Wool and Butter Item.

That there is still profit in sheep raising if properly attended to is proven conclusively by the experience of George W. Smith, who called at the Gazette office yesterday and related the following experience: "I have a four-year-old ewe that a year ago last February gave birth to two lambs. Yesterday I sheared them and the combined weight of the three was 40 pounds, one of the lambs, a buck, shearing 22 pounds. This wool at twelve cents per pound is worth \$5.58. The two yearling lambs are worth \$3 per head or \$6, in addition to which I have two spring lambs that will sell for at least \$1 each. Thus, in sixteen months, from one ewe worth, say, \$2.50, which I still have on hand as the original investment, I can show a profit of \$14.58. The cost of feed for the sheep was practically nothing, as they had run on pasture with the cow, and had received no special attention." Mr. Smith, however, is a splendid judge of stock and all his animals receive excellent care. He is now milking a cow that is making a record as phenomenal as that of the sheep related above. Since March 15, a period of thirteen weeks, 150 pounds of butter have been made from her milk. During three weeks of this time her calf took half of the supply and during all the time the cow has furnished Mr. Smith's family with their cream and milk. For the last month her butter output has averaged fifty pounds weekly, and on account of its excellent quality, has found ready sale at twenty cents per pound, which, most of the time, has been in advance of the market price.—Corvallis Gazette.

Lake Creek's Big Grizzly.

Simeon Farlow, the Lake creek stockman, reports that the big grizzly bear that has been making regular raids on the stock of that section was caught about two weeks ago in a huge steel trap, set for him to put his foot into. Though a big, stout trap it was unable to hold the determined and wily monarch of the forest. He pawed the dirt at a tremendous rate and succeeded in bracing himself against a log and with the aid of his forepaws deliberately pulled his hind leg through the trap, leaving large hunks of his bearship's precious flesh, hide and some muscle in the steel spikes and alongside of the trigger clasp, while his life's blood flowed over the hill like the battle of Gettysburg, and bled for miles and until the chase for him was dropped. This grizzly has made a big record for himself in the past six or seven years and has been amazingly bad the last three years, making regular monthly raids and then retreating to the Fish Lake country. He has killed twenty head of cattle for the Farlows and other stockmen in the Lake creek section, amounting to \$900 worth of beaves in three years and there is no accounting for the damage he has done in other sections in his path. Only two weeks ago, near Perry Farlow's house, with one stroke of his terrible paw he jerked over two feet of hide from a cow's shoulder and killed her. Carl Bieberstadt, with a pack of dogs, chased him a long distance but the dogs were afraid to give him battle. Though the beast is not as large as dead Reelfoot, of Pilot Rock fame, he makes a larger track. He never molests small stock, invariably attacking the largest ones in the neighborhood. He never touches cattle with bells on. He always drags his prey a considerable distance before taking his mess, and then leaves the section. On returning for subsequent feed until his meat gets so good, he invariably drags the beef off another distance before feeding. The stockmen will give a big reward for his destruction. Over 100 bear have been killed in that section the past several years, but only one was a large sized monster, having been killed about two years ago.—Ashland Record.

Hunting for a Wife and Children.

Mr. H. Nolton, of Maryville, California, called at the Democrat office this morning and directed the Democrat to offer a reward to \$200 for information which will lead to the recovery of his wife and children, particularly the children. The case is an interesting one. About ten years ago Mr. Nolton then residing in Marion county, was married to a Linn county lady. Six years ago they moved to the vicinity of Maryville, where Mr. Nolton now has a big sheep ranch with about five thousand sheep and two thousand lambs. He informed the Democrat that his married life was particularly a happy one. Nearly two years ago Charles McGlothing began working for him. Three months ago he discharged him, on account of his drinking. His wife ever had made the request a number of times. A month later McGlothing came back and wanted work again; but was refused. One Sunday morning Mr. Nolton, who has two ranches, went to the other ranch and returned Monday evening. Two hours after he had left, his wife, three children and McGlothing skipped out for Oregon in a light Studebaker wagon, drawn by two horses, branded O, some books and about \$400 in money. Mr. Nolton immediately followed and got track of them once or twice, and has chased through Coos county, Yaquina Bay and even eastern Oregon without avail. It was his opinion that they would come to this county. One would not think, though, that a woman would run away with another man to her former home. The family consists of Mrs. Nolton, dark hair and eyes, with only three teeth, the others having been extracted recently for the purpose of securing a new set, a girl 9 years of age; a boy 5, and a baby 18 months old. Mr. Nolton will leave for Maryville tonight. Any information leading to the recovery of his children sent him there will be rewarded by \$200. Other papers are requested to notice.—Albany Democrat.

More Trouble for Corbett and Fitz.

DALLAS, Tex., June 10.—The Pastors' Association today voted to present, if possible, the Corbett Fitzsimmons fight from coming off at Dallas. A mass meeting of the citizens was called at the city hall for tonight. Business men of the town, however, say aim at to a man the fight shall come off here as arranged.

OLNEY IS APPOINTED

SUCCESSOR FROM THE WEST

He is Judson Harmon, of Cincinnati, One of the Most Prominent Lawyers in Ohio.

WASHINGTON, June 7.—President Cleveland this afternoon announced the following appointments: Secretary of state, Richard Olney, of Mass.; attorney-general, Judson Harmon, of Ohio.

The announcement, which was made late this afternoon, created no surprise here, for it has been understood several days that Olney would succeed to the place in the cabinet, made vacant by the death of Secretary Gresham. Tomorrow Olney will take the oath as the head of the state department. The president at one time contemplated other changes in his cabinet and a rearrangement of several portfolios, and in this connection consideration was given to the transfer of Secretary Smith to the department of justice, but this and other transfers were finally abandoned, and the president concluded that the simplest plan would be to fill the vacancy caused by Mr. Olney's promotion.

The appointment of Judge Judson Harmon, of Cincinnati, as attorney-general, came in the nature of a surprise. His name had not even been canvassed as among the probabilities.

Tared and Feathered.

WALLA WALLA, Wa., June 9.—Early this morning fifty masked men, heavily armed, took Joseph Fossati and Robie Allen, a colored woman who runs a house of ill repute, and gave them a coat of tar and feathers. Soon after midnight the men, all wearing masks over their faces, went to the house occupied by the woman in an alley between Main and Rose streets. A hack followed them and stopped in front of the house. The men broke open the door. They dragged Fossati and the woman from the bed, and carried them to the back, which was driven rapidly to the outskirts of the city. The clothes of the two were torn off, and a heavy coat of tar and feathers applied. The two were then ordered to leave the city.

The job was well planned and executed. The thoroughfare through which the hack passed was thoroughly guarded by armed men, and any attempt to stop them would have been futile. Two minutes after their noiseless approach they were out of sight, and before a large number of spectators recovered from their astonishment.

Fossati is the son of a highly respected family, and has had more than average advantages of life. He has persevered in living with this woman. Friday they went to Dayton and were married. They returned here Saturday. Mrs. Fossati, the mother of young Fossati, is prostrated with grief, and is in a precarious condition.

Dragging the River.

TACOMA, June 9.—Heroic efforts are being made by Charles Catlin to recover the body of his son Seth, who was drowned in the Cowlitz river three weeks ago today. Grappling and blasting has been carried on, and with great effort a wire net and three cables have been stretched across the river. It is believed that these will eventually catch the body. A dozen men are patrolling the river daily for twelve miles, and a reward of \$100 has been offered for the recovery of the body. Many Indians are searching. It is believed that the icy cold condition of the water prevented the body from rising in the usual nine days. Mr. Catlin remains on the ground.

Outlook of Business.

NEW YORK, June 8.—Dun & Co.'s weekly review of trade says: "The trend of business is rising, even as it was falling two years ago, with surprising rapidity. The grain has gone so far and so fast in some branches that the more conservative fear it may not be maintained. But the period of dullness which comes in each market after an unusual rise brings as yet nothing like a corresponding decline. Industries gain much, halt, or all back a little and then gain once more. The demand for consumption is steadily increasing as the employment and wages of the people increase. The demand for money increases, one bank reports 29 per cent increase in the discounts for the country and another 23 per cent more commercial loans than a year ago, and all but two report some gain.

"The serious question remains whether the crop will be good enough to sustain a large business. The reports are better by far than estimates recently current. Wheat rose 2 cent, fell back 2 cents with realizing and has risen 3 cents, with a western estimate of a crop of eighty million bushels smaller than last year. It is pertinent to remember that official and most un-official reports, down to a late period last fall, had the yield about eighty millions lower than now know to have been. Western receipts were 283,000 bushels more than last year, and in five weeks have been 7,671,000 against 6,900,500 last year, while Atlantic exports, flour included, 670,000 bushels smaller for the week, have been in five weeks 7,737,700 bushels against 11,945,500 last year. There is neither holding back by farmers, nor any anxious hast in purchasing by foreigners to support the belief in a scarcity. Cotton declined an eighth of a cent.

"Failures for the week were 195 for the United States, against 216 last year, and twenty-five in Canada, against forty last year."

A Dark Horse.

NEW YORK, June 10.—Thomas L. James, ex-postmaster-general, and president of the Lincoln national bank, said discussing the political question: "I look upon Robert Lincoln as the likeliest dark horse in the race for the republican nomination. I believe he will get half of the entire Southern delegation, and when the break comes on the favorites, Lincoln and Allison will get the benefit of it. The Iowa senator is a well-balanced, sound-viewed man, who next to Lincoln, possesses elements of strength where other candidates are weak. It is my opinion that Harrison cannot, by any means, be nominated."

Debbs Not a Candidate.

CLEVELAND, June 8.—The American Railway Union organization received a letter from Eugene V. Debbs, who says: "I cannot be considered a candidate for the presidency. I would not permit myself to harbor such an aspiration for an instant. I have little enough liberty as it is, and what there is I do not want to sacrifice on the political altar, not that I would fear to face the whirlwind of denunciation, which such an ambition would arouse, but I wish to remain untrammelled, and do what little I can in my own way to free the American people."
