LEBANON needs a bank and needs it badly.

The fruit crop is very promising this year.

The outlook for a large crop was never better in the Willamette valley.

The president has issued a proclamation forbidding the shipment of arms to Cuba.

The steamer St. Louis made her first trip across the Atlantic in six days and seventeen hours.

SELONA WEBER, another widow of Emil Weber, the gambler who was shot in Portland in 1889, has appeared on the scene, and sues to recover the whole estate.

OVER \$50,000 worth of ranch property near Pendleton, Oregon, has been destroyed by incendiarism. One warehouse, containing 240,000 pounds of wool, will be a total loss.

The citizens of Harney county complain that Indians from the Umatilla reservation come into their country and kill deer in large numbers for their pelts, leaving the meat to waste.

INFLUENCE is something you are are bound to exert, whether you will or not; and it is either for good or evil. Even the warden Indian on the street constantly shows the way to the cigar store.

REPORTS are that deer skimmers from Chetco are at work on the north side of Rogue river, some distance up, and are slaughtering deer for their hides. The animals are very plentiful along the Rogue river.

I NEVER heard man or woman much abused that I was not inclined to think the better of them, and transfer the suspicion or dislike to the one who found pleasure in pointing out the defects of another.—Jane Porter.

Recent history of some editors in this state who believe in gold standard only, shows that these over-zealous civilians can become very insulting indeed to those in the same party who differ from them in an opinion on the money question. It is a rule or ruin motto to with them.

A LEMON tree in the Sweetwater valley, San Diego county, has just yielded thirty-one and a half boxes of marketable lemons. At \$3 per box this yield would represent \$94.50 for a single tree, and eighty trees to the acre at this rate would produce \$7560. Lemon growing has superb possibilities.—Los Angeles Times.

NEITHER law nor justice upholds the practice of decoying people into crime in order to punish them for committing it. Judge Bellinger has condemned it, Judge Stephens has censured it, and the American spirit of fair play never sanctioned it. In their battle with the druggists the local liquor-dealers should have hesitated to employ an unpopular weapon, for if any business is at the mercy of popular sentiment it is the saloon business.—Ex.

Of all the coal mines in the world from the beginning of this century to the present time Great Britain has produced one half. In 1891 she mined thirty-six per cent of the world's product, while the United States produces thirty-three per cent. The United States is increasing its output of coal at the rate of ten per cent per annum, while the increase in Great Britain is less than two per cent. The cost of coal is increasing in Great Britain and decreasing in the United States. England exports thirty-one per cent of her total product of coal, while the United States exports less than one per cent.—London Times.

W. M. Kistner, a farmer living a few miles from Rainier, will spend the coming Fourth with his mother, who will celebrate her 103d anniversary in August. This aged lady resides at Highland Prairie, Wash., and, considering her age, is hale and hearty. Her husband died some years ago at the advanced age of 118.

While driving from Elgin to La-Grande, Mrs. John Lewis was thrown from her wagon on a bridge near the Iona school house, and was run over. One of her arms was broken, and she was badly injured about the head and face. The accident is said to have been due entirely to the bad condition of the bridge, and that an action for damages against the county will be brought.

While the four-horse stage from Granite to Baker City was coming down Granite mountain, Wednesday, with ten passengers on board, the brake gave away, and the horses took fright and ran. The stage was thrown over the grade, but fortunately struck against two pine trees, preventing it from going still further down the mountain. The passengers were scattered in every direction, but no one was seriously injured.
