Fatal Accident at Foster.

Word came to this city Wednesday morning that a fatal accident occurred at Foster, about 12 o'clock Tuesday, in which Mr. Al Wodtli lost his life.

It seems that Mr. Wodtli, who has been working in his father's mill at Foster, was out in the timber doing some work, when someone came to the mill to get some grist ground. Mr. Wodtli started to the house after the key to the mill, when he discovered that the house was on fire.

The books belonging to the mill were up stairs, and Mr Wodtli, not heeding the impending danger, rushed up stairs after the books, but he never returned—the flames did their deadly work, and the dead body of the unfortunate man was not recovered until after the flames had subsided.

It was certainly a very sad accident, and the bereaved relatives and friends of the deceased have the sympathy of the entire community.

His sister, who lives in Albany, was telegraphed for and came out on the train Wednesday morning.

Church Notes.

Rev. Lindsey commenced a series of meetings in the Baptist church, on Tuesday evening of last week. Large crowds have been attending each night, and the interest seems to be growing with each meeting.

There were union services in the Methodist church Sunday evening. The church was crowded to its utmost capacity. Rev. Lindsey preached an able and eloquent sermon, and held the close attention of the vast audience for an hour. These meetings will surely be productive of much good.

Rev. McKinley preached interesting sermons in the Presbyterian church Sunday morning and evening. He will also preach next Sunday morning and evening, to which services all are invited to attend.

Rev. I. F. Tobey, superintendent of the Oregon Children's Home society, of Portland, preached in the Methodist church Sunday morning. He also recommended the Home society to the congregation. This is a worthy cause and the people should render it all aid possible.

Christmas in Lebanon.

Christmas will not be very elaborately observed in Lebanon, but the churches will try and make glad the hearts of the children by giving them little Christmas entertainments.

At the Presbyterian church there will be an old-fashioned fireplace, with Santa Claus to come down the chimney. This is exclusively for the children.

The Methodist church will give the Sunday school children an entertainment and supper on Christmas night.

We hope the churches and charitable institutions of our city will see that no one suffers on that day for the necessities of life, and if any are sick and in distress, their sufferings should be alleviated.

Fruit-Growers and Dairymen.

Fruit-growers and dairymen should all examine the Four Weeks' Special Course to be given by the Oregon Agricultural College, beginning January 11, 1897. It is to consist of lectures on the various phases of horticulture, botany, entomology, chemistry, and dairying, especially prepared for practical men in these lines.

The college laboratories, libraries and scientific apparatus, including an electric stereopticon for illustrations, will be used in connection with this course. Insect life, fungus diseases, that can not be seen with the eye, will be magnified two and three thousand times so that their nature and character will be plainly revealed.

Several specialists in horticulture and dairying will deliver evening lectures. Such men as M. O. Lowndale, A. H. Carson, Chas. Dalley, Dr. James Withycombe, and others, will aid the college with lecture work and make the course of great value to the practical people. The course is designed for men and women who can leave their farms and homes, only for a short time and is planned upon a thoroughly practical basis. No charge whatever will be made for the course, and no examination or educational qualifications will be required for entrance.

Farmers, farmers' wives, sons and daughters, ought to take advantage of this course. By this course they can become thoroughly familiar with modern thought, scientific investigation and practical application of the same. There is a complete working dairy at the college in daily operation, and all of those attending will have the advantage of the practical work of the operation of modern dairy machinery, including the running of the engine.

All persons attending the course are requested to bring with them specimens of insect pests or diseases of any kind affecting their orchards, for examination.

The railroads have made a rate of one and a third fare for the round trip. Those attending the course coming on the East Side will buy a ticket to Albany and ask the agent for a receipt for the amount paid for the same. Those coming on the West Side will buy their tickets to Corvallis and get a receipt for the amount paid for them. On returning, this receipt, with the signature of the President of the College, will entitle the holder to return home at one-third the regular rate.

For further particulars, write to the President of the College.

TENNESSEE HAPPENINGS.

Literary society election next Saturday night.

The literary society's entertainment will take place Saturday evening, Jan. 2, '97.

C. D. McKnight has moved to Tennessee, after an absence of over a year. He will be a great help to the neighborhood. He was nominated for president of the literary society the very evening of his arrival.

Last Saturday evening the literary society's meeting was devoted to campaign speaking, which shows that Tennessee, if needed, could come to the rescue of some great party. Next Saturday will be election, which will be held in the regular form of a political election, using the Australian ballot.

FAREWELL.—The editor of the EXPRESS has forbidden further warfare between Stayer and myself; Stayer has surrendered, and as "a brave man never strikes a fallen foe," I will make but a closing salute to all parties concerned. Stayer has stood the test well. I admire his stamina and grit, although it availeth nothing. As all know, I am not far advanced in years, and Stayer knowing this fact, supposed he would have an easy prey of me, but probably he has an idea of my staying qualities by this time. My dear readers, I hope you will re-consider all letters written by Stayer and myself, and judge therefrom. Following the advice of the editor, this will be the last word mentioned by me in this paper of Mr. Stayer.

Fall Season, 1896.

Some people wonder how we can sell such good merchandise for such little prices. Others wonder why we do so. The how and the why matter little, so the fact remains. We'll say this, however, this business has grown to its present proportions by doing just one thing,—selling good articles at low prices. We are still doing this. If you are not now our customer come and see us and be convinced.
