The rains still continue and the farmers say the ground is in the best condition for a winter crop that it has been for several years.

Wheat buyers say that Morrow county wheat makes the best flour any wheat raised in the state.

Wheat struck the market here at Ione this week. Mr. P. Christenson sold blue stem, the entire crop at that price.

There were several sales of wheat last Saturday at Ione, the price is pretty much making up for the short crop.

THE KNELL OF THE WEED.

Long and earnestly have the experts of the Department of Agriculture been striving to find some means of eradicating the weed, other than by grubbing or pulling it up, and news comes from North Dakota that the fight has been won—at least over the wild mustard, Canada thistle, the dandelion and many other similar pest abominations of people who till the ground for a living.

Spraying the territory affected with a solution of iron sulphate when the weeds are young does the work. The chemical, which is corrosive, attacks the tender tissue of the rapidly growing weeds and destroys them while there is little or no injury to the grain, particularly if it is a winter grain or was sown early in the spring and has gained considerable growth before the spraying—American Farmer.

Very Likely.

"You're a queer looking thing to want to fight with me," said the young bulldog contemptuously. "You're not in my class."

"Perhaps not," replied the pussycat quietly, "but I think I can give you a few points."—Philadelphia Press.

Making Things Even.

Customer (to watchmaker) — I told you that my watch lost half an hour every day, and now that you've repaired it it gains half an hour. Watchmaker — Well, don't complain. It's only working to catch up lost time.

Judicious Charity.

"I don't believe he is so miserly as they say. I hear he invites his poor relations to visit him each year."

"Yes. They all live at a considerable distance and are too poor to come."

A GOOD POSITION
can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country, there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chances for advancement.

The National Telegraph Institute of Portland, Oregon, operates six official institutes in America, under supervision of R. R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details.
