The second annual convention of
the Southern Oregon Miners' Associa-
tion met in Grants Pass this week.

It was shown by the recent election
that Wallowa county's vote fell short
about 100 from what it was in June.

About 40 Japanese are at work on
the Southern Pacific railway, 13 miles
south of Roseburg, lightening up a
slide.

Isaac Finley shipped 11,000 pounds
of hops from Grants Pass to St. Louis
last week. They were sold under con-
tract for 11 cents.

The Siletz Indians, who have been
working all summer and fall at the
cannery in Weddeburn, have returned
to the reservation.

It is hardly possible for horses to go
much lower than the old plug that
was sold at public auction in Corvallis
the other day for 5 cents.

Some of the citizens of Grants Pass
propose to call a conference of Jose-
phine county voters to decide on de-
sirable measures to put before the
next legislature.

The Hotel Eugene, which has been
closed for several months, will
probably reopen soon, having been
bought by Stephen Smeed.

All the real and personal property
of the Medford Distillery & Refining
Company will be sold at public
auction in Medford, Dec. 19.

In referring to the nickel mine near
Riddle, Douglas county, the Mite says:
W. Q. Brown, of the nickel mine, will
soon have his mine in operation.

The Minnesota hotel in Eugene has
been sold to John Whiteaker, for
\$1686 66. Mr. Johnston has leased the
building and will continue as landlord.

Several teams that attempted to cross
the Cascades from Prineville last
week were unable to get beyond Lost
creek, because of three or four feet
of snow there.

The proprietors of the Ashland
woolen mills are seriously considering
moving their plant from Ashland to
some point in California, where a sub-
sidy has been offered them.

The Forest Grove post office will be
made an international money-order
office the first of the year. Mr. Marsh
made application some time ago, and
recently received a favorable response.

An ordinance has been introduced
in the council of Corvallis to close
every business house in the city on
Sundays, except those places of busi-
ness that are allowed to remain open
by law.

The citizens of Ashland have formed
a registration law club, the pur-
pose being to secure the enactment
this winter by the legislature of a law
providing for a system of registration
of voters.

The Dalles' streets are in darkness at
night. The electric company's price
for street lamps is more than the
council is willing to pay, and the city
authorities are taking steps to put in
coal-oil lamps.

The regular monthly gold output of
the Virtue mine was brought to Baker
City last week, and deposited at the
First National bank for shipment to
the mint. It was in charge of Super-
intendent Resque, and the amount
was \$20,000.

Grants Pass is to have a custom
quartz mill soon. Dr. W. H. Flaunagan,
of that city, has a ten-ton mill
with all the necessary appurtenances,
and also has a boiler and engine, at
Talent, which he will move to Grants
Pass and place in position for use.

The northwest corner of the univer-
sity campus, in Eugene, about two
acres, which has always been very
wet, has been tilled for the purpose
of draining it. The ground, which was
very rough, has been plowed and cul-
tivated down to make it smooth.

West Bros., of Pleasant Hill, Friday,
sold to S. H. Friendly, of Eugene, 2500
bushels of wheat, on board of cars, for
75 a bushel. The Messrs. West have
the wheat at their farm and will de-
liver it at once. Mr. Friendly also
purchased 4000 bushels from other
sources.

A reward of \$150 has been offered by
the business men of Athens for the

capture of the burglars that broke into
four business houses there the other
night. The burglars got, as a
result of their night's work, about
\$18 in cash, a gold watch and seven
finger rings.

A. T. Markley, of Medford, of the
Aloha evaporator, has evaporated
about \$25,000 pounds of fruit this
season, principally prunes. This is
about half the amount put up last
year. Mr. Markley is figuring on get-
ting together enough fruit to make a
carload shipment.

Kinney's cannery suspended pack-
ing for the fall season with the close
of last week. The boats are now being
hauled out of the water and stored
away for the winter. The fishing on
the Columbia this fall has been a sig-
nal failure, neither the fishermen or
canners have derived much benefit
from the operations.

A first-class gasoline gas plant, cap-
acity of supplying 400 burners, has been
installed in the chemical laboratory at
Pacific university, in Forest Grove.
The new apparatus, which cost about
\$1000, is the gift of the First Congrega-
tional church, of Spencer, Mass., and
was promised to Professor Whittlesey
on his trip East. As it is so powerful,
it is possible it may be used later for
general lighting of the college build-
ings as well as for the laboratory work.

Eugene Guard: Dick Vandeventer, of
Crook county, who recently purchased
a load of supplies here, and left with
his four horse team for home, after
battling a week with the snow on the
Cascade mountains, returned here
again. He says that several wagons
and a party of ten men attempted to
cross the range but were compelled to
abandon their wagons in the snow and
carry out their supplies on their backs.
The snow when he left was eight feet
deep. Heretofore the road has not
generally closed for a month.

TENNESSEE HAPPENINGS.

—BY CESSAR.

Nov. 14, 1896.
Constant rain forced the potato dig-
gers from the field and probably the
potatoes will not be dug at all this
fall.

Sunday was Rev. Doughton's day to
preach, but the rain prevented anyone
from being present.

After the proceedings are over at the
basket social, a literary will be organ-
ized. We would like to see everyone
present, so you can enroll your names
on the list. We would like to see the
membership exceed 40 the first night.

We are grieved to publish the news
of Mr. Geo. W. Crowder's departure
from this neighborhood. Mr. Crowder
has been a faithful man in this place
for the past eight years. He has
resided on Mr. D. Andrews' ranch
since he has lived here. He will now
take up his abode in Albany. We
must not forget to mention Miss
Martha Crowder also. She is one of
Tennessee's most popular young
ladies, and her many friends regret to
see her leave.

Mr. J. D. Fronk will occupy Mr. D.
Andrews' ranch, made vacant by Mr.
Crowder.

Stella Fronk, Blanche Simons and
Harry Myers entered school Monday.

Hiram Pickens, of Sweet Home, was
the guest of the Fronks' and Black-
laws' last Tuesday.

A Clothing Offer.

A great many of our readers in Lin-
coln county like to take the Weekly Oregon-
ian. We have made arrangements
whereby we can furnish it at a reduc-
tion from the regular price to those
who want both the EXPRESS and the
Oregonian. The regular price of the
Oregonian is \$1.50 per year, and of the
EXPRESS \$1.50 when in advance. We
will furnish both for \$2. per year in
advance, a saving of one dollar to the
subscriber. The Oregonian gives all
the general news of the country once a
week, and the EXPRESS gives all the
local news once a week, which will
make a most excellent news service
for the moderate sum of \$2. per year.
Those who are at present subscribers
of the EXPRESS must pay in all arrange-
ments and one year in advance to obtain
his special price.

In order to put the EXPRESS in the
homes of many who are not now tak-
ing it, we have decided to offer it from
now until March 1, 1897, for only 25
cents. If you are not taking the EX-
PRESS already, take advantage of this
offer and subscribe at once, and if you
are already a subscriber, send it to
some Eastern friend for four months.

ABSOLUTELY PURE

BEEF SUGAR FACTORY.

Such an Institution Will be Erected in
Washington County by a
German Professor.

The following from the Corvallis
Times would give the reader the im-
pression that Oregon is soon to have a
beet sugar factory:

"It is a beet sugar factory, but it is
not to be located in Corvallis or Benton
county. Its establishment seems as-
sured, because the move in its behalf
has been on foot for some time, and
a large amount of stock has already
been taken. The promoter of the
enterprise has been in Corvallis for
several days, but he left for Tigard-
ville, Washington county, where the
factory is to be built.

"The promoter is Richard Kuehne
and he is a German. For three years
he was expert in the sugar beet factory
of the Ostrard Beet Sugar company,
Grand Island, Nebraska, and for
twenty years he was chemist in a
great sugar beet establishment at
Posen, Germany. He knows all about
beets and how to make sugar out of
them. In fact, his fatherland was the
pioneer in the production of sugar
from beets, and what is not known in
the production of sugar from beets in
Germany, is not worth knowing.

"Prof. Kuehne came to Corvallis on
business connected with his proposed
Washington county enterprise. With
him he brought many samples of
sugar beets grown in Washington
county and to test them for their sugar
product was his business. He spent
three days in the chemical laboratory
of the O. A. C., where, with Prof.
Shaw, station chemist, the Washing-
ton county beets were tested and other
information gathered that was of
satisfactory result to Prof. Kuehne,
and he left for Washington county in
good spirits.

"Oregon is one of the best places on
earth for the manufacture of beet
sugar," said the professor.

"The average per cent of sugar in
sugar beets grown in Oregon is 14.9
per cent; in Germany it is only 13 per
cent; in France 12 per cent. The beet
crop is a most excellent one for the
farmers, because it is a profitable one.
It takes twenty pounds of seed at
fifteen cents per pound to plant an
acre of beets. That is \$3 for seed, and
the yield is from seventeen to twenty-
eight tons per acre. We contract to
take beets that yield sugar at the rate
of 12 to 14 per cent at \$4.50 per ton.
For every one per cent of sugar yield
above 14 per cent, we pay fifty cents
per ton extra. That is to say, beets
yielding 15 per cent sugar would bring
\$5 per ton, and if the yield were twenty
tons per acre, the gross income would
be \$100 per acre. Oregon is peculiarly
adapted to beet sugar manufacture
and it is only a matter of time until
factories for the purpose will dot the
Willamette valley.

"For many years beet sugar was
manufactured at a profit with
machinery that could only extract 60
per cent of the sugar from the beet.
Latest improvements in machinery
now fix the average of saving at 92 per
cent. A peculiar fact concerning
sugar beet culture is, that the white
land, so common in the Willamette
valley, after being drained, produces
the best beets for sugar. The
percentage of sugar beets grown in
such land is the greatest. All soil in
the state, however, except beaver dam
land, is adapted to sugar beet cul-
ture.

PULP AND PAPER MILLS.

The one will be Started up the Santiam
and the Other Probably
in Albany.

Albany Herald: The Niagara saw
mill property, located at Niagara, on
the eastern division of the O. C. & E.
railroad on the North Santiam was
recently sold by the assignee to O'Neil
Brothers & Callahan. O'Neil Bros.
are proprietors of the paper mills at
Lebanon and the purchase was made
for the purpose of converting the
saw mill plant into a pulp mill. The
mill cost about \$20,000 and there is
abundant water power there for any
kind of manufacturing. There is also
an abundance of hemlock timber in
that region and further up the San-
tiam are large quantities of balsam
timber, both of which are used in
making pulp.

It is the intention of the company
also to start a large paper mill for the
manufacture of all kinds of finished
paper. The mill at Lebanon makes
brown straw paper only. The location
of the mill may be in Albany, as both
lines of railroad and the river offer
superior shipping facilities.

Mr. O'Neil went up to Niagara to
look over the plant there. It is learned
that he has been negotiating for a
suitable location in Albany for the
paper mill, and it is hoped he will be
able to secure what is wanted.

Such an enterprise would be an im-
portant addition to the manufacturing
interests of this portion of the state,
and would mean much for Albany.
O'Neil Bros. have made a success of
the paper mill at Lebanon. They are
enterprising men of means, and are
abundantly able to carry out this en-
larged undertaking. It is to be hoped
their plans will be carried out and the
enterprise started.

Severe Storm.

The Eugene Guard learns that a fatal
catastrophe was the result of the storm
9 miles this side of Head of Tide where
the Indian creek road leaves the main
Siuslaw road. An old house, the
property of Mrs. Funk, stands at the
Junction of the two roads. It was
built partly of lumber and partly of
logs and was insecure from age and
had not been occupied for some time.
William Abbott with his wife and two
children, and his brother, who had
five children, from Indian Creek,
had started out to the valley. They
reached the junction of the roads
when the storm overtook them and
camped for the night. They sought
shelter from the wind and the rain in
the deserted house. The storm in-
creased in violence and raged with re-
lentless destruction through the forest
about the cabin. At 4 o'clock Sunday
morning the building suddenly yield-
ed, gave way to the storm and came
down with a crash. Nearly all the
ten people in the wrecked structure
were pinioned down by the falling
timbers. Mrs. Abbott, wife of Wm.
Abbott, was struck on the head by a
falling beam, which crushed in her
skull. She died in a short time. The
other members of the party succeeded
in intruding themselves from the
ruins, none of them having suffered
serious injury.
