Morgan Wassom has been pardoned by Governor Lord. His time would have expired in the spring, by a pardon from ex-Governor Penneyer, which shortened his sentence to that time. The weakening of the body and mind of Wassom induced the governor to release him at once with a full pardon. Wassom's family and friends were naturally delighted at his return. We hope that nursing and care will soon restore his mind and body, and that he may have yet a long life before him.

Kincaid, our worthy secretary of state, has shown himself to be an honest, courageous official, one who would not think of doing a dirty trick, especially when commanded to do so by his party's bosses. An attempt was made to keep the Bryan union electors off the official ballot, on technical grounds; Mr. Kincaid over-ruled even the opinion of the attorney-general, who is a rancorous partisan, and certified that names of all the candidates for presidential electors in the field should have the place which they are entitled to. If the McKinleyites are sure of the vote of Oregon as they claim to be, why should they resort to such trickery?—Eugene Guard.

Two weeks ago one of John Dobkin's children took sick with diphtheria—but it has entirely recovered and is now out again. It is thought the child caught it from a favorite dog that the boy was with a great deal. Dr. Booth, who was attending the child, says he did not examine the dog, but ordered it killed, and from what the family said of it the doctor is satisfied the dog had the genuine diphtheria. Dr. Lamberson says he dissected a cat a few years ago that had genuine diphtheria and had given it to a large family, and the disease went all through the family. All physicians agree that diphtheria can be carried by dogs and cats, and our citizens should be careful, and if their dogs or cats show signs of being sick, kill them at once.

The arrangements are for the country brethren to furnish the conveyances as far as convenient, and to take all that want to go down free. There will probably be reduced rates on the train to all who want to go that way. Hon. H. L. Barkley and other prominent speakers will be present. Albany people say they propose to make this one of the biggest rally days ever held in the state of Oregon.

Disturbance at the Depot.

The disturbance at the depot, the night of the McKinley parade, was disgraceful. There seems to have been some bad feeling between several Albany and Lebanon boys. Some bad whisky was drunk by both sides. This fact, with the bad feeling and the innate cussedness of some of these kids, started a free fight. We are sorry to have to say, that the fault seems to be with the Lebanon boys. Rocks and sticks were thrown at the receding train and a few persons received painful bruises. There are several boys in this town, sons of respectable parents, who should be sent to the reform school. They are a disgrace to the town and a continual menace to its peace. The marshal will deserve the thanks of the community if he will break up this little gang of hoodlums. For the good name of the city, we are glad to know that this disturbance had nothing to do with politics, and was participated in mainly, if not entirely, by torch-bearers in the McKinley parade.

There was some unnecessary noise at the Academy grounds where the speaking was had, and we regret that it occurred. It was a McKinley celebration and his followers should have been allowed to make all the noise. It is customary throughout the country for the opposition to answer cheer with cheer, but we hope that Lebanon will be an exception to this rule, and will always treat the other side, which ever side that may be, with unusual courtesy.

The happy couple have the best wishes of a host of friends of this place. A play party was given in their honor last Monday by Mr. Bartley's parents.

A careful estimate of the voters of this place show the following figures: Bryan 31, McKinley 16, Palmer 1; and for vice president: Sewall 17, Watson 14, Hobart 16, and Buckner 1. There are two doubtful, but in the opinion of the writer when they come to the polls on the 3rd of next month their ballots will be cast for Bryan and Sewall, and if so, Bryan will receive 33 and Sewall 19.

The Salem Mill.

Thos. B. Kay, of the woolen mills, went to Portland this morning in the interest of the mills. Mr. Kay reports work progressing quite satisfactorily in the mills. Owing to orders for goods from this popular institution demanding immediate attention, work was resumed sooner than was intended. Quite a number of persons are now employed in the mill preparing the wool for the more advanced process of manufacture. Mr. Kay thinks that in the course of three weeks work will be progressing in all the departments of the mill. This will be good news to the many Salemites who depend on work in the mill for a living.—Journal.
