Yeomen Lodge Starts Initiates Forty-four

William Burger Organizes Boy Band For The Season Members Practice In The City Council Chambers

ROAD MEETING NEXT FRIDAY

The Yeomen Lodge was duly organized Tuesday evening at the Odd Fellows Hall by R. N. Moffat District Deputy. About sixty were present including a small delegation from the Lexington Lodge, for the purpose of riding the Yoemen Goat. They were not disappointed in the expectation of seeing the goat buck. The goat made its appearance at 8 o'clock and in a short time visiting members and candidates were enjoying his gambols to their hearts content. A very fine musical program was enjoyed by all. The Ione Quartette and the Mondoin Club were features. One of the Lexington members came prepared with a canned speech that was well received. The banquet was disposed of in a hurry for the crowd was hungry after a severe evening riding the Yoemen goat that had been in training for several weeks. The goat of the evening was George and everyone voted to let "George do it." He did. 44 members joined the charter roll. The officers elected are as follows: L. A. Doak, Foreman; Mrs. T. B. Buffington, Lady Rebecca; Mrs. L. A. Doak, Lady Rowena; Miss Agnes Pennington Correspondent; Mrs. Clifford E. Perry, Master of Ceremonies; F. Wallace Sears, Overseer; W. K. Davis, Senior Past Foreman; T. B. Buffington, Captain of Team; Watchman; A. M. Moore, Sentinel and Harry Johns, Guard.

Boys Band

Wm. Burger who organized the boys band last fall is again instructing the boys after a rest during the school vacation. The writer interviewed Mr. Burger recently and the band had twelve members with a prospect of several new members. The boys do very well while practicing as a body, but there is not the time and interest given by the boys during their home practice. The writer feels that a word from this paper which will reach the parents and citizens of the community with respect to encouraging an organization of this nature would not be out of place and would say that an organization of this kind is a step higher for our community and it would appear only fair to Mr. Burger that the boys be provided with the necessary instruments and the parents take an interest to the extent of requiring their boy or boys to devote so much time each day to practice. It might sound from this writing as though Mr. Burger were discouraged with the support given him but such is not true as the writer has taken this means of arousing more and greater interest in our boy's band. Let everyone help this organization. We have the material and the talent. The following is a list of the present members of the band and their instruments.

Rabbit Drive, Success 300 People Attend

Sudan Grass Shows Up Fine On Dry Hillside Land A. B. Stait Heading, Expects To Thresh At Once.

FOOTBALL HERE SATURDAY

The rabbit drive last Sunday at the Emil Swarffson ranch was well attended by people all over the county, about three hundred were present. The rabbits were very numerous and various estimates were made as to the number, some placed it at one thousand. About five hundred were killed and more would have been disposed of if the corral had been built on a larger plan. The rabbits were everywhere, and those present voted it the best time they have had for years. Everyone had a club and the many little incidents that happened during the drive, if written were enough to fill a good sized book. There will be another drive a little later. Nearly every auto in Ione was out to the drive and many made several trips loaded full.

Last Thursday Mr. and Mrs. Jos. Knappenberg, accompanied by Rev. J. L. Jones and the Journal editor made a pleasant auto trip to the St. Clair ranch to take in a few views of the wonderful showing made by A. B. Strait in his experiments in growing Sudan Grass on dry land. A careful examination of the ground showed exactly the same condition there as on hundreds of other dry farms in Morrow County, worse if anything. The seed was planted on June 21st in what could be called dry dust, last Thursday the plants as viewed by the party measured over five feet tall and were a bright green with shoots coming up all over the field. The growth was wonderful and when it is known how little care this field received during the growing period it will not be surprising if there is not thousands of acres planted to this wonderful grain. Mr. Strait was assisted by his brother who is helping him harvest the seed. The field was somewhat damaged by the rabbits and the grasshoppers, but what was left surely shows that Sudan Grass is one of the most wonderful dry land crops to be found. Every person present could see that the ground was nearly in the same condition as the day it was first planted to the seed. The patch was about 12 acres in extent and is about ready for harvesting. Besides this he has 4 acres of sorghum in fine shape and 4 acres of Fettireta and also a large patch of Egyptian corn all of these crops have done well and show that this dry land farming can be improved by addition of these products to the regular crops. If you want to be convinced call at the St. Clair ranch and see for yourself. The grass is a wonder and should receive the attention of every farmer in this district. Samples of the product are on exhibition at the office of Jos. Knappenberg on Main Street. Sudan seed can be had from A. B. Strait.
