STATE AND COAST.

Clipped from our Exchanges Throughout the West.

The Coquille creamery last year paid out to patrons \$14,335.99.

Fifty ears for the Beaver Hill mine were recently built at Marshfield.

Edward Davis, an Oakland, Calif., clergyman, says christians can dance and play bean poker without harm.

C. S. Clark has sold the North Yamhill Record to two young men of North Yamhill, named Estes and Fryer.

In Lewis county, Wash., contracts have been made for fully \$30,000 worth of logs, and new logging camps are being started up.

About a dozen hop contracts for the crop of 1897 were filed for record in Yamhill county last week. The average price to be paid is 8 cents.

J. H. Jackson is the owner of the only herd of Peking Chincos hogs in the state, and proposes to exterminate the breed, says The Dalles Times-Mountaineer. He bought them of James Fulton last week, and intends killing them as soon as they are fattened.

Within the last week a strange epidemic is said to have struck the horses near Spokane, and it is difficult to find out what remedy is required to perfect a cure. It may become wide spread and cause great financial loss and inconvenience to the farmers.

A fire originating from a coal oil stove came near destroying the office of D. S. K. Buick, in Roseburg, last week. The flames were partially smothered with the matting on the floor, and the stove was pitched outside so promptly that the damage was not great.

The old Lane blacksand mine, at Randolph in Coos county, will soon be in active operation again, says the Coos Bay News. Twenty years ago the Lane mine employed a number of miners at good wages, and Randolph, which has since become a deserted village, was then a lively little town.

Coal mining is promising to become an important industry in Arizona. In the northern part of the territory extensive bodies of bituminous coal are encountered north and east of the Painted Desert region. This coal crops out in many places and at one point has a thickness of twenty-three feet.

The following notice, with 14 signatures to it, appeared in a Roseburg paper: "We, the undersigned legal voters of the county, do hereby give notice to all owners of dogs used for running deer in and about the district known as Scott's valley, that we will from now on shoot all dogs which we may discover running deer in or about the said Scott's valley."

The Corvallis Times says that Dead river is the name of a sluggish stream that cuts across from one part of the Willamette river to another, among the islands near Bonneville, and in the years gone by there was a rapid current from west to east. Of late the water became sluggish in its movement, and a year ago ceased to move at all. This winter it runs quite rapidly from east to west.

During the year of 1896, the firm of Jewell & Dodge, of Grant's Pass, alone shipped \$63,875.75 in gold dust to the mint. There are several firms in that city that ship gold dust, and the bank also buys a large quantity of it for shipment. The largest lots, however, that are taken out of the big mines are sent direct to the mint. The aggregate for Josephine county will easily reach \$500,000, and will be larger in 1897.

A French soldier, in uniform, attracted much attention to himself in Grants Pass last week. He deserted at Madagascar on a ship bound for Australia, and two British officers paid his way to San Francisco, whence he tried the American plan of beating his way on trains to The Dalles, where he has a friend, says the Grants Pass Courier. He could not talk English, and would have been in a bad way, had he found no other Frenchmen in Grants Pass.
