When you hear a man sneering at the local papers you can safely bet he don't spend his time making them better. They who don't see a benefit arising to a town from its newspapers haven't as much sense as a cove oyster, and are of about as much value to a town as a ten-year-old delinquent.

Will buy chickens, turkeys, ducks and geese, to be delivered to me from the 18th to 23rd of November. Will pay the highest market price for such fowls.

If you are a kicker and see the shadows of failure in everything that is proposed to help the town for heaven's sake go into some secluded canyon and kick your own shadow on the clay bank, and give the men who are working to build up the town a chance. One long-faced, hollow-eyed, whining, capping, chronic kicker can do more to keep away business and capital from a town than all the drouths, short crops, cinch bugs, cyclones and blizzards combined.

The Congregational Parsonage is being painted, the roof being all finished.

IN THE WEED.

Have the experience of some of the weed, other than the grubbing or pulling it up, and news comes from North Dakota that the fight has been won—at least over the wild mustard the Canada thistle, the dandelion and many other similar pet abominations of people who till the ground for a living.

Spraying the territory affected with a solution of iron sulphate when the weeds are young does the work. The chemical, which is corrosive, attacks the tender tissue of the rapidly growing weeds and destroys them while there is little or no injury to the grain, particularly if it is a winter grain or was sown early in the spring and has gained considerable growth before the spraying.—American Farmer.

Great Scheme. Mrs. Simpson in her "Many Memories of Many People" says of Archbishop Whately: "He was utterly regardless of appearance. If he came to us without a servant and perceived a hole in his black stocking he would put a piece of sticking plaster on the corresponding part of his leg to conceal the defect."
