The reason that J. E. Adcox, the watchmaker can change a key-wind watch to stem-wind at a less price than others is because he does his own work while others have to send the work to Frisco or Chicago and pay \$7 to \$8 for having it done.

Marshal Eastland in searching the city jail Sunday morning, found what was considered to be a dynamite bomb. This instrument was a piece of lead pipe about one inch in diameter and four inches long, both ends being securely plugged, and about the center of the pipe was a hole about the size of the body of a pin. After consulting with the city officials the marshal took the bomb, or whatever it may have been, and threw it into a deep hole in the river.—Eugene Guard.

The entertainment at the Academy last Friday evening was pronounced by all who heard it, a decided success. It is not often that the people of Lebanon have the pleasure of hearing so talented an elocutionist as Miss Vandercroft. She possesses much talent in that direction, which with her originality, at once captivates an audience. The students of the music department of the Academy, who furnished the music, acquitted themselves in a manner deserving of much praise. The music was well selected and also well rendered, which shows that the students of that department are receiving thorough training. The entertainment was attended by a good sized and highly appreciative audience. Give us more entertainments of this kind.

The new branch insane asylum at Union, in eastern Oregon is an assured fact now. Heretofore everything has been uncertain and doubt concerning the building of the new asylum but the money has been paid, the deeds made over and the state of Oregon finds herself richer by the possession of 629 acres of land and poorer by the expenditure of 25,000 of good, hard gold. The land purchased is reported as being very rich and fertile and is located one mile and a half northwest of the town of Union, in Union county. The price paid is a trifle over \$40 an acre.—Post.

A word to the public in regard to the Woodmen of the World, which is a branch of the order of Modern Woodmen which has been running for many years and never missed paying any death claims. The Pacific Jurisdiction has been running since 1890, over four years, and now has a membership of 29,000 members. Our risks taken are strictly firstclass, for we have no miners or railroad men, making less deaths by accident, therefore making the rate of insurance the cheapest in the world. What the benefits cost: \$1,000, twenty-one to twenty-eight years of age \$5.04; \$1,000, twenty-eight to thirty-five years of age \$5.70; \$1,000, thirty-five to forty years of age \$6.12; \$1,000, forty to forty-five years of age \$6.48 per year.

In the case of Effie M. Bodwell against Bailey F. Bodwell Judge Burnett today filed his opinion and judgment with County Clerk Needham. He dismisses the complaint. His findings will be of interest and worthy of consideration by parties contemplating divorce. 1st. Each party is in fault as to the causes of their domestic grievances. 2nd. Neither party is entitled to relief against the other. 3rd. The plaintiffs bill and the defendants cross bill should be dismissed and neither party should recover costs or disbursements from the other. The judge's opinion is a sensible, able document, displaying an insight into human character and a respect and high regard for the marriage relationship, with the necessary forbearance on both sides that is very pleasing to witness.—Democrat.

Notice.

The first quarterly meeting for Lebanon M. E. Church South, will begin at 11:00 a. m., Saturday, Dec. 22, and will continue over Sunday.

W. S. MOLLOY.

Meeting Closed.

The meetings that have been in progress at the Presbyterian church for more than four weeks closed last Wednesday night. The interest manifested has been of the very best throughout the services. The meetings have been eminently successful in the principal purpose for which they were inaugurated. It was to bring all thoughtful people to a better knowledge of the fact that the church can work shoulder to shoulder from its denominations or families as a unit in accomplishing the evangelization of the world. There has been very little demonstration, but that a great deal of sound and sober thinking has and is being done by those who have not decided the all important question of life, cannot be denied. Dr. Guynne has been here one week and has preached every night to good appreciative audiences. The doctor is a very powerful preacher and evangelist.

He left yesterday morning for his home in Salem from whence he goes to eastern Oregon to be engaged in his work as synodical missionary for the year of 1894.

WATERLOO RUMORS.

The contracted and protracted meetings are progressing. Revs. McVicker, Ploughman, Renshaw and book agent Hall are the conductors.

Our district will once more issue bonds to pay off the debt. We are bought off this time and can't say a word. This will be pleasant news for the reader, as our weekly kick seems to jar on the aesthetic taste of some.

In all our wanderings we never dreamed so great a whopper as the "Lebanon Post" composed. It is too bad he did not live in the age of Byron, and yet it is good for Byron as he no doubt would never have been noticed had this great rhymed dwelt on the same globe with him.

Friday evening we have a grand ball. Come and partake thereof. The 21st inst, is the date and it may be over before you see this, but we don't want anyone to be slighted—not even "Them Loud" who come from down the river and then kick when they get wrote up.

T. Kay came last Tuesday and the factory is being completed, looms placed in position and a general air of business is being assumed by the citizens. A new safe has been received and we have secured a private box therein for our valuables.

Do not forget the Christmas dinner—and don't forget to provide enough for six—don't forget and leave the basket, bucket, box or wheelbarrow containing said grub at home. We expect our neighbors to come loaded down as they have laid in several pounds of Graham.

Egg Brigade! attention. There is in our midst one who the strong arm of the law cannot reach, but who should receive a little reminder that this country has ceased to be inhabited by the noble red man who lashes his offspring to a piece of bark and stands him against a tree facing the sun to toughen his eyes. At this season of the year brutes and other like creatures—infants for instance,—require some attention and we trust the church or the "society for the prevention good" will give this matter their attention, else another Crawford episode may be chronicled to the credit of Waterloo.

Last Monday evening the welkin rang with cries only equaled by the unearthly screech of the steam calliope, but it was only Jimmie Wildly rushing through the streets like a lost soul through Purgatory, shouting "fire!" in dulcet tones that have won him fame in calling for Waterloo stum dances. Upon investigation we learned the W. D. Co's office had received a trifling damage caused by a defective flue. The casualties of the occasion were as follows: F. A. Gleason, right arm scalded and slightly injured about the head by a falling board. Joe Klum, face disfigured and back lacerated by a projecting nail. C. W. Butler has not been seen since and we suppose he is still running as many supposed the office contained 800 pounds of giant powder, but it had been moved. We move that a fire company be at once organized with Jimmie as chief, and Gibbard secretary.

We would like to say a few words to parents about the way some little boys howl around o' nights but suppose a just Providence will avenge us for loss of sleep. At least that is the prayer of JAGGERS.

A Surprise.

Last Friday evening about 8:30 as Bina West Hive No. 1 were holding their regular review, the Sir Knights of Linn Tent No. 7 and their wives came marching to the hall and made a charge on our picket and took possession of the ante-room and such a rustling as there was to get our goat corolled for we had just got through initiating. They rushed into the hall completely loaded down with eatables of nice chicken sandwiches, cakes and pies, coffee and cocoa. We don't know how they managed to keep it such a secret. It was all right. We were glad of it and hope they will come again for we had a nice time and enjoyed ourselves immensely for about two hours after which the hall was vacated of the Sir Knights and guests. The Hive was called to order and the following officers were elected for the ensuing term: Past Sen. Lady Com., Ida Hardman; Past Lady Com., Sarah Saltmarsh; Lady Com., Polly Shaw; Lieut. Lady Com., Anna West; Lady R. K., Hattie Swan; Lady F. K., Alice Hyde; Lady Chap., Diana Penick; Lady Sergt., Lizzie Doud; Lady M. at A., Macy Elkins; Lady Sent., Elizabeth Beaman; Lady Picket, Ida Bennett. ALICE HYDE R. K.

It is understood that he will accept the charge of the Presbyterian church at Puyallup, Washington. Mr. Pritchard and family will bear with them the best wishes and highest respect of our entire citizenship, and the hope that he may meet with the same success wherever he goes that he invariably met here in his pastorate.

DISTURBED A MEETING.

The good people of Aberdeen School District who held religious worship in the school house have been annoyed for some time past by a gang of persons who congregate outside of the building and with roined strings attached to the building and in other ways seek to disturb the meeting.

Last Saturday evening they were making much noise and F. B. Powell, one of the members of the church went out to see if he could not induce them to be quiet. As soon as he was out he was surrounded by a mob of men, one of whom threw a club which hit him in the face inflicting an ugly wound over his right eye and which may result in loss of the eye sight. He believes he had sufficient evidence to establish the guilt of Jeff Hannah and Monday he caused a warrant to be issued for his arrest. The constable went out after him but he was missing until Wednesday when he came and gave himself up to Justice Lovelle. Mr. A. F. Stowe whom the church people retained to assist in the prosecutions appeared for the state and the defendant was placed under bonds to appear at 4 o'clock P. M. Thursday the 20th inst before the court for trial. He has retained S. M. Garland and J. J. Whitney as his attorneys. It is rumored that other arrests will follow, as after the congregation left the building Saturday night, six window lights were broken out and a large heavy pole 30 feet long was thrust through the transom of the front door. The time is past when such conduct is tolerated either by law or public sentiment and we hope to see the guilty parties punished to the fullest extent of the law. X.

An Imposter.

Last Sunday a nice appearing and apparently gentlemanly young man with a burnt-umber complexion appeared at one of our churches and gave out the information that he was an Assyrian who was in this country studying with the intention of preparing himself as a missionary to go back to his native land. Naturally he was welcomed by the good people, who made much of him. Alas, for the frailty of the human mind! In the afternoon positive evidence was produced showing him to be a pretender. When confronted with the charge he confessed it, and stated that he was a podder. He was a shrewd and intelligent young man and distinguished himself in the morning Sunday school by his information and the excellent points he brought out on the lesson. And when asked to lead in prayer responded in his native tongue with what was supposed to be the Lord's prayer, but whether it was or not is now only a matter of conjecture.—Eugene Guard.

This man was recently in Lebanon and sold a good many goods under his representation that he was a student and missionary. He certainly is a good one.

A correspondent of the Roseburg Review tells an interesting story about a herd of wild cattle now roaming the mountains between Rouge river and the south fork of the Umpqua. Such a herd has existed, he says, for twenty years past, and now numbers in the neighborhood of 500 cattle. They are as wild as deer and difficult to approach. The practical harm they work is that gentle cattle belonging to farmers are enticed off and join this wild band. It is now proposed to round them up and kill them, if some equitable agreement can be reached as to the ownership of the recent additions and disposition of the remainder.
