H. Y. KIRKPATRICK, Editor - and - Proprietor

The Oregonian, ever ready to publish reflections on the democracy of Oregon, has given to E. R. Skipworth space in its columns to express his great dissatisfaction with the delegates from Oregon to the Chicago convention. It has not enough space in its columns to express its disgust for the democrat, who would, by indirection even, attempt to saddle upon the people Hanna's candidate for the presidency. Mr. Skipworth is wrothy because the Oregon delegation nominated Penoyer. He takes things too seriously. His innocence and simplicity are surprising in an old politician like Mr. Skipworth. No one, not even a delegate, would have expected Penoyer to be nominated. It was simply a means by which the delegation was enabled to show to the world the beauty and richness of Oregon and the Willamette valley in particular. His nomination was only a clever advertising dodge; and, while Penoyer got a few words of undeserved praise, our great state, with its wonderful wealth and delightful climate, was brought to the favorable notice of many thousand prospective settlers. Penoyer is an old crank and every body knows it; but did not every one know that Penoyer lives in the greatest state of the Union. We use the cranky Oregonian to advertise the state. Why not use another crank to accomplish the same end? Somebody ought to have let Eugene on to the racket and his feelings would not have been hurt. We always thought that Eugene was one of "the boys," but we find that he is only an innocent school girl and believes all he hears.

SENATOR TELLER wrote the following letter to Mr. Bryan after he had received the Chicago nomination: "I think I can promise you the cordial support of the Western silver men who have heretofore acted with the republican party, and if you get that I think all the Western coast, and intermountain states will be with you. I need not assure you that your nomination was more than satisfactory to me. I think we shall be able to consolidate the friends of free silver in your support, and if we do this I believe you will be elected, although I do not overlook the tremendous power that will be put against us in this campaign. All the power of money and organized wealth, corporations and monopolies of all kinds will be against us. Justice is on our side, and this is the cause of the people. It will afford me pleasure to place myself at the disposal of the national committee to make speeches in your behalf as my health will permit, where and when they may think I will do the most good."

The gold-bug press is still vigorously lashing Bryan and free silver. They gladly publish every conceivable item that would tend in the least to prejudice the cause of silver. There was a great scare raised by the Oregonian a few days ago about city and county warrants falling below their face value, because the capitalists were afraid of free silver. But Monday's issue publishes the fact that all such warrants are being readily bought at par. So another such argument is punctured. This labored effort of the gold-bug press to conjure up far-fetched arguments against silver results only in exposing the pitiable weakness of the gold-bug forces.

The free coinage of silver requires that our laws should be so amended that any person can take any amount of silver bullion to any one of the mints of the United States and have it coined into silver dollars, free of expense to the owner of such silver bullion. The law would compel the government to deliver to the depositor of the bullion one full legal tender dollar

for each 37 1/4 grains of pure silver which he should deposit.

ALABAMA has gone democratic by about 30,000 over the populist-republican fusion ticket. The democrats elect the governor, the legislature and every thing else. McKinley's nomination does not seem to have increased republican strength. Alabama will go for Bryan with even a larger majority.

In Oregon every public institution is, in a measure, a political machine. This is illustrated by the election of H. B. Miller to the presidency of the Oregon Agricultural College, that gentleman having never given any indication of a fitness for such a position. However, as a political wirepuller his services were well worthy of recognition.

HERBERT CONDON has been elected private secretary (a useless position) to H. B. Miller. The new president of the Oregon Agricultural College, at a salary of \$1,000 a year. George Clark and Lester Leland have been elected printers of the same institution at \$500 a year each. Neither of them are printers.—Roseburg Review.

It is said that Candidate Bryan will challenge Candidate McKinley to meet him in joint discussion during the present campaign, and if the latter refuses, the former will follow him up, and whenever and wherever McKinley speaks Bryan will speak immediately thereafter.

THE New York Herald is opposing Bryan and Sewall. This is explained by the fact that its millionaire editor, James Gordon Bennett, has resided in Paris for many years, and is out of touch with the masses of the people in this country.

HON. THOS. E. WATSON, the populist nominee for vice-president, says he will run to the end of the race, whether Mr. Sewall runs or not; and says he is not a political trader and will not resign in Sewall's favor, even if offered a cabinet position.

It is thought that the democratic national committee will furnish Mr. Bryan with a special train in which he will travel about the country during the campaign, making speeches at the stations from the car platform.

THE Tillamook Headlight is informed that one creamery in that county has distributed over \$20,000 among its patrons in the past year, and about \$150,000 has been paid to Tillamook for butter and cheese in the last year.

MAYOR PENNOYER accepted \$208.30, only for his first month's salary as chief executive of Portland. This amount is half of the salary fixed by law.

COL. ALBERT TOZIER, secretary of the Oregon Press Association, has been appointed health officer of Portland.

THE Eugene Broad-Axe hoists the name of Bryan and Sewall for president and vice-president.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio.

Nerves

Are the Messengers of Sense.—The Telegraph System of the human body. Nerves extend from the brain to every part of the body and reach every organ. Nerves are like fire—good servants but hard masters. Nerves are fed by the blood and are therefore like it in character. Nerves will be weak and exhausted if the blood is thin, pale and impure. Nerves will surely be strong and steady if the blood is rich, red and vigorous. And a true friend in Hood's Sarsaparilla because it makes rich, red blood, do their work naturally and well.—the brain is unclouded, there are no neuralgic pains, appetite and digestion are good, when you take
