A fine illustrated folder has been issued and may be seen at this office.
 Hon. M. A. Miller has sold his drug store to O. C. McFarland, formerly of Albany. Mr. McFarland was in the drug business in Albany three years and a half and thoroughly understands the business. He comes among us as no stranger, as he is known by the most of our citizens. He is a gentleman in every respect and is well liked by everyone that knows him. He is just such a man as we like to see locate in our midst. We bespeak for him a liberal patronage. Mr. Miller has not decided what he will do, but for the present will remain in Lebanon. His reason for selling out was on account of poor health. He was born and raised near this place and has now been in the drug business here ten years. Mr. Miller has been a great factor in the upbuilding of our city, having served as mayor four terms, and always taking an active part in everything for the advancement of the city. We hope he will decide to remain with us.

The Hop Outlook.
 The outlook for hop growers at present is not at all favorable, says the Silverton Appeal. A few weeks ago conditions indicated that hops would be worth from 7 to 8 cents per pound for a choice article, but since that time the market is on the decline. From good authority it is estimated that growers will do well to get 5 or 5 1/2 per pound. The Butteville Hop Growers' Association has a large membership, and heretofore held meetings regularly in the interest of growers. The association in former years has purchased a large amount of hop supplies, thereby saving considerable money to the growers by getting a reduction by buying in large lots. This year the association will not even have a meeting. The members have decided not to purchase any supplies, for the reason that they are afraid to take the risk. The price of picking will undoubtedly be reduced this season. Twenty-five cents per box will probably be the price paid. If pickers can be secured at this price, this will reduce the cost of production, and hops can be put in the bale for 4 cents a pound. Even if hops are worth enough to be profitable to the grower, there is yet another very perplexing question, and that is to get the money to pick with. Owing to the stringency in the money market, it will be extremely difficult to get money.
Several Sales.
 Matters were lively at 1 o'clock Saturday at the front door of the court house. Deputy Sheriff Lewelling sold at sheriff's sale the David Hawley property, 108 acres, to satisfy a judgment of David Link, for \$1250, bid in by the plaintiff; the C. C. Hackleman property at Lebanon, 10 lots, to satisfy several judgments, bid in by W. R. Donaca et al for \$1500. Lot 1 of the Jane E. Carter property was sold at administrator's sale to F. S. Thayer for \$375. On account of the low price the other three lots were not sold. A wagon of Otto Baumeister was sold on judgment by Henry Weisbard, to A. W. Gordon for \$50.

 From all appearances the potato crop will be rather light this fall. Already the vines have assumed a yellowish cast and there are no potatoes even as large as a marble on them. This is very discouraging to the farmers as the potato crop heretofore has been heavy and no price. This year it seems as though the price will be exceedingly good. The cause of this light crop is supposed to be from no rains and abundant hot weather.
 The hop crop in this part of the country is very good. The lice have not bothered very much. There is not more than one-third as many here as there were last year. The price per box will not be changed much. From 25c to 40c per box.
 The wheat and oats crop is very light and a great deal of it will be put into hay. Corn is very good but scarce. There will be no fruit in this section at all except a few strawberries and blackberries. The early frosts killed the entire peach, apple, pear and prune crops.
A Sad Case of Drowning.
 Saturday afternoon about two o'clock while Delmer Achenbach, aged about 8 years, and Leo Payne were in swimming at the mouth of the Calapooia, young Achenbach, who could not swim, got in deep water and was drowned. They were intending to go over to the island, and Payne told the boy to wait until he went over and he would come back and help him across, but Achenbach attempted to go over without assistance and when Payne got across he missed the boy and swam back and tried to rescue him. He immediately gave the alarm, a boat was procured and after about half an hour the body was recovered. Dr. Davis and Wallace did all in their power to resuscitate the boy, but he had been in the water too long.—Herald.
