Reader, did you ever take SIMMONS LIVER REGULATOR, the "KING OF LIVER MEDICINES?" Everybody needs a liver remedy. It is a sluggish or diseased liver that impairs digestion and causes constipation, when the waste that should be carried off remains in the body and poisons the whole system. That dull, heavy feeling is due to a torpid liver. Bilelessness, Headache, Malaria and Indigestion are all liver diseases. Keep the liver active by an occasional dose of Simmons Liver Regulator and you'll get rid of those troubles, and give tone to the whole system. For a laxative SIMMONS Liver Regulator is BETTER THAN PILLS. It does not gripe, nor weaken, but greatly refreshes and strengthens.

Every package has the Red Z stamp on the wrapper. J. H. Zelin & Co., Philadelphia.

A Clubbing Offer.

A great many of our readers Linn county like to take the weekly Oregonian. We have made arrangements whereby we can furnish it at a reduction from the regular price to those who want both the EXPRESS and the Oregonian. The regular price of the Oregonian is \$1.50 per year, and of the EXPRESS \$1.50 when in advance. We will furnish both for \$2. per year in advance a saving of one dollar to the subscriber. The Oregonian gives all the general news of the country once a week, and the EXPRESS gives all the local news once a week, which will make a most excellent news service for the moderate sum of \$2. per year. Those who are at present subscribers of the EXPRESS must pay in all arrears and one year in advance to obtain this special price.

MURDERED HER BABE

A SAD STORY REPORTED

Mrs. Tetherow Held Her Child Under the Water Till Dead, and Latter Attempted Suicide

INDEPENDENCE, Or., Aug. 25.—A sad story comes from Luckiamute, distant about six miles from here. The wife of James Tetherow, a well-to-do farmer, who has been under the care of a doctor for several months, across this morning before the rest of the family. Taking her 6-year-old son from his bed, she wrapped him in a quilt and carried him down to the Luckiamute river, distant about a quarter of a mile, and drowned him. Returning to the house, she told her husband she was sick, and asked him to go for the doctor. He told her she was no worse than usual, and that she must wait. The wife then left the house and went toward the river again. This time she was followed, and, in an attempt to drown herself, was rescued. On the return to the house she kept speaking about the baby. When the house was reached the baby was first missed. Then she told how she had taken it down to the "nice bathing pool, and although he clung to my neck and begged me not to put him in, I held him under the water." Mrs. Tetherow is now in a stupor, and does not know what she has done. It is thought she is insane.

Four Men Lined.

YREKA, Cal., Aug. 25.—At one o'clock this morning about 150 masked men surrounded the jail and made sufficient noise to draw the jailer to the door, where he was confronted by several revolvers. He turned over his keys. The mob had already perfected all arrangements. A railroad iron rail was put up between trees. They took first from the jail, Johnson, charged with murdering his wife at Callabans ranch and strung him up, the victim crying for mercy. The only answer he received was that he had shown none. The next was Moreno, a Mexican charged with murdering George Sears and Cashier Meierhaus, at Bailey Hill. To the question "what have you to say," he replied "Nothing to say." Null, who killed Aminer, at Etina, and whose plea has been insanity was the third. He wished to make a speech and asked that he be allowed. "Stringing up is good enough for you," was the reply, and stringing followed. The fourth and last was Stiemler, a young man charged along with Monreno with the Bailey Hill murders. In his case at the first attempt the rope broke. He then said "go ahead but tell my mother that I am innocent." The second attempt took his life. Moreno and Stiemler were to have had a continuance of their preliminary trial today. The thing was well planned, all bell ropes were either cut or put out of reach to prevent an alarm being given. All stragglers found were walked along for the same purpose.

Chinese Version.

CHICAGO, Aug. 25.—Sam Moy, a Chinese merchant, received a Chinese paper published at Foo-Chow, which gives four columns of space to the attacks upon the English and American missionaries in June. The paper is interesting, because it contains the Chinese version of the affair. A free translation of the principal points of the Chinese review of the riots shows the attack on the mission houses arose, firstly, from motives of mere robbery, caused by the building of houses with basements, and, secondly, by the revelation of the corrupt practices of some of the hangers on of the mission station.

A Big Job

DALLAS, Tex., Aug. 23.—There is beginning to be quiet a stir and show of business at the site of the amphitheater in which the great glove contest will take place since the contract for the lumber was let. Ten of the biggest saw mills in eastern Texas have been running night and day to fill the largest single bill ever placed with them. Something over 1,000,000 feet of lumber will be used in the building.

Elmer Baker buys all kinds of furs.

Jim Hill's Movements.

SAN FRANCISCO, Aug. 24.—A special from Chicago says: "Should the present plan be carried into effect the reorganization of the Northern Pacific will present a situation unparalleled in the history of American railroads. J. J. Hill, president of the Great Northern railroad, the active and bitter rival of the Northern Pacific, is to have absolute control of the property. There will be no consolidation. Each road is to be operated separately, but the most harmonious relations between the properties are to be established.

The combined value of the interests to be placed under Mr. Hill's charge is in the neighborhood of \$300,000,000 and the miles of railroad aggregate 8900.

Mr. Hill was in Chicago today and gave out the information. He also furnished the authentic figures showing the amount of money lost by the Northern Pacific in the last two years while the receivers have been in charge. It reaches the enormous total of \$10,198,570.

President Hill will take charge of the Northern Pacific property on the condition that he is placed in absolute control of the majority of the stock, and that the interest account be scaled down by at least \$4,000,000. On these conditions he promises to operate the Northern Pacific in the same conservative and business like manner as he has managed the Great Northern, and make it just as profitable property.

Arrest of the Princeton Party.

CHEYENNE, Wyo., Aug. 24.—Governor Richards today requested the authorities of Natrona county to arrest the members of the Princeton geological expedition, if evidence could be secured that they had been killing big game. Professor Hatcher, R. Forsyth Little and S. B. Davis, of the expedition, reached the railroad at Casper on their return trip yesterday from Yellowstone Park. The party came across the Wind River mountains, and for several days had to wade through deep snow and drag their horses and camp outfit across snow filled gullies. They reported having killed many deer and antelope, and these reports reached the governor, he at once ordered their arrest.

Durrant's Trial Resumed.

SAN FRANCISCO, Aug. 26.—The trial of Theodore Durrant was resumed this morning, and Superior Judge Murphy said his health was so improved that he hoped he would be able to sit through the entire trial without further delays. The search for three more acceptable jurors was again begun. Out of all the veniremen examined none were secured. Only 150 veniremen are left, and a special venire will probably be made tomorrow, unless three jurors are secured before then, which is very unlikely. The prosecution remains confident that the boasted alibi kept in reserve by the defense is based principally on Durrant's own statement.

A Hold Up.

LONG BEACH, Wash., Aug. 24.—A bold robbery occurred on the beach Thursday night. Wallington Waddell, a salesman in the employ of Van Schuyver & Co., the liquor dealers of Portland, was the victim.

Waddell had been making collections for his firm, and was supposed to have been carrying several hundred dollars in coin in his pocket. He had left the most of it in the hotel safe. He was met by two robbers, who relieved him of \$24 in cash but left his diamond and watch.

Without investigating further, the robbers escaped with the booty, firing a shot at Waddell as they disappeared in the darkness.

A Dastardly Outrage.

BUTTE, Mont., Aug. 23.—An attempt was made last night by unknown individuals to blow up the 10:30 o'clock east bound Northern Pacific train by placing a stick of dynamite in a frog at a junction half a mile east of the city. Nearly the whole train passed over the dynamite before it exploded. The last coach filled with passengers was badly shattered, but no one was injured.

Three Indians Held Up.

LEWISTON, Idaho, Aug. 24.—Three Indians were held up this morning by three masked men and robbed of \$2,500, paid them by the government for land. Over \$200,000 have been paid to Indians in the last two days. The Indians are flocking into Lewiston and spending money freely. They find no difficulty in obtaining whiskey. One shooting affray has already occurred.

Fifteen-Mile Record Lowered.
ERIE, Pa., Aug. 25.—D. A. Phillips, a local wheelman, today lowered the world's road record for fifteen miles, held by Decardy of Chicago. Phillips, paced by a tandem, rode the distance, seven and a half miles and return, in thirty-seven minutes, beating Decardy's time thirty-eight seconds.

Money in Prunes.

Several Marion county men have sold their prunes to Portland dealers for four and five cents according to size, those running from forty to fifty pounds bringing the latter price. There is big money in prunes at these prices. Dr. Sharples, of Lane county has sold his prunes to the same Portland firm at probably a like price. He says the prunes will net him one cent a pound gross.

Ike Banta's Success.

I. Banta, a former gunsmith of Albany, arrived in Albany this morning from Gold Bluff, northern California, on his way to Seal Rock where his wife has been residing for several months. Mr. Banta reports his gold separator as having met with great success, and as a result Mr. Banta is up clover financially. He states that he sold Idaho for \$10,000, California for the same amount and a half interest in his separator for \$20,000.

He has sold forty-eight separators for use on claims along the beach in southern Oregon and northern California. A great deal has been said in the papers about this beach mining. Mr. Banta says a man with one of his machines on a fair claim makes never less than \$10 a day and as high as five ounces of gold. The gold is of high grade and worth \$18 an ounce. A good claim is valuable as it is inexhaustible, the sea continually washing in new sand. He reports buying the Zumbalt for \$5000 and selling it for \$7,000. After going to Seal Rock Mr. Banta will go to Nicaragua, where he reports an offer of \$50,000 for the right for that country. Mr. Banta talks about thousands the way most of us do about cents. He is fairly in the swim and his friends here generally will be glad to know that the gold is panning out so heavily.

Got the Worst of It.

The Scio Press gives the particulars of how a couple men failed to paint the country red: "Last week a first-class row occurred in one of the harvest crews, that are engaged between this city and Lebanon. George Prine and John Smith, two of the employes in the crew came to Scio, and became loaded with bug juice, taking a bottle of the same back with them. For some reason Prine "had it in" for one of the bosses, George Young, and upon their return he became abusive that a fight occurred between them, Young getting the best of it and made Prine agree to behave himself. In the fracas Prine attempted to use a knife, but did not injure Young further than to cut his clothes and scratch the skin near one of his shoulders. As Young was attending to his work about the machine, Prine, who had secured a club, attacked him again. Young again proved the better man and soon had his antagonist on the ground and, forcibly took the club away from him. About this time Smith, who had obtained an axe came at Young with the evident intention of making mince meat of him. Henry Ray, however, caught him before any damage was done. Prine and Smith were afterwards arrested by Deputy Sheriff Brenner and taken before Justice Miller of Shelburn, who gave them time to secure counsel. In the meantime they were held as prisoners by the deputy at or about his livery barn. On the following day, Friday, Prine gave his guards the slip, and his whereabouts is now unknown. Smith was taken before Justice Miller on Saturday afternoon, and on a sort of compromise basis, pleaded guilty to simple assault and was fined \$40 and costs, amounting to nearly \$60, for his share of this harvest playfulness.

The New Women.

Prof. Shorey, of Portland, occupied the pulpit of the Congregational church last Sunday night. His subject was the "New Woman," and while eulogizing woman as the equal of man intellectually and socially, he deprecated the practice of women wearing bloomers while riding bicycles or on any other occasion. He claimed the woman should have an equal chance with men in all professions and all the avenues of employment, but it was not necessary for them to unsex themselves to fill these places. Whenever a woman does anything to unsex herself, she destroys the high regard and esteem held for her by the male sex. He said the practice of wearing bloomers was a custom imported from foreign countries, and a relic of barbarism. Several of the ladies, who attended the service, and who are advocates of the advancement of the "New Women," assert that wearing bloomers does not detract from woman's modesty or charms, and that it is absolutely dangerous for a woman to wear the ordinary style of dress when riding a bicycle. Besides, in Oriental countries, where the virtue of women is more jealously guarded, than in
