The present indication is that the long expected war is not for dist-agt. Russis and Japan are on the verge of hostilities over the division of the spoils in the latters war with China, Japan was strong enough to gain all her victories, but she may not be strong enough to hold her legitmate fruits. Americans who love peace should be thenkful that our country is not mixed up in the Eastern quarrels. A general war is to be deplored, but America would reap meny financial bless-

The supreme court has rendered a decision covering in part the question of taxing church property. As the Express predicted, the court holds that the law does not exempt that class of church property which produces a revenue. In other words, when a church or other like society owns and derives rent from any property, that property must bear its proportion of taxes, just as property owned by individuals. That property, actually used for church purposes only, must not pay taxes under the present law. The justice of this decision, as far as it goes, will be patent to every one, when it is rembered, that, in Portland alone, millions of dollars worth of such property has heretofore escaped taxation, and the burden of taxes thus shifted has been borne by the public at large, who have received little or no compensation. The spirit of the complete divorcement of church and state. Anything that savors of a connection between the two should at once cease. Experience attorney fees and \$715 principel.
