# THE NEW OREGON PACIFIC

and proven MR. HAMMOND IN ALBANY. is the verdict

> The Road Will be Reorganized and Developed, Plans of the New Company. What Mr. Hammond Says.

Mr. A. B. Hammond, one of the purchasers of the Oregon P-cific railroad, arrived in Albany last Monday accompanied by SuperIntendent Chas. Clark and Mr. Edwin Stone. He will spend a day or two here and make a tour of inspection over the entire road, to familiarize himself with the existing conditions.

Mr. Hammond is a pleasant appearing gentleman of about 40, whose appearance and conversation at once in-dicate a shrewd, level bended business

During the afternoon in company with Mr. J. W. Cusiek, Mr. W. F. Crosby and C. L. Coster of San Francisco, he visited points of interest about the city and took a look at the various Oregon Pacific property in Albany.

To a Herald reporter Mr. Hammond said there was nothing in the keep a the road that he desired to keep a secret "We come here," he said, do business openly and above board and want the ecoperation of the public. At present we are unable to proceed with our plans until the case of the appeal of the confirmation is decided by the supreme court. It was our intention to have begun by this time the improvement of the road already built. It will cost at least \$80,000 to do this, and we do not feel like expending this rauch money until we know that we will secure the title to the road. The purchase price, \$100-000, is a very smult portion of the capltal to be invested in the road to make It a paying reperty. It is budge maney and must be developed.

Our actions are now handleapped by the appeal pending to the surpreme court but if that is decided satisfactor By, we will first put the road in first-ciass condition. Then will come the question of extensions. I am informed that the people of Eugene and Salem are ready to give substantial encouragement for the extension of the road to those towns. If business justifies it,

we will build branches to both towns. As to the custern extension, we will build that as fast as the business will justify and expect eventually to con-nect with ang of the through castern lines. I was told in Portland that the eastern and of the road did not amount to much, but instead of such being the none that you hear. case, I can say that no railroad of the same length in the United States offers so much toneage in sight as does that part of the O. P. besween Albany and its present eastern terminus. There is in the timber region up the North Santiam nine of ten billion feet would make a train of ears 8000 miles ony. There is a great lumber industry & Adnrews. They are agents for the to be developed there, and it is part of Old Reliable, Home Mutual, New our plan to undertake this, which will Zealand, Springfield of Massachusetts, require better wharfage in San Franrequire better wharfage in San Fran-Continental, and other good, reliable

> We have abundant capital to carry out our plans, but cannot go on with them except in a limited way until the appeal case is settled. I expect to go over the read, and we will then determine upon how and when that extension will be continenced. We expect to build some each year until we finally carry out our plan for an eastern connection. I have had reports from Eastern Oregon, and realize that a great traffic across the mountains

awaits the advent of a railroad." Mr. Hammond is naturally pleased that a new survey has been ordered at Yaquina, and has confidence that this harbor will receive just recognition and appropriation for further improvement. He will probably go to Yaquina today, when he will see the steamship Lakme that comes in without trouble drawing eighteen feet of water.

The Populist Goes for Its Delinquents. The Populist goes for its delinquent

subscribers in the following very energetic manner: The Oregon Populist is one reform publication which has come to the point where something more substantial than promises must be firthcoming. We do not ask you to come and make us a gift, but we do say that the money owed by our delinquents must be paid or we will be forced to the conclusion that about one-half the populists in this county are men vold of any principle except selfishness. If you want your paper call in and pay for it-if you do not want it not the part of ir-nestmen and pay for what you have had. Don't force us to consider you bilks and persons urging to reap the benefits of our moor and expense. Perhaps those who owe us for subscriptions are not aware of the fact. Unless we hear from them this month we shall be compelled to notify them by publishing a list of delinquents, with amounts

A Needle in His Throat. John Snyder a Grande Ronde farmer, has been troubled for a long tipse with some obstruction in his threat. Last week he went to a doctor in La Graude, who, after an examination, with considerable difficulty succeeded in extracting, with the aid of forceps, a needle which had lodged crosswise of the windpipe. The removal of the same was a source of much gratification to Mr. Snyder, who is st a less to know how the needle become lodged titere, as it has not been the bubit to include needles in the family menu. His theory is, however, that the needle must have been accidentily dropped into his food.

# Cannot Be Excelled.

Oregon has been benefited by the soms taught by the bard times during the past two years, and in the fature more reliance will be placed on her resources. Heretofore, every comof timber, which if sowed into lumber modity has been imported, and the money sent away. It is to be hoped that in the future our producers will export instead of import, and this will lead to independence and wealth. Oregon eggs, butter, bams and bacon cisco and the chartering of a line of are good enough for any one, and cansteam schooners to and from Yaquina. not be excelled affywhere.

# The Mint Shortage,

WASHIGTON, April 6 .- Official of of the mint bureau and secret service division of the treasury department utterly discredit the story sent out that the shortage in the Carson, Nev., mint will reach half a million dollars. They say they have no information that the shortage is more than \$90,000 as stated in the Associated Press dispatch yesterday. They also discreit the report that the San Francisco Mining Association has asked to have all Carson City gold coin recalled, saying no such information has been received and there has been no gold coined at the Carson mint since May 1, 1893. All coinage prior to that time at that, as other mints, is regularly tested by the government assay com-
