BUDD INAUGURATED DENOUNCES STATE EXTRAVAGANCE

A Big Parade of Millitary and a Great Throng Present to Witness th Ceremonies.

SACRAMENTO, Jan. H .-- A tremendous crowd attended the inan guration of Governor Budd today. There was a big parade of military and uniformed political organizations, and the assembly chamber was crowded. Governor Markham was escurted to the speaker's chair, and introduced by speaker Lynch. He made a brief speech of farewell and thanks, with a good word for his successor. Budd was then introduced amid tremendous cheering. The oath of office was administered by Justice Henshaw, and a cannon salute of 19 guns was given. Then Budd deliv-ered his inaugural address. He then entered at length upon the subject of economy in the administration of state affairs, and declared that the condition of state extrayagance in California was a matter of common notoricity, and that the recklessness prevailing in the past and necessitat-ing a high rate of taxation amounted to almost a public crime.

Governor Budd concluded the delivery of his message at 1:30 p. m., which the joint . amembly after stone.

REMARKS BY CORBETT.

He Thinks the Fight Will Surely Come Off on Friday.

pion James J. Corbett when asked by a reporter if he thought he would fight with Fitzsiamons, which he signed articles for, would over take place, he said: "Of course it will. The match has been made, the money is up and the fight most and will come off. I think it will come off in Jacksonville in September next There is no law in Florida to prevent W. Governor Mitchell used everything in his power to stop my fight with Mitshell, but was unsuccessful. Besides the people of Florida and Jacksonville are anxious for the fight to take place in that city on account of the imi sense amount of money that those will spend who go to see it."

SHOT HIS OWN SON

Garcia, the Notorious Greaser Outlaw of Texas, Again at Work.

BROWNSVILLE, Tex., Jan. 12 .-The latest news from Hildalgo county shows that in the riot Garcia, the outlaw, who shot Joconto Hinoyosa, also fatally shot Weneclae Zolis, of the deputy sheriff's posse, and seriously exualded his own son. The pose, had ested Garcia's son, who was placed on a horse behind one of the officers.

A Fever Stricken Ship.

ASTORIA, Jap. 10,-The British fourmasted bark Comliebank, which arrived in yesterday from Acapulco, had eleven fever stricken sallors or board. The Comliebank lay at Acapulco two months, and during that time, every one on board was affected to some extent with Panama fever. For three weeks all the officers were in the hospital and Octobar 1, when the vessel sailed, three officers and nine men were sick. During the past two months, the weather encountered by the Comliebank was unsually severe, she was compelled to run befere the wind with bare poles. About 38 north the most severe gales were encountthe most store gate was drivn many miles out of her course. The log of the Com-lichank shows that she has been within 500 miles of the Columbia river since December 5, but was un able to reach port, owing to adverse winds. Two vessels, the Dominion, for Port Townsend, and Yolo, from Portland for Queenstown, Were spoken to on the voyage, and from the latter, Captain Smith obtained a supply of medicine, his supply having become exhausted. The eleven sick men were taken to St. Mary's hospital.

For a Treasure Island.

SAN FRANCISCO, Jan, 11.-The schooner yacht Vine, Captain John E Burns, sailed this morning for a four months' trading voyage in the South Sens. She will go first to Guayannas and thence to Honolulu, Tahiti and the Gilbert islands. There is a touch of romance in this voyage, from the fact that Captain Burns is planning to do a liftle prospecting for a lost island, in addition to his trade with the South Sea people. It seems that in 1843, Captain Williams, an acquaintance of the owner and master of the Vine, discovered a valuable guano island about 1000 miles off the coast of Pera. The Island, according to Captain Williams, was about 4 miles long and I miles wide. It is not down on any of the charts, and Captain Williams, after claiming the discovery for him-self, kept its location a secret, intending that some day it should make him rich. The vielssitude of a sailor's life prevented the realization of his dream. and the old sailor died, leaving his papers and charts and the story of the valuable place to Captain Burns. It is the intention of Burns, should be find the Island, to hoist the American flag and take possession in the name of the United States.

Brutal Murder Near Wilhoit Springs. OREGON CITY, Jan. 10.-A week. ago today James M. Brown, a rancher a mile and a half southeast of Wilholt Springs, was discovered to be missing. Next morning the neighbors investi-gated. They found the chickens shut gaved. They found the chlckens shut up, nearly starved, and blood stains on the floor of the house, which had been scrubbed in an ursuccessful attempt to efface them. The neighborhood was aroused and search for the miss ing man continued without result until yesterday, when his body was ound in a fence corner covered with burlaps and fence rails. The murder is supposed to have been committed 10 days ago. There is no clew to the perpetrators. Brown recently re-ceived a considerable sum in back pension. He was always well-to do, as was a bachelor, a native of England but came to this country from New York about five years ago. He was held in high esteem, and there is much feeling over his murder.

Suicide or Accident

THE DALLES, Or., Jan.13.-John Reins, a farm-hand from Sherman county and a stranger in town, shot and mortally wounded himself last evening, about six o'clock. Some residents of the east end of the city were startled by the sound of the pistol re-port and rushing out, they found Reins lying in the snow with a revolver in his hand. The ball had entered his right groin and, ranging upward, lodged against the spine. His first statement to these who found hum, was that he had done the deed purposely, but later on, when carried across the street to Skibe's, he told the doctor the shooting was accidental. He was very drunk at the time, and had been so all day, which probably accounts for the conflicting state ments. The attending physician pronounced his recovery impossible. It is supposed that Reins slipped on the snow causing the weapon to discharge, The injured man has no relatives in this vicinity, - His parents live in Homburg, Germany.

Murder at Cornelius.

PORTLAND, Jan. 10 .- A fatal shooting affair occurred at Cornelius this afternoon, in which Josoph Penning, a farmer living a mile north of town, was shot by J. J. Reitter, a German laborer, 30 years of age. The trouble arose over the ownership of some land, and also because Penning's objection to the murderer marrying his daughter. Reitter went to Penning's house, where he first took a shot at the girl he professed to love, but fortunately missing her. He then fired at his victim, striking him in the left brest, immiediately above the heart. Penning's death is believed to be merely a question of a few hours. The murderer is now in jail, and will have an examination before Justice J. J. Knight, at Hillsboro, on the 19th

He Was True to His Love.

LONDON, Jan. 12.-The report that May Bohe, the American actress, had been married to Lord Fraucis Hope, brother of Duke of Newcastle, furns out to be correct. The Hampstend parish register shows that Miss Yohe and Lord Francis Hope were married there 'November 27 last. Lord Francis Hope was born February 3, 1866, and is the only brother o the Duke of Newcastle. As the Duke has no children, it is said the family of Lord Francis Hope once offered him \$1,000,000 if he would sever all re-lations with the American burlesquer. Will Have a Year to Heflert. Beheaded by a Train.

PORTLAND, Jan. 11.-As the Northern Pacific train was approach. ing this city last night it passed over the body of a man lying on the track between the North Pacific mills and the powerhouse. It evidently was a premeditated case of suicide, as the victim merely placed his head on the rail so as not to mutilate his body. There was no clue to his identity.

Probably the Sacramento Gang.

SAN FRANCISCO, Jan. 12,-The murderous burglars who nearly killed Frank J. Miller, the young butler in J. L. Franklin's house yesterday morn-ing, are believed to be the murderers of the Webers in Sacramento two weeks ago. The crimes are similar in many respects, and the descriptions are said to agree with the meager discriptions of the Sacramento slayers.

Good News.

It will be remembered by our readers that about eighteen months ago a man filed on a portion of North Brownsville, and that excitement ran high. Later on Bluger Hermann introduced a bill in the House of Representatives for the relief of our citizens; i. e., that O. P. Coshow be suthorized, on the payment of two dollars and fifty cents per acre, within six months after the approval of said act, to make cash entry of said land, at the Land Office at Oregon City, and upon making the entry he shall deliver to each person claiming to own property here, a deed, duly executed, conveying to such person the parcel of land held by him. The entry, when made, shall be transmitted to the Commissioner of the General Land Office, and if he is satisfied that it is in conformity with said act, and that deeds have been tendered by the ontryman to the various property holders, a patent shall be based to Mr. Coshow. By telegrams received by W. R. Kirk and O. P. Coshow from Senator Mitchell and Representative Hermann we learn that the bill passed the Senate this week and that the president will approve it. Notwithstanding that is the best possible course that could have been pursued by our citizens, they will be out about \$600 in cool cash .- Brownsville Times.

Alphine, of this city, was on her way across the bridge to the Cloverdale school house last Fraday, where she teaches, when she was assaulted by a man named Frank Marshall, a former resident of Salem. The man passed along ahead of Mrs. Alphine at first, then slowed up and followed her, finally walking against her and following her from one side to the other of the bridge, taking hold af her sholders. Then Mrs. Alphine showed the right kind of spirit and broke her umbrella up on his head. She returned to Albany, found her husband, who swore ont a complaint, and Marshal Lee arrested the man. The Southern War Claims. WASHINGTON, Jan. 12.-What may result in a division of the house on strictly sectional lines will be an order from the committee on sules next week, fixing the time for the consideration of a bill to pay ertain South-ern war claims. A bill providing for providing for the settlement of the cisims of citizens in both Northern and Southern states was reported some time ago from the committee on war claims, and is now

on the house calcudar. Some of th members of this committee learned yesterday that mother bill, which looks only to the payment of Southern claims, and which did not originate with their boundalitee, is the one of which the committee on rules will take cognizance. The war claims' committee members are considerably over the matter, and an excreised effort will be made when the rule is reported, as it is expected it will be on Monday or Tuesday of next week, to defeat is their argument being that the bill reported from their committees in hirly and impartially drawn, and the only measure that ought to pass the neuron, from quite missionary work is at

Her protracted absence from the hotel was noticed, but it wa
