

STATE AND COAST.

Taken From Our Exchanges Throughout the Northwest.

178,000 acres of land will be open to the public at the Siletz reservation in a few weeks.

The Columbia mine, of Baker county, has the machinery on the way from the East for a 10-stamp mill.

John R. Beagle, of St. Helen's, president of the Oregon Press Association, has received an invitation for the association to visit the Atlanta exposition during October, 1895.

The Three Sisters has been employed this week in carrying to Corvallis 20,000 bushels of wheat stored last fall in the Booneville warehouse, and owned by the Benton mills.

The State Sunday School convention will be held in Portland May 7-9, the tenth annual meeting. Arrangements are being made to make it of more than ordinary interest.

The sum of \$150 is on deposit in the La Grande National bank, and the same will be paid as a reward for information that will lead to the conviction of the party who has poisoned the dogs in La Grande.

A half column item in the Salem Post is headed: "Starving to Death. A Sad Case Within the Very Walls of Salem. A Mother and Seven Children Together With Two Old People Greatly in Need of Food."

Down near Forest Grove a hen has made a nest and is laying eggs in it fifty feet from the ground in the fork of an oak tree. She proposes that neither man, woman nor varmint shall interfere with her business.—Ex.

D. B. Worthington, the rustling proprietor of the Klamath Falls Express, has sold the paper to Joseph G. Pierce and George F. Farnsworth. Worthington is looking for another location, and deserves a good one.

Floyd Vaughan, while in search of his runaway boy, drove from Eugene to Coquille and return, a distance of 57 miles, from 8:30 in the morning to 9 o'clock at night. This is good time for a single horse.—Eugene Guard.

The steamer Homer made its last trip from Yaquina on Monday. She will hereafter be in the service of the Spreckles with Captain Drisco in command. The Scotia will take her place, and another steamer will be employed.

Private letters from Indiana state that from the middle of January, to the middle of February, there were not more than four mornings when the mercury was above zero, and during that time there were days when the mercury stood below zero all day.

Thursday at Corvallis a deed was filed in the recorder's office, conveying to the Corvallis Lumber Company title to the Friendly sawmill plant. The document was executed by S. L. Shedd, as trustee, and the consideration was \$15,815.95.

Corvallis people will be disappointed when the census returns are all in. Assessor Alexander has practically completed the enumeration of the city, with the exception of Job's addition, and gives it as his opinion that the total population will not reach 2000.

A first class cabin passage from Portland to San Francisco can now be had for \$12. The steorage rate is \$6. This is a reduction of \$4 in the cabin and \$2 in the steorage. The Oregon Railway & Navigation Company has made the cut in order to offset the rates now in effect between San Francisco and Puget Sound points. It is not known how long the reduced tariff will continue, but presumably until the usual rates to and from Puget Sound points are resumed.

The Curry county otter hunters have had bad luck up to the present. No otters have been killed, and a fine otter boat belonging to Mel Fitzhugh was stove on a rock, was rendered useless, while Emil Jessine was badly bruised by being jammed between a boat and a rock.

A petition is in circulation in Benton county asking that all deputies of county officials be cut off. The present allowances by the county court for deputies are, for recorder, \$20 per month; for clerk, \$70 per month; and for deputy sheriffs, \$100 per month; total, \$190 per month.

The Pacific can factory now have their full complement of machinery running on cans and are turning out on an average 120,000 daily. Next year they expect to use nothing but American tin-plate, as the San Francisco factory will add a tin-plate dipping department to their business.

Tuesday afternoon the infant daughter of D. W. Prichard, of Corvallis, aged 15 days, breathed its last. It is said to have been a marvel of littleness, being only about 12 inches in length, yet was perfectly developed, having regular features and a beautiful face. The remains of the little one were interred Thursday.

The Lincoln County Record is the name of a paper soon to be issued at Newport. It is to be published by B. F. Jones, of this place, and S. G. Irvin, of Newport. It will be a weekly six column folio, and will be devoted to the interests of Lincoln county, particularly to the real estate and immigration interests.

Jim Lindsley, of Bly, Klamath county, gave his 18 year-old daughter, Dora, a severe beating. During the melee the daughter got hold of a butcher-knife and whacked her father a terrible blow across the forehead that suspended operations of the father's favorite pastime indefinitely. Mr. Lindsley is recovering.

In the unusual storm of last week at Tillamook bay, more or less damage is reported. Al Dunn of Beaver, lost six head of cattle. They were standing under a large tree, which was broken in pieces and all the cattle under it were either killed by the stroke or by falling pieces of timber. Other damage of minor importance is reported.

The Portland Chinese merchants recently made complaint that Astoria were sending rice to Portland and selling it below what it cost to bring it from China, with the duty of 1 1/2 cents per pound. Investigation has shown that these merchants by mixing the same quality of rice with a little flour, were able to have mixture rated as broken rice, the duty upon which is one quarter of one per cent. Bret Hart's estimate of the "Heatien Chinnee," seems to be about right.

A stabbing is reported from Rice Hill, Douglas county. It seems that it was the regular date of the weekly prayer-meeting at the school house, but owing to the stormy weather only five or six boys got together. As they were waiting for the people to come in a quarrel arose over a trivial matter, started as a joke, and ended in Bob Moser stabbing Henry Carter with a pocket knife, cutting seven gashes. The injured man is seriously hurt, but will probably recover in due time.

In Oregon are six counties, in Washington three, in Nevada seven, and in California seven that have each more than 5000 square miles. The largest county in the United States is San Bernardino, east of Los Angeles, Cal. It covers 21,600 square miles, an area 5000 miles larger than that of New Jersey, Delaware, Connecticut and Rhode Island combined, or half the area of the state of New York. Klamath county is one of the six in Oregon that has more than 5000 square miles. To be exact, it has 5882, a little less than the whole of Wales.

E. P. Thorp of the Cottage-Grove-Echo-Leanati-Leader, in his paper of last week gives this city quite a nice write-up. Yet he complained of the noxious condition of the alleys, which leads us to wonder what he was doing in the back alleys when he discovered the disorders mentioned.

The Southern Pacific railroad will haul a carload of sugar from Portland to Albany, 80 miles for 7 cents a hundred, \$14 a carload of 10 tons. From Albany to Eugene, 44 miles, the charge is 23 cents a hundred, or \$46 a carload of ten tons. Can anyone wonder that our merchants, whenever possible, refuse to submit to this extortion and cold blooded robbery and haul by wagons from Harrisburg and Corvallis? Other freight is about in like proportion. It is enough to make a preacher swear.—Guard.

Victor Keller, aged 57, a resident of Canyon City, was riding on a flat car loaded with lumber, over the O. R. & N. road between Baker City and Huntington, on Sunday afternoon. While the train under full speed was passing a farmhouse a lad standing near the track hurled a stone about the size of a hen egg with full force at the passenger, who was alone on the lumber car, unobserved by the train crew. The stone struck the old gentleman in the left eye, knocking him down and destroying his sight forever. The old gentleman was badly injured and is without means. Search for the miscreant is being made.

Circuit Court.

Department number two of the circuit court convened yesterday at 9 a. m., before Judge H. H. Hewitt.

The following cases were disposed of: P. J. Porter vs John C. Elder, partition; continued.

In the matter of the assignment of George W. Smith, assignment; continued.

LIVERINE

THE GREAT

LIVER, KIDNEY AND CONSTIPATION CURE.

The Manager of our Company is a practical physician and chemist, and nothing will pass through his hands without being first tested and proven fully up to the standard.

We ask you to procure a bottle of

LIVERINE

from your druggist. If he does not have it in stock, ask him to send to the ANCHOR S. CHEMICAL CO., Lebanon, Oregon, or to any wholesale drug house, where it is to be had in any quantities desired.

LIVERINE is pleasant to take. Any child will take it with a relish. Even a babe will not refuse it.

The properties of LIVERINE are mildly laxative in small doses and actively purgative when taken in full doses. It acts on the liver as no other compound does—mildly, thoroughly, without creating nausea, vomiting or griping. The latter quality has made it a general favorite with women before and after confinement.

LIVERINE is also an excellent KIDNEY COMPOUND.

A genuine renovator of the system without leaving any bad after effect.

LIVERINE has no equal for the relief of INDIGESTION, caused by defective action of the liver or obstructed kidneys.

LIVERINE cures sour stomach, bilious and sick headaches, bitter taste in the mouth, dizziness, roaring ringing in the ears, liver coughs, pain and soreness in the stomach, jaundice, and all other affections of the human system caused by defective LIVER.

LIVERINE is a positive and certain cure for chronic

CONSTIPATION

or diarrhoea caused by derangement of the liver. Pain in the back, acute pain or aching in the hips, running down the thighs and legs, a heavy sediment in the urine, pain or soreness in the bladder, pain in passing urine are permanently cured by the proper use of LIVERINE.

After taking LIVERINE for a time it frequently communicates a bright, healthy straw color to the urine, proving that the bile is being eliminated through the kidneys as it should be.

A continued use of LIVERINE increases instead of destroying the appetite. By its wonderful tonic effect it differs from other preparations by the dose not having to be increased by long taking. It may be taken by young or old with perfect safety.

LIVERINE is a purely VEGETABLE preparation, and has been submitted to the test of some of our best physicians, who speak in its praise.

The dose for an adult is from a teaspoonful to a tablespoonful three times a day, before meals. Dose for a child one year old 20 to 30 drops, increased or decreased as required.

Some of the most prominent people of this city and Albany have been taking LIVERINE for two months past, and are loud in its praise.
