Mr. Lawler, of the new Santiam Mining company, and Archie Mason, of Salem, who have the contract for constructing the new wagon road, have returned from the mines, but will go back in a day or two. Mr. Mason informs the Salem Statesman that his gang of thirty-two men and a blacksmith have been pushing the work rapidly, and have covered about eleven miles of the eighteen which are to be

They began operations at the enterrance to the wooded foothills close to W. W. Martin's farm on Rock creek and have repaired the road so that it is fit for team travel to the present point, which is on the long hill known as the turee-mile grade, about two miles this side of Elk creek. Their camp is at stampede pass at the head of Rock creek. While blasting in that vicinity they struck some very rich looking or, epecimens of which Mr. Mason brought out with him and they are on exhibition at the Improvement company's office.

They found the road on three-mile grade, (which will be remembered as quite good a few years ago by travel-er- through there) all fallen away so that there was barely room for one horse to walk safely, hence at that stretch will be their heavest work. They have about one-third of that grade completed. They are hauling in feed and provisions as they go, for use until the freight cen be got through. They have 100 tons of minthere. They have four team in the Quartzville region now. These were 'packed" in and driven singly, carryharness, whiffle trees and other para-phernalia for the purpose of hauling the Albany company's saw mill machinery from its present location down to the White Buil mine, where it will be set up by the Lawler syndicate, for whom it has been purchased. This company will have sawed 100,000 feet of lumber for their houses and for their new mining plant.

An effort will be made to have the work done this season. For this purpose sufficient men will be sent in so soon as the road will admit of adeq rate cooking utensils being hauled to, which is impossible at present.

This is the first real Indication that the riches of the Quartzville mines will be revealed to the outside world. All past efforts in that direction have proved abortive and thus the mining properties have been depreciated in the public mind by causes not their own. The mines of that region are rich enough if but once developed, and the company that is now directing operations seems to be fully aware of the fact .- Herald.

Better Prices for Wook

There has been a steady advance in the price of wool, the quotations in Portland, for prime grades being 14 cents, which is in striking contrast to the lethargic state of the market but a few weeks ago. Buyers then were offering 7 and 8 cents, and not dis-posed to arge sales. The general revival of business is accountable for the advance in prices, wool reaching higher figures in foll sympathy with the rise in value of other commodities J 8 Van Winkle, aid poor The market remains firm, and there The market remains firm, and there are indications of a growing strength, N.B. Washburn, aid joor... still better prices. A Humpl Portland dealer says there has been a Dr W H Davis, ex instate scarcity of wool in the market. Buy-esr have kept no great stock on hand, Harristung Lumber Co. acet roads... esr have kept no great stock on hand, and the marked improvement in trade causes the demand, Manufacturers of clothing and other lines, encouraged by the business revival, are placing two years the people generally have had their nose to the grindstone, doing without many things, in some cases actually needed. Now, under the inspiration of better times and increased demands, prices have advanced. The demand for wool is couse quent upon necessities, and this is beng recognized. The outlook for the future is far brighter than ti was a few months ago.

Killed by a Bridge Timber.

Fr-d Adams, who was employed by William Castle, as a farm band pear Philomath, was killed by a bridge stringer falling on him while unloading them from a wagon. One of the etringers had been safely landed on JB Tillorson, account bridges 274 the ground, and a second was in process. It was a fir stick, sixteen feet long and one foot thick, and green and heavy. One end had laid on the ground, and the other was being lifted JW Pugh, account roads.

FE Allen, account page. off. Castle bad hold of the end, and off. Castle had hold of the end, and Adams stood beside the wheel each J M Welters, account fall. lifting on the timber as they raised it to the wheel, where it was to rest a Post sinte vs Whitcomb

moment for a new hold to be taken on it. At the wrong moment it slipped from the wheel and knocked Adams backwards. He fell on his back, and the heavy timber fell across his breast. The shock was so great that Castle says the end of the log bounded up at least a foot and fell again, the last time striking the victim in the face. Then it rolled off down an incline For a moment the injured man laid motionless, and then asked his companion if he thought the injury would prove fatal. A reassuring answer was given, and after a minute the injured man was assisted to his feet. "Hold my hand," he said to his friend, and these were his last words, for after walking a dozen feet he fell. He was carried into the house, and twenty minutes later expired.—Herald.

IN THE WAKE OF THE STORM

A WIDE EREA SWEPT BARE

Loss of Life and Property Appalling Storm the Worst in Years. Worst Has Not Yet Been Told, The Work of Destruction.

SPRINGFIELD, Mo., July 8 .- A severe electric rain storm swept along the James river and as far south as Ozark last night. Live stock was killed by the wind and lightning, and crops badly damaged by the storm. Three houses at Sparta were destroyed by lightning. The reports of a flood at Winons, Missouri, published beretofore, are now known to have told only part of the horrors of the disaster, owing to the fact that Winona is in a mountains reagon, almost inaccessible by wagon, and that the railway is washed away. A terrific stench arises from the mass of hogs, horses, cattle and other animals drowned.

It is charged some visitors are stripping the bodes of everything of value. For several miles below Winona may be seen wagons and household goods of all kinds and dead ani mals. Over 200 people were searching yesterday for bodies.

KANSAS CITY, Mo., July 8.-Reports of storms during the past three days show the entire eastern water shed of the Rocky mountains to the Nebraska and Iowa fines and to Texas, were swept Friday night by the severest blow. Fields of grain that promised the most bountiful yield for many years, were swept bare of vegeta.ion. The seas of rain were abetted in their work of destruction by tornadoes. It is too early yet to sum up the loss, but the total is appalling. The storm focus embraced an area of 200 square miles, with the southwestern corner of Missourl as its center. The greatest loss of life is reported from Winona, Missourl. Fully fifty and perhaps many more were killed or drowned.

CHICAGO, July 7 .- One of the most furious wind and rain storms known in this vicinity in years passed over the city about 6 o'clock this evening from the northwest. The day had been intensely hot, and many people were out on the lake in salibonts. As the storm came very suddenly, it is feared several lives were lost.

Again a Girl.

BUZZARD'S BAY, Mass., July 7 .-Just before 5 o'clock this afternoon news reached the village that had been born at Gray Cables. This report was soon verified by Dr. Bryant, who announced that the happy event occurren at 4:30 p. m., and that both the mother and child were doing as well as could be expected. This is the third child born into the president's family and all are girls. Ruth is four years old and Esther two. Only a passing glance could be obtained of the president this afternoon, that was sufficient to note an expression of satisfaction on the face of the chief executive, although it was an open secert that a boy would not have been unwelcome.

Fatial Accident.

SPOKANE, July 7 .- Michael Dolan. conductor on the Ross Park electric railway, was killed at an early hour this morning. He was making the last trip, acting as motorman, with no one else on board. In leaning from the platform, he was struck by one of the poles and knocked to the ground. The car ran into the city and was stopped by the displacement of the trolley. Dolan was found dead, having crawled across the track after the accident. He had been employed by the street railway company four A brother lives at Battle years Ground, twenty mile from Vancouver, Washington

The Train Robbers

CANYONVILLE, Ore., July 5 .-Three men have been arrested here, supposed to be the train robbers who held up the Southern Pacific near Riddies on the evening of July 1. The arrests were made by Deputy Sheriff Shambrook, George Quine and two Pinkerton detectives. They were James and Albert Poole; the first cartured in town, and the latter surrendering to the sheriff on the strength of a grand jury indictment for cattle stealing, and Case, who was captured nine miles east of town. They made no resistance and were taken to Ross. burg for examination.

Case, alias McDowell, was convicted here two years ago for burglary, and returned from the penitenitary a short time since.

Pool has served three times in the penitentiary. District Attorney G. M. Brown went to Riddle today to hold the preliminary examination. Two United States detectives arrived in Riddle on last night's north bound overland.

Has Nothing to Say.

CINCINNATI, July 5 .- Attorney-General Harmon passed the holiday here, and will not be back in Washington until Monday. He could not state today when the next move would be made in the suit of the government to recover \$15,000,000 from the Stanford estate. He will not consider the matter until he has the opinion of the district court in California and a letter from Attorney McKissick, who has charge of the ease, giving the opinion of the latter, as well as the status of the case. Judge Harmon has ne knowledge of the case except from newspaper reports. He assumes that when the government began a suit of such magnitude, it will be carried to the court of last resort, but he will have nothing to say on the mat-ter until he examines the decision of the district court and hears officially from Mr. McKissick.

Fruitless as Yet.

SAN FRANCISCO, July 6.—George E. Gard, chief special agent of the Southern pacific Company, has returned from Redding, where he was hunting Jack Brady, wanted for train robbery and murder committed re-cently in that vicinity. He said that the two bloodhounds taken up there had failed to find Brady's trail, though they had been all over Happy Valley, and the country where the outlaw was supposed to be hiding. Since the bounds were received Mr. Gard has learned that Brady has succeeded in getting away from Happy Valley, and was probably working to-ward the mountains. "I have men following Brady, who is believed to accompanied by one of his pals, and I am confident I will hear from them very soon."

Will be Reopened.

SAN FRANCISCO, July 6.-The Emanuel Baptist church, in which two girls were murdered a few months ago, will be reopened for regular service one week from tomorrow and plans have finally been arranged by which it is hoped to pay off the burdensom debt of \$12,000 that now hangs over the church. The Rev. Dr.Gibson, was not successful, so the projected tour will be abandoned, and other means pursued to raise the desired amount. The general sentiment against the lecture scheme had much to do with the giving up the trip.

About the Fighters.

DALLAS, Tex., Judge Clark, of Wasco, in an opinion as to the legality of the Corbett-Fitzsimmons glove contest, says that owning to inconsistencles in the law there is now no law upon the statute books of Texas prohibi ing pugilistic encounters, and that upon the tender of the license prescribed for such exhibition there is no power in the state to interfere with the exhibition.

SHILOH'S CURE is sold on a guarantee. It cures Incipient Con-sumption. It is the best Cough Cure Only one cent a dose 25cts., 50cts., and \$1.00. Bold by W. W. Smith
