### STATE AND COAST.

#### Clipped from our Exchanges Throughout the West.

A Lutheran church has been organized in The Dalles.

Sherman county has been furnishing mules for a Montana coal mining company.

Newberg's receipts last year were \$2388.72, and her disbursements were \$2386.03.

The receipts of the Salem postoffice for the last quarter of last year amounted to \$4960.11.

Klamath county warrants are now selling for 85 cents. Jackson county warrants are held for 95.

Treasurer Kern, of Umatilla county, received from Sheriff Houser Thursday \$1708, money collected for taxes.

A correspondent of the Albany Democrat says the people at Brownsville are beginning to make gardens and prepare for summer time.

The schools at Cove, in Union county, have been closed for an indefinite period on account of the prevalence of scarlet fever in that community.

Rabbit-killing is a popular pastime in Lake county this winter. In one school district over 1200 were killed by the neighbors on a recent Sunday.

The Grande Ronde Telephone company has made a proposition to the business men of Baker City to connect that city with La Grande by wire.

A freight train, numbering 50 cars, from Umatilla, arrived in The Dalles Wednesday evening. The cars contained wheat, which was shipped from near Pendleton.

Hops have been selling in Gervais at from 2 1/2 to 4 cents. The Star, of that place, says it understands J. R. Broyles, of Fairfield, has reduced his yards by 15 acres.

The Pacific Postal Telegraph company's line down the Columbia river to Astoria has been completed, says the St. Helen's Mist, and offices have been established at Ranier and Clatskanie.

The Fossil Journal says that letters from Rev. Frank Spaulding, formerly presiding elder of The Dalles district, but for the last three years a missionary in Brazil, indicate that the minister and his family are in destitute circumstances.

The steamer Grey Eagle surprised the inhabitants of Jefferson last week by making a run up the Santiam river to that city. This was the first time the puff of a steambot had been heard at Jefferson since 1882, and, of course, it was a big day for the little city.

Charles Kimball, of Dayville, is in trouble. Last Tuesday Constable Greenwell delivered him to the sheriff, and Kimball is now in jail at Canyon City in default of \$500 bail on a charge of the larceny of cattle, the property of the French-Gilman Livestock company.

The Man Observer has cause for rejoicing. It says: "In this wrangling about sheriffs conveying prisoners to the Salem penitentiary, be it remembered that Sherman county did not ship a convict last year, and has none behind the state's iron gratings at the present time."

Some idea of the amount of work the county judges and commissioners of Wasco county will be called upon to perform during the present term can be gathered from the fact that there are 540 claims filed against the county, which they will have to pass upon, besides examining the annual reports of road supervisors, considering petitions for roads, appointing judges and clerks of elections, etc.

F. H. Duffey, who was brought all the way from Clinton, Missouri, to Pendleton, at an expense to the county of from \$800 to \$500, in answer to the charge of embezzlement, has had his examination and has been fully exonerated. There did not appear to be the slightest shadow of a case against him, or anything to show that he had committed a crime or misdemeanor of any sort, says the East Oregonian.

M. Ward was riding the other day in Gilliam, along the edge of a very steep hill, which was covered with ice. His horse slipped and its rider jumped off. The animal slid and fell about 50 yards down the hill, with almost the rapidity of a cannon ball. Fortunately, just before striking the rocky bottom the saddle-horn caught on a fence post in such a manner as to break the force, and the horse wasn't hurt very badly.

The dead body of George Milne, a young man aged 17 years, who resided with his parents on a farm five miles west of Eugene, was found in the woods about three-quarters of a mile from the house at 8 o'clock Thursday morning of last week, with a bullet hole through his heart and a revolver in his right hand. The opinion of the boy's father and of neighbors is that the boy took his own life, though no cause for suicide is known.

Jackson county is \$7.50 better off owing to the change of heart of John A. Williams. In the year 1882 he presented scalps to the county clerk and received a bounty on them, the clerk presuming they were coyote scalps. Of late Williams has joined the church, and he appeared before Clerk N. A. Jacobs, confessed he had received a bounty on wildcat skins in lieu of coyote scalps, and turned over the above amount.

L. C. Gilmore's 5-year-old daughter, who was so badly burned last Saturday, at Independence, died Sunday morning. Courtly, her brother, 7 years old, is more dangerously burned than was at first thought, and he, too, may die. The children, in reply to the fire in the furnace, used over a gallon of coal oil, and had it not been for the basement having a cement floor, the house would have been burned. Both children were very bright for their ages. Courtly having started in last week to beat the drum in the public school, for the children to march by.

#### Why We Need People.

Dissect a map of the United States and see what an interesting study it affords. Cut the map into states and many of them it will require, placed side by side, to cover Oregon. You would observe that Oregon, with her 96,000 square miles, is capable of accommodating the states of New York, Maryland, Massachusetts, New Hampshire, New Jersey, Rhode Island, Vermont, Connecticut and Delaware, with a population exceeding 15,000,000, and yet we would have space to spare! Just think of it—350,000 people occupying 100,000 square miles! Three people to the mile!

You can put Maine and Missouri down in Oregon and yet not be crowded. The population of the former is 1,122,000 and of the latter of the two first mentioned, 3,000,000.

You can set Iowa down west of the mountains, and there would yet remain room in which to accommodate Kentucky. The population of these two states exceeds 4,000,000.

Put Indiana, with 2,405,504 people, down in the valleys of the western part of the state. Still Illinois, with her 4,500,000, in Eastern Oregon, and there would still be room and to spare for Vermont, with a population equal to that of Oregon supported with her 865,500 square miles.

There is room in Oregon to accommodate two states the size of New York.

Cut the state into 1372 pieces of equal size and each would be large enough to hold the District of Columbia, with her 280,000 people.

Oregon would hold ten states the size of Vermont. This would give a population of 7,000,000.

Oregon is capable of holding eighty Rhode Islands. And the population of Little Rhody is almost equal to that of our own state.—Ex.

Kline, Dubrulle & Co., sold last fall and winter, 350 pairs of boots on a warrant and they are proud to say not one pair came back. They carry the same boots this year and have on hand a very large stock. Also all kinds of shoes. Their children school shoes are the very best. Their ladies fine shoes are the finest and up to date on styles. They are the only exclusive boot and shoe store in Albany. Give them a call.

Bakery for sale or trade—The Lebanon Home bakery and the fixtures belonging thereto, situated in the Kirkpatrick building. One of the finest brick ovens in the west.

### COUNTY COURT.

In the matter of the raise on the assessment roll of Linn county, for 1895, made by the state board of equalization, it was ordered by the court that the clerk of Linn county let the tax roll stand as equalized by the county board.

The county court has fixed the tax levy for Linn county for 1895 at 15 mills. This is distributed as follows: For state purposes, 4.8 mills; county, 5.1-6 mill; school, 5 mills; indigent soldiers, 1-13 of a mill.

The levy is one mill higher than last year, but the assessed value of property is lower, so the tax to be paid will be about the same, or even a little less. The valuation for 1895 is \$1,333,515, but it was raised by the board to \$1,744,502. The county, however, will simply pay the state taxes on the raised assessment and collect county taxes according to the original roll. A total revenue of \$108,889 will be the result of the levy, which is about \$20 less than last year. The state tax will be \$35,783.31. About \$40,000 is required for county purposes. The levy is as low as could be expected, considering the raise made by the state board.

It was ordered that Sweet Home voting precinct be divided and Easter made a voting precinct.

The polling place of Waterloo precinct was ordered changed to Waterloo.

Road supervisors were appointed as follows, their postoffice address and the number of the district being given:
