Won't Raise the Assessment. In the matter of the raise of the assessed values of property of Linn county as returned by the state board of equalization for the year of 1896:

The order having been presented to the county court, by the secretary of state, as authorized by the state board of equalization, raising the assessed valuation of all city and town lots 10 per cent, merchandise and accounts 10 per cent, and cattle 25 per cent, from the assessed values as enumerated on the assessment roll for 1896, as lawfully made and returned by the county assessor, and it appearing that this arbitrary and unjust raise of assessed values is not warranted by fact, justice, equity or law, and it further being shown conclusively to the court that the property affected by said order is assessed by the county assessor as by law required at their cash value, also realizing that it is the exception to find a net productive piece of property among the enumerated city and town lots on the basis of present assessment, also having evidence that the cattle of Linn county are assessed at fully their cash value of today, and farther believing that the legally elected and qualified assessor of Linn county is a man more competent to judge of the true cash value of the property he views and assesses, than the state board of assessors, many of whom never set foot in Linn county, and also realizing that a compliance with this unwarranted and illegal order from the state board of equalization, would cause additional work on the assessment roll to the cost of \$500, all of which would be wrung from the already heavily taxed property owners of Linn county. It is therefore ordered that the county clerk of Linn county, Oregon, be, and he is hereby directed to make no changes in the values of the property enumerated in the assessment roll of Linn county for the year of 1896, as was equalized by the county board of equalization and the county court.
