#### LUXURY. ORIENTAL

AT THE STATE CAPITOL

Princely Styles in Furniture and Carpets in the Offices of the Secretary of

Reader, did you ever take SIMMONS LIVER REGULATOR, the "KING OF LIVER MEDICINES," Everybody needs take a liver remedy. It is a sluggish or diseased liver that impairs digestion and causes constitution, when the waste that should be carried off remains in the body and poisons the whole system. That dull, heavy feeling is due to a torpid liver. Illinousness, Headache, Malaria and Indigestion are all liver diseases. Keep the liver active by an occasional dose of Simmons Liver Regulator and you'll get rid of these troubles, and give tone to the whole system. For a laxative Simmons Liver Regulator is sewiffer than Pills. It does not gripe, nor weaken, but greatly refreshes and strengthens.

Every package has the Red Z sta."D on the wrapper. J. H. Zeilin & Co., Philadelphia. SALEM, Or., Oct. 19 .- The touch of the artist's brush and the replacing of old furniture with new is materially changing the appearance of the interfor of Oregon's capitol building. The offices of the secretary of state have been supplied with elegant oak-finished roller top desks. These desks are no less usefull than ornamental, as cierks can without inconvenience lock the archives of state before turning their backs.

The frescoing just finished in the official rooms occupied by the secretary challenges comparison with the work of the most finished artist. Fortunately for the state, the connoiis a relative of Secretary Kineald. He is working at a sacrifice price that saves the state a neat sum quarterly. A nicely carpeted floor, Turkish couch. inviting e sy-chairs, etc., divans. make an appearance that will not suffer comparison with any state. In another part of the statehouse Mr. Kincaid has fitted up a large room in princely style. This room has been partitioned off into four compartments that may be turned to various pur-Two beds have been p therein. The handiwork of the artistic painter is in evidence on the walls and cealing thereof. The hard-finished a-ia-mode furniture, mirrors, a body-Brussels carpet of exquisite beauty, settees, easy-chairs and other furniture contribute to the scene in the reception apartment. Attached to the headpieces of the beds are electric bells, which the supine sleeper may touch without raising from his pillow, and flood the entire room with electric light. The most fastidious must be pleased with the interior of the statehouse when all the rooms are furnished as are Secretary Kincaid's.

# U. S. War Ships.

SAN FRANCISCO, Oct. 18.-The U. S. ship Renger has arrived from Acapulco. The vessel has been away from San Francisco nearly a year, during which time she has been crusing along the Central and South American coasts. The vessel has been detailed to act as a receiving ship, and to occupy the same position here as the Independence does at Mare island. At present 400 men are needed for the mayy, of which number 200 will go on the Boston. Owing to the difficulty of obtaining enlistments at Mare island, the Ranger will remain in the stream until all the men have been signed. which may be a month or six weeks.

The Alert is at Callao undergoing re She was run down and nearly sunk in the harbor. She has been on the central and South American coast fore more than six mouths, and he much longer she is going to stay south

The Marian left here for Callao last www. and it is supposed that she - Alert, It will be some Batur. will relieve the time before the Ma. destination, as she makes a ...

stops on the way. The Boston is ready for sea at Mare ing to . island, barring her complement of men. She will be supplied with the latter as fast as the receiving ship is filled up and will get the preference over the other war vessels.

# The Duke Arrested.

NEW YORK, Oct. 18.-The Duke of Marlborough, who is to marry Miss Vanderbilt, was arrested in Centeral park today for riding a bleycle faster than the law allows. The duke was coasting down hill when overtaken by Officer Sweeney. The young nobleman gave his name and said it was an outrage. The policeman said he did not care a d-, and took him in. At the station the duke was reprimanded and discharged without being fined.

# A Long Sentence.

NEW YORK, Oct. 18 .- Marris Schoenholse, the convicted firebug, was to day sentenced to 4 years in the state prison. Schoenholse was led from the court weeping.

John W. Mackey jr.'s Death

NEW YORK, Oct 19 .- The first intimation of the accident which resulted in the death of John W. Mackay jr., was received here by Mr. Mackay's private secretary, and was a cablegram from Clarence Mackay, in which he said John had been thrown from a horse yesterday and seriously hurt The dectors had pronounced the case hopeless. Charence begged the secretary to prepare his father for the worst. At an early hour this morning mother message was received stating that the young man had died last night. Young Mackay arrived in this city from the west June 8, and sailed for Europe on the steamer Paris,

SAN FRANCISCO, Oct. 19.-John W. Mackay jr., who was killed in Paris yesterday, was the eldest son of the Bonanza millionair, John W Mackay. Deceased was about, twenty-five years of age, having been born at the Grand hotel, in this city, in 1870. He and Clarence, aged twenty-three, were the only children of the millionaire, the Princess Colonna being a step-daugh ter. For the past six months the young man who met sudden death Friday, and his brother, have been spending their vacation in Europe partly with their mother and partly with their step-sister Eva, the Princess Colonna, and at the time of the fatality the two brothers and the princess were together in Paris. Mr. Mackay, sr., is in this city, and received only a brief cablegiam announcing the accident and death. Efforts to obtain further particulars were fruitless. Mr. Mackey is overcome with grief.

#### Disasters to Coal Ships.

BAN FRANCISCO, Oct. 18 .- The English underwriters have become panic-stricken in consequence of the recent fires in coal-laden ships, and as a result a large business is being done in this city in reinsurance. Four ships now on the way from Europe for San Francisco have been reinsured at the rate of from 10 to 12 per cent. The strangest features about the business is that none of the persons are yet due. The loss of the British ship Europe, bound from Leith for San Francisco determined the underwrites' course o action. They began quietly unloading on those vessels bound from Glasgow, Liverpool and Cardiff, and when news was received that the Parthia had been abandoned at sea, insurance men made all haste to get from under Of the coal-laden ships coming here 20 per cent have been offered for reinsurance on the Nordslit and Casbona, bound from Glasgow; 10 per cent on the William S. Babcock, from Liverpool, and the Duchess Anne, from Hull. The Nordslit is out 120 days and the Casabona but 78. The Babcock is out 90 days and the Duchess

Such a state of effairs is almost without precedent, and it was not brought about by the loss of the Europe and Parthia alone. The abandment of these two vessels was the culmination of a long list of disasters to coal ships bound from Europe for the west coast which extends back as far as June. The Parthia makes the eighth vesse which has been abandoned in midocean in the past six months. Besides these nine ressels have been on fire.

# Believed Him Dead.

ALAMEDA, Cal., Oct. 18,-W. W. Smith, a grand nephew of the late Governor Peter Burnett, paid a visit to his uncle, Albert Kamp, the other day, and the latter was greatly surprised. For many years Smith's relatives have believed him dead. In 1883 Smith left home, telling his relatives he was go-

will belied that he went to the period that he went to the period that he went to the period to the tune. His ta.. by way of steamer. vessel was wrecked along and the name of W. W. Smith peared among the list of those lost, and they thought that he was drowned. Mr. Kamp is a police officer in this

city. Several years ago he met a man in San Francisco who informed him that he was a passenger upon the vessel with Smith, and that Smith was drowned. This satisfied Kamp that his nephew had perrished. Some time afterwards be signed an affidavit in some pro ate matters affecting Smib's interest in which he swore that he believed that Smith was dead. Now Young Smuh tools up serenely and says he did not go to the Northwest. He changed his mind after he started and went to Arizona. He has been living in Arizona for 12 years, while his family and friends mourned him

Pardoned.

WASHINGTON, Oct.18 .- A pardon has been granted by the president to George M. Vanlenven, sentenced in Iowa to imprisonment for two years and a \$1000 fine for violation of the pension laws.

#### Santiam Mines.

George Appleyard, just down from Quartzville, giver the Albany Herald an account of gold discoveries there that are wounderful. He says that in the White Bull mine, now being worked by the English syndicate, rich oar-bearing wire gold in large quanti-ties has been found. "It is not in litties has been found. tle pieces," he said, "but it is in great chunks of ore. I saw it taken out myself and know what good ore is when I see it. The Albany company also has discovered a new ledge which promises to be equally as rich.

"The English company, under the management of Mr. Lawler, is running three tunnels to connect the White Bull and Red Bull mines. Shafts have also been sunk, and they have 500 to 700 tons of rich ore on the dump and nearly 100 men at work

Mr. Appleyard said he expected to meet Mr. Robertson, a representative of Marcus Daly, of the Anaconda mines, in Albany in a few weeks, when they would go to Quartzville. He predicted that there would be mining developments in the near future that will surprise the most skeptical, and as a practical miner he says it will be no idle boom, for they have rich ore in sight.

The Horse Doomed. Portland is not to be much behind Paris in the matter of horseless carri-A local inventor has been at work for some time on a gasoline ennow about completed. In fact, a test was made yesterday on a boat. intended that the propelling machin-ery, to be placed under a carriage to furnish four horsepower, shall weigh about 160 pounds. This machine as designed will be the last feather to crack the spine of the horse. The electrie railway has made the slaughterhouse the ultimate destination of the horse, but when these machines come into general use, the poor horse can lay him down and die, and not trouble himself to go to the shambles. When a lot of sporty fellows get out on Riverside road in buggies propelled by gasoline and some of them imbibe too much benaine, there will be a likelihood of explesions, and the results will make thrilling reading .- Oregon-

# Gone to San Francisco,

John M. Gearin has gone to San Francisco to argue the case of Receiver Beall, of the Linn County National bank, vs. Cowan and others, which was decided some time since by Judge Bellinger and which has been appealed to the circuit court of appeals, and comes up for hearing on October 24. Judge Bellinger decided that the assets of the bank should not all be received by the attaching creditars, but should be divided equally among all the creditors. The attaching creditors appealed from this decision, and Mr Gearin appears as counsel for them. It is thought that the assets of the bank would pay nearly all the claims of the attaching creditors, tut only a small or cent of all the claims,
