A big fire at Kansas City destroyed the buildings occupied by the English Supply Company, Western Newspaper Union and Great Western Type Foundry; loss \$350,000.

THE Chinese now find it more profitable to raise their female infants than to strangle them. In 1870 the average price of a wife in the Flowery Kingdom was £5. Now it is £50.

ONE thing is certain, when times and business again revive the people will be less ready to assume debt, and more conservatism will prevail. This will be for the general good.

THE sum of \$750 has been appropriated for the survey of the Yamhill river from its mouth to McMinnville, with a view of improving the same by locks, dams or otherwise.

ATTORNEY-GENERAL OLNEY, representing the government spoke before the Supreme Court of the United States in defense of the constitutionality of the Income Tax law, and was followed by James C. IMMIGRATION is coming Oregon's way this year, and it will continue to come, till Oregon is populated to its greatest capacity. She wants immigration and as a state she will offer every inducement to home seekers. All that is asked in return of new comers is willingness and ambition to work and help themselves. Oregon will help them who help themselves.

THE railroads are authority for the statement that travel from the East, West, is increasing rapidly every week. This is a sure indication that times will steadily improve throughout Oregon. Any part of Oregon is head and shoulders above any of the states west of the Mississippi river, so far as agreeableness of climate is concerned, and also presents better advantages, to the man who wishes to make an honest living. The Willamette valley will get its full share of the coming tide of immigration.

THE first case of an accusing conscious, influenced by religion, that ever came to the notice of the federal authorities in Seattle, Wn., was brought to light when Thomas Gorman, an iron moulder by trade walked into Commissioner Emery's office and asked the United States district attorney to have a warrant issued for his arrest for counterfeiting and passing counterfeit coin. Gorman said that he had confessed to the officers of the Salvation Army. He said that he had passed \$180 in this city and in Tacoma during the past two months and that he made the coin himself, using an electric plater to plate the lead money. He said he did not know the penalty for his offense and did not care as long as his conscience, which had been bothering him, was clear and he had stoned for his crime. He was sent to jail in default of bonds to await trial in June.

THE following from the Telegram sounds big: A miner named Fredrick Holton came here from Baker county this morning, carrying with him a valise filled with gold nuggets, the weight of which made him stagger. Some of the nuggets weigh \$3000, and the whole treasure was dug out of a pocket by himself and partner, Henry Sanderson, within the past four days. They had been prospecting in the hills of Baker county almost a year without making "grub" money, and a week ago they were about abandoning the field and returning to California. On Tuesday last they saw some float rock close to their temporary camp, and following it up they struck a pocket, from which Holton says they have already taken \$40,000. He believes that there is \$500,000 or more of gold in that depository, which can be taken out with no cost beyond their personal labor. The exact location of their claim Holton says he will not divulge till he and his partner have taken out all there is in it.
