It is raining all the time and the ladies are kicking because their laundry won't dry but the men are so happy because of the rain that they say that they would willingly do without clean linen if it will go on.

It is worth a thousand dollars a year to have the habit of looking on the bright side of things.

To make home happy is an art - an art a good many people have either lost or never found.

This ideal fall means much wheat next year, fat cattle and a prosperity that the world will stop and notice, for the people of Morrow County.

Halley's comet will sweep the earth with the gases that follow its tail on the 18th day of the coming May. Now look out for the prophets of evil to predict the end of the world.

There never was a woman but was just aching to tell some other woman how to do up her hair.

THE PROCLAIMER is in receipt of complimentary ticket to the National Apple show at Spokane on November 15 to 20 and we much regret that we cannot go. This Apple Show is growing to be one of the most effectual and interesting of the various exhibits now in the west.

The South is much insulted because J D Rockefeller is offering them \$1,000,000 to use in killing off the Hookworm. The people of Morrow County are not so sensitive and if he wishes to spend a few thousand killing off our pest, the weeds, we will welcome him with open arms.

Over in Spokane they are having a great time with the I. W. W. people and the jails are taxed to their utmost. While these poor creatures are plainly wrong to try to upset and break laws that have been made by the whole people, still we would think that a gentler way of handling these unfortunately constituted men, by the authorities, could be found.

Very Likely.

"You're a queer looking thing to want to fight with me," said the young bulldog contemptuously. "You're not in my class."
"Perhaps not," replied the pussycat quietly, "but I think I can give you a few points." - Philadelphia Press.

Making Things Even.

Customer (to watchmaker) - I told you that my watch lost half an hour every day, and now that you've repaired it it gains half an hour. Watchmaker - Well, don't complain. It's only working to catch up lost time.

Judicious Charity.

"I don't believe he is so unkind as they say. I hear he invites his poor relations to visit him each year."
"Yes. They all live at a comfortable distance and are too poor to complain."

A GOOD POSITION

can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country, there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance for advancement.

The National Telegraph Institute of Portland, Oregon, operates six official institutes in America, under supervision of R. R. and Wireless officials and places all graduates in top positions. It will pay you to write them for full details.
