**MONEY WITHIN YOUR GRASP.**  
The world is prone to look afar off for chances to make money; people are apt to hunt for perfection in those outside their home; while if they would only focus their eyes to look near they would find the "end of the rainbow" was right at hand.  
Here in Ione lies, right at hand, a chance to make much money in a healthy, honorable way and instead of it being used, it is being abused. We speak of the wide sweeping, rolling wheat land that is stretched as far as the eye can reach on what is known as the "North Side" and which has, in the near past, given much money to those who were willing to "labor and wait", and in that rich land is the God given power to yield you much money if you will give it the care it should have.  
Because a few years of short rain fall, (that shortage being all over the country as well) caused poor crops over there, and because some of those people had made a fair heritage and departed for the cities "hunting pleasure", the people of Ione have come to believe wheat cannot be raised in quantity on the "North Side".  
Just now is pending a sale which will mean the coming in of many Hungarians who will show you what steady industry will do. They will take over the Woolery holdings on the North Side and industriously dig out the weeds, that neglect has caused to grow there, and after a few years of hard work and privation you will see them a prosperous people. If you don't believe this, sight in your mind such people as Geo. Currin, Mrs. Josephine Currin, the Mc Murrays, Paul Rietman, Wilcox, Buschke, Glock, and so many more that it takes too much space to name them, and remember the enormous loads of wheat they have hauled and marketed in Ione from there.

A trip to that side at present finds some still there at work and they seem happy and contented, even in this year of small rainfall. The Troodsons, Swansons, Phillips Turner, Stender, Misner and others seem prosperous; take trips about the country and have all to make them happy at home; and over on that beautiful farm known as the Wilcox place we find some new settlers in the persons of C. Jamison and wife. This year they have four hundred and fifty acres in wheat and will have in six hundred acres next year. They have about two hundred white Leghorn chickens which give eggs enough to buy all their table supplies and no one in Morrow county has a better table nor is there a finer cook in the land than Mrs. Jamison.  
They have sleek horses, a good home with all conveniences and outside that well cared for house, will be found not one gate nor fence, nor out building but it is in order. The summer fallow is free from weeds and plowed deep and the general air of good farming is a treat to see. Such farming is what the North side needs and never yet has it failed to give the best results when it has such farming.

who can get together a team should buy, rent or arrange to farm on share, a part of this North side and only contract to take over what he can do, properly and next year take the same amount again.  
In two years from now it would mean a prosperity to our people that would surpass anything ever heard of in Oregon.  
So instead of looking to Alaska for gold; to the cities for work; to the end of the rainbow for a pocket of wealth, look over on the North side with seeing and not dead eyes and your future will mean prosperity past, your rosiest dreams, and if you don't do this, in just a very short time you will not have the opportunity to do so for progressive men will come in and take the chance and you will get left.

**LIVESTOCK SALE TO BE HELD DURING THE DISTRICT FAIR.**  
If preliminary plans agreed today are carried out livestock auctions will be held during every day of the coming district fair. The sales will be very similar to those held a year ago.  
At the instance of F. G. Lucas of Weston, the fair commissioners

have been considering the proposition of holding livestock sales during the fair and this morning President Roosevelt stated that in all probability such sales will be held. At this time the hours for the sales have not been agreed upon, though they will probably be held during the forenoon. It is the intention to have the sales conducted under such auspices that they will be mutually beneficial to both buyers and sellers of stock. The sales will be advertised by the fair board and but a nominal commission charged by the auctioneer, so that the expense will be heavy upon those disposing of stock.  
It is believed that the stock sales will lend additional interest to the livestock feature of the fair and also induce exhibitors to bring stock to the fair. Those having on exhibit may offer the same for sale if they choose, though the sale will not be confined to the exhibit stock. -East Oregonian.
