

Lebanon Express.
H. Y. KIRKPATRICK,
Editor - and - Proprietor

The New York Times propounded this question: "Where shall we look for horses in the future?" The Portland Sun answered it in this wise: "In tall and flat cans having Portland labels."—Ex.

The year of 1895 is beyond doubt the supreme year of the fruit growers of Oregon. While a fruit crop failure was never known in this state, still on the other hand never before were the prospects so good for a mammoth crop of all kinds of fruit throughout the state—not alone in one county or section—but generally in every section of the state.

Within a year the mails between New York, and Brooklyn will be whisked back and forth through pneumatic tubes, running from one government building to the other. The pipes will be large enough to admit small pouches and it is said the cost will not exceed \$100,000. The pneumatic delivery of parcels also is under consideration in several large cities.

The revival of California gold mining, which began two years ago when the great financial panic caused a demand for gold throughout the entire business world, is still gathering force. California goldmines are now sending to the San Francisco refineries \$1,300,000 in gold per month, as against \$1,000,000 per month a year ago. There is a great demand for mining machinery in all foundries and shops.

In the first three months of 1895 12,391 telephones were added to the number under rental which was two-thirds of the gain of the whole of last year; but in the second or current quarter, April to June inclusive, the increase is 33,000, or more than twice the gain of the full year 1894. There are 55,136 more of these instruments in use today than a year ago an increase of ten per cent. This is one of the best proofs of reviving business and mercantile expansion.

The report of the weather bureau for the week ending July 15 is that the opinion as to the probable good yield of fall grain has not changed. Hops are alright. The potato crop is universally good. The hay crop is good and heavy in many places. There is an abundance of fruit and the shipments are large. From Eastern Oregon the report is that the yield of grain will be light, and no crop will be large or even good except in a few sections.

The Kansas City Times proposes to take a party of representative business men, including the mayor of Kansas City, to the manufacturing and business centers of New England. These men are to enlighten the New Englanders as to the advantages of Kansas City as a commercial center, advertising the city as much as possible, and incidentally gathering valuable information in regard to industries in New England, in which Kansas City is also interested. The Times will print a special edition of 320,000 copies for Easterners, to be distributed free, and the advertising in this edition is to pay the expenses of the trip.—Printers Ink.

The State Normal school at Monmouth has made an important advance this year. By an arrangement with the school district of that place, the district school is made a training school, and indirectly becomes a part of the normal system. A competent corps of teachers has been selected, and it is confidently expected that this combination will result beneficially to both. With this addition and the course of studies being raised, with a three year's course in place of two, it is evident this institution has taken an advance step towards higher education of public school teachers.—Ex.

STATE AND COAST.
Taken From Our Exchanges Through-
out the Northwest.

The Siletz reservation is to be opened July 25.

The Pleasant Valley hay crop is only about half a yield this year. Dry weather is to blame.

A successful operation for appendicitis has been performed on Charles Jackson, a 13-year old boy of Creswell.

The Pendleton scouring mill has received to date, 2,468,386 pounds of wool, of which 2,006,306 were brought in by railway and the balance by team.

Birds are said to be busy destroying the fruit of orchards on the Malheur river and on Willow creek. It is said that so great is the destruction that the cricket pest which recently visited these sections of country could not be compared with the birds.

A Chinaman while unloading ties at North Powder Wednesday was struck by a number of falling timbers and seriously injured. He sustained a fracture of an arm and his head was severely injured. The Mongolian is an employ of the O. R. & N. Co. He was conveyed to Baker City for medical treatment.

The board of regents of Philomath college has elected Professor E. C. Emerson, of Iowa, president. H. Sheak was elected professor of science, W. A. Law professor of mathematics, Mrs. Mary Bradford professor of English literature and Miss Jennie Bradford instructor of the musical department.

Little Dick Allen, the 6-year-old son of E. C. Allen, proprietor of the Golden Rule hotel at Pendleton, while sliding down the baluster of the main stairway in the hotel, lost his balance and fell from the rail on the second floor to the corridor beneath, striking on his head. This was Friday afternoon, and at last accounts he was still unconscious.

The Conley farm in the Grand valley, will not have a firstclass yield this year, but a better one than last. There are 4000 acres in wheat, 600 acres of which have been damaged by grasshoppers; 900 acres will give a good half crop and 2500 acres will yield probably twenty to twenty-five bushels to the acre. It is estimated that from the present outlook the Conley fields will turn out a total of 70000 to 75000 bushels of wheat this year.

Deafness Cannot be Cured.
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness, caused by catarrh, that cannot be cured by Hall's Catarrh. Send for circulars: free.

Garland, Lebanon, Oregon.

Notice for Publication
UNITED STATES LAND OFFICE,
OREGON CITY, OREGON,
June 1, 1895.
Notice is hereby given that in compliance with the provisions of the act of Congress of June 3, 1878, entitled "An act for the sale of timber lands in the states of California, Oregon, Nevada and Washington Territory," as extended to all the Public Land States by act of August 4, 1892, Augusta Hermes, of Oregon City, county of Clackamas, State of Oregon, has this day filed in this office her sworn statement No. 2857, for the purchase of the $\frac{1}{4}$ of n w $\frac{1}{4}$, n e $\frac{1}{4}$ of s w $\frac{1}{4}$, and s w $\frac{1}{4}$ of n e $\frac{1}{4}$ of Section No. 22 in township No. 10 south, range No. 5 east, and will offer proof to show that the land sought is more valuable for its timber or stone than for agricultural purposes, and to establish her claim to said land before the register and receiver of this office at Oregon City, Oregon, on Monday, the 26th day of August, 1895.
She names as witnesses: J. L. Berry of Berry, Oregon, Wm T. Whitlock of Berry, Oregon, Robert Correll of Berry, Oregon, George Mayburn of Berry, Oregon. Any and all persons claiming adversely the above-described lands are requested to file their claims in this office on or before said 26th day of August, 1895.
