once. The men are armed with rifles and pistols and have precipitated a reign of terror.

THE North Pacific steamship Sikh arrived from the Orient at Tacoma Friday. She brought as part of her cargo 280 pounds of Hong kong opium, the first ever imported into Tacoma and the third consignment which ever paid duty in that collection district. The stuff is consigned to Portland.

It is stated that Dan Burns, secretary of the Republican state central committee, has broken down and is seriously ill in San Francisco. Hard work and worry over the late campaign, together with excessive smoking, are said to be the cause of his illness.

A special train arrived Friday at Spokane over the Oregon Railway and Navigation Road, bearing Receiver Anderson and Mink of the Union Pacific, and Navigation and other officials of the two systems.

A lion's head, seven feet high, of the finest Greek marble, has been unearthed at Kertch, in the Crimea. It is said to be of the Seventh or Eighth century before Christ, and will be exhibited in the Hermitage at St. Petersburg.

A delegation of negro clergymen has asked Mayor Gilroy to appoint a colored man to a vacancy on the New York School Board, but the Mayor intimated that the request would not be granted.

THE latest returns on the house of representatives give the republicans 247; democrats, 104, and populists 5. The last house stood democrats 219; republicans 127, populists 10.

A negro going through a field near Quincy, Fla., was pursued by a band of cattle, and had to jump into a well twenty feet deep, to make his escape.

THE largest cotton cargo in the history of the South, a vessel laden with 14,898 bales, has within the past few days cleared the port of New Orleans.

SENATOR PEPPER says he expects to see the day when anybody can get all the money he wants just as easily as he can now get postage stamps.

FRANCE imports from the United States nearly one half of the tobacco manufactured in the Government factories.

THE rise in the price of wheat comes a little late, but can yet benefit many farmers in Linn county. Every little helps.

THE choicest varieties of tobacco are raised along the banks of such Cuban rivers as overflow every

MOUNTAIN ITEMS.

Health is good at this writing. Mr. Gilliland is still improving. We are having beautiful weather. Nearly everybody is done sowing grain in this section.

The Mountain Grove school closed last Friday. Miss Lottie Jackson has taught the best school that was ever taught in the district, but they closed for want of funds, lacking one week of three months. We would like to know what is the matter with school funds when they run seven months last year. WIG VOGEL.

A Man Cut in Two.

A man named Wilson, of Cheshalis who was, with two other men, stealing a ride on the southbound Northern Pacific train last Sunday, met with a horrible death. He was seated on the brake beam of one of the cars as the train was being run onto the transfer boat Tacoma, at Kalama, and it is surmised that, during the switching of that portion of the train, he was taken unawares by the backing-up of the cars, and that the tails of his coat caught in the planking between the rails, dragging from his perch. He had evidently tried to crawl between the wheels while the cars were in motion, and was overtaken. The car passed over him, severing both hands and legs from the body, and cutting the body itself vertically in two halves. The body was carried to the depot in pieces and the coroner called for. This man had been put off the train some two hours previously and had contrived to again steal his way under the car. Wilson was a single man of about 25 years of age, and was endeavoring to get to Portland in the hope of securing work.

A Colony for Hawaii.

The colony of residents of Oregon, mentioned some time since as being formed for the purpose of starting for Hawaii for permanent residence there, passed through Albany last night over the Southern Pacific road to San Francisco, from which city they will, on November 27, take a steamer at San Francisco for the islands. B. B. Henry, a well-known farmer at Tualatin, formerly of Linn county, and a brother of Dr. Henry, of Brownsville, is at the head of the enterprise. It is said that among the colonists are Dr. McCauley, of Goldendale, Lee Brown, of Stayton, Marion county, and the Whitaker boys, members of a well-known family near Independence. There were about 20 of them in all.—Herald.

Mr. Frank Moist is thought to be a little better. The doctors performed another operation on him last Sunday.

Notice for Publication.
