LEBANON, OREGON, NOVEMBER 26, 1896.

NO. 39.

STATE AND COAST.

Clipped from our Exchanges Throughout the West.

A Eugene druggist displays fifteen proprietary medicines of his own make. The Scio Press is very pointed on

the recent appointment of Warm Springs agent. The Salem Y M C A wants to play

a game of indoor baseball with the Albany Y M C A. One thousand feet more of hose will

be added to the reels of the Baker City fire department. A Harrisburg farmer lost seventeen

head of cattle and a number of sheep by the recent flood. Five hundred and fifty head of mutton sheep were brought into The

Dalles last week and sold. J. M. Poorman, of Woodburn, shipped 10 pairs of China pheasants to

Southern California last week. The delinquent tax roll of Yamhill

is the largest delinquent roll for years. Over 6000 bushels of wheat were sold at Junction City to millers for 75

cents per bushel, net, but the millers baye raised the price. Dr. Cormac has examined J. Russell,

who shot and killed his son-lu-law at Randolph, Coos county, and pronounced Russell insane.

Three carloads of cattle were shipped to San Francisco last week by Coleman and Wiley, big shippers in Southern Oregon. Their next shipment will be hogs.

The sturgeon catch near The Dalles is growing better again. Among the lot received for shipment last week was one 300-pound fellow, that undressed would have weighed 150 more. Wakefield & Jacobson, who have been awarded the contract for furnish' ing and placing rocs on the north Jetty on Coos bay, are preparing to begin work immediately; are employing men with that object in view.

The city authorities of The Dalles have on their hands five hobos who absolutely nefuse to work. They have put them on bread and water diet, which, it is expected, will have a bene ficial effect upon their industry.

August Pagenkopf, of Wells, Benton county, who was supposed to be drowned, reached home all right. When he left for home he found that the water was too high for him to reach home in eafety, so he went to a friend's and visited until he could travel more easily.

Ah Swill, the Celestial living across the Calapiooia from Albauy, was surrounded by water during the flood. Warm Spring Johnny took him off in a boat, but he went back to look after his swine, the water rising higher, and he was nearly drowned before gotten off again by Johnny.

Mid McPherson, who resides just north of Springfield, in Lane county, while out shooting Thursday last, winged a large arotic owl. The bird does not seem to be much hurt, and was brought to Eugene by Mr. Me-It is almost white, and is Pherson. very beautiful. The arctic owl is seldom seen this far south.

port or "French Charlie" who lost the gold. While there is little likelihood of the trensure ever being re-stored to its rightful owner, the old settlers are determined to settle for aff time who was the real loser.

We have it on good authority, says the Medford Mail, that a concerted action would be taken by the school superintendents of the state, at the next meeting of the legislature, which convenes next January, to amed the present school laws of Oregon, regarding the issuance of third grade certificates. It is argued, in support of this project, that the plan of issuing certificates to those averaging only seventy per cent, is detrimental to the interests of our schools, as a large proportion of those whose average is only seventy per cent, are unable to re ceive a higher percentage-and that persons whose education is sufficient only to make it possible to secure so small percentage are not really quali-fied to assume the responsibility of training the minds of the pupils entrusted to their charge. The county superintendents have been canvassed

and they are with one or two exceptions in favor of this proposed amendment. The Pioneer Quarry. About 30 men are now employed at Pioneer stone quarry, in Lincoln county. The company is opening up the new ledge on the south side of the

canyon, the steam channeler being moved over to that side last week The old ledge is still being worked by a large force of men. Stone from the south ledge will be quarried soon. The stone on this side lies in four ledges, the first being two feet thick, the second five feet, the third four feet, and the fourth five feet. This company is now working on a San Francisco contract, which will require several months to fill. It is also working upon a small contract of about 2560 cubic feet for a government light house on the Columbia.

The Astoria Railroad.

Reports from Astoria, says the Ore genian, are to the effect that by the end of the year Mr. Hammond will have 1000 men at work on the new railroad. Mr. W. C. Cowgill, eity editor of the Astorian, who was in the city last week, denied the report telegraphed from Astoria to the effect that the newly graded road had been seriously damaged by the storm. "In some places," said Mr. Cowgill, "the bank was washed down, but no more than was to be expected under the circumstances, and nothing of a very serious nature. The contractors are making arrangements to resume work as soon as the weather will permit it, and by the end of the year it is expected that over 1900 men will be at work and kept at work until the road is completed."

A Clubbing Offer.

A great many of our readers in Line county like to take the Weekly Oregon lan. We have made arrangements whereby we can furnish it at a reduction from the regular price to those who want both the Express and th Oregoulan. The regular price of the Oregonian is \$1.50 per year, and of the EXPRESS \$1.50 when in advance. We

Gibson to Illustrate Dickens,

Express.

G. D. Gibson and Edward W. Bok were chatting together in the former's partition; decree of partition granted. studio one day, when the editor of the John T Shea vs August Miller, dissolustudio one day, when the editor of the Ladies' Home Journal said: "Why don't you drop the American

girl, Gibson, and try something entirely new?" "What is there new?" asked Gib-

' Illustrate Dickens," lanconically

nswered the editor. "Illustrate Dickens!" repeated Gib-

on, "Why, man alive-" Just then the artist's mother came into the studio. "Mother," he said, "what have I always told you I would rather do in the way of illustration than anything else?"

"Well, I don't known, Dana, unless it is to illustrate Dickens."

"Exactly, and Bok walks in just now and asks me to do it."

Gibson went to Europe on his wedding trip and remained in London six months. There he worked away at his Dickens sketches. Upon his return a few weeks ago he delivered the first drawings of the series to the Ladies' Home Journal, and the initial one will be printed in the Christmas issue. The finished drawings are said to be remarkable portrayals. The characters chosen are Pickwick; Pecksueff and his two daughters; David confirmed. Copperfield; Dick Swiveller and The Marchioness; Old Scrooge, from "A Christmas Carol;" Caleb Plummer and his blind daughters, and other charac-ters from Dickens. The Journal will present the entire series during 1897.

Certificates Granted,

The recent teachers examination held by County School Superintendent Wheeler resulted in certificates being issued as tollows: Nellie Snoderly, M. M. Dungan, Henry Hayden, Mabel Hayden, Inez Hale, Jefferson; Lester W. Hümphrey, Foster; C. A. Neal, Crawfordsville; Miss Emma Tivey, Lebanon; Tessie Weddle, Sweet Home; Charance Ingram, Sodaville; Grace Michael, Lebanon. Mrs. W. A. Calder, of Brownsville, passed the examination for a state diploma and Luther Wiley, of Lebanon, and Morgiana Dunham, of Albany, for state certificates.

Road Washed Away.

About 160 yards of the county wagon road extending west from the county ferry at Hendricks, ferry on the Me-Kenzle has been washed away by the high water. The entire width of the road in some places has washed away. The county ferry cannot be operated on account of the high water and passengers are taken across the river in small boats. The ferry has been in Clifton, the scene of so much blood-Local passenger trains-daily (except State Printer Leeds is preparing will furnish both for \$2, per year in considered in danger from driftwood shed during the fishermen's strike.

Rough Weather on the Bay.

The mail missed connection Friday evening and Saturday morning on account of the heavy storm then prevailing, which kicked up such an ugly sea in the bay that no ordinary small boat could make the trip either to or from Yaquina. Saturday even-ing showed no indications of any abatement in the fury of the elements and no chance of any mail that night, when Capt. Roberts of the steamer Farallon took the matter in hand, rustled around, raised a sufficient sum of money and got the steamer Robarts. to go and bring the mail down .- Newport News.
