The Red Crown Mills.

Another meeting of the creditors of the Red Crown Mills Co was held Monday afternoon in the city council chambers of Albany.

J. A. Wilson, of the committee appointed to examine the books, submitted a report, which showed that a shortage of 25,000 bushels of wheat existed on May 30, 1893, when the company went into the hands of J. R. Stockman as receiver.

On August 1, 1893, there were 24,028 bushels in storage; on March 18, 1895, there was a shortage of 21,900 58-60 bushels. The amount of accounts is \$9,952.85, of which about \$6000 is in the hands of Wadhams & Co., part of which only were transferred to them.

The report showed that John Isom while running the mill alone, after it had passed out of the hands of the receiver, from July 15, 1893, to February 20, 1894, drew out of the business \$12,055.41, which was paid to Goltra, and account of Isom's soda works, etc. After the incorporation of the Red Crown Roller Mills from March 18, 1894, to March, 1895, he drew out on personal account, \$3,900.

The report showed the shortage of Goltra made good in November, 1893.

The amount paid out for wheat and other expense from July 1, 1893, to March 1, 1894, was \$55,055.38. The accounts showed a net gain of \$12,547.08 for eight months.

The amount due the First National Bank is about \$1400.

On recommendation of the committee the creditors decided to take no further action toward organizing a new company, as the liabilities appear too heavy to justify such a course. Accordingly the meeting adjourned.—Herald.
