

CURIOSITY

DOES LOTS OF THINGS

Some people do not believe I can quote prices on large orders or small, but use your curiosity and see.

The Egg City Cash Store

Joe Mason, Prop.

Ione, Oregon

"You've GOT To Earn MORE"

It isn't a question alone of whether you want a better salary—it's a hard condition of life that you must face to protect yourself and those dependent upon you.

You can't stand still—if you don't want to go backward, you must go forward—that is, you've got to earn more.

Earning more means holding a better position—indeed, happiness, and a chance to provide for the future.

Thousands upon thousands who once held low, poorly paid positions now earn high salaries as a result of letting the INTERNATIONAL CORRESPONDENCE SCHOOLS show them how to accomplish the change. During last year about 4,000 students voluntarily reported increases in salary amounting to over two million dollars! Every month an average of 300 men voluntarily report to us advancement in position and earnings. Why not make YOUR start this month?

HOW TO DO IT

Simply mark on the coupon the position you wish to secure, then tear out and mail the coupon to the International Correspondence Schools. This puts you under no obligation whatever but allows our experts to adapt a course to your individual needs and circumstances.

You've got to earn more money. The I. C. S. will help you. Will you take the start today?

International Correspondence Schools

Box 508, Scranton, Pa.

Please explain, without further obligation on my part, how I can qualify for the position, trade, or profession below which I have marked X.

Sheriff Makes Raid On Chehalis Raffle Boards

Chehalis, Wash.,—Sheriff Tom Foster recently confiscated all the raffle-boards and other devices of that nature in the confectionery and other stores in Chehalis. The sheriff gave notice several weeks ago that the boards would have to be discontinued, and many of the dealers disposed of them at that time.

FIRST PERFECT BALL GAME ON RECORD.

The greatest possible feat in baseball pitching—a perfect game—was accomplished in Cincinnati by Bob Long, famed pitcher of the old California State League. Bob now is out of the big show, but has been coming back once a year to twirl the yearly game for Mitchell's former leaguers against Mulaney's Mayos. Old Bob demonstrated that he still has the cunning and the stuff to put on the ball, for not a hit was registered against him, not a base on balls did he give, he hit no batter, he had no errors behind him, just twenty-seven men faced him in nine innings, and each one was a strikeout victim. It was a perfect game, the only one on record. It is possible, but highly improbable, to equal the feat, but utterly impossible to beat it. Long's pitching was the personification of air tight hurling. More remarkable was Long's great achievement because he faced grained veterans of many a stirring big league campaign, men who have faced the speed of Rube and the curves of Breitenstein.

According to the scientists, brain work is more exhausting than physical labor. Perhaps this explains why some men never seem tired.

Yearly subscriptions for the Journal are \$1.50. How about it?

Must Pay \$50 As A Prize Won In Paper Contest

Centralia, Wash.,—A judgement of \$50 was rendered recently against a Winlock paper man in favor of A. E. Heaton, of Chehalis, assignee of Mrs. Catherine Brainard of Cottage Grove, Or. Quillen formerly ran a newspaper at Cottage Grove and Mrs. Brainard won a trip to the Panama-Pacific exposition in a contest staged by Quillen's paper. She never received the trip.

Odd Bits Of News

Morgantown, W. Va.,—Twenty years ago Lewis M. Runner left home for Washington to patent a device. He had never been heard from since until recently when he returned home. His wife who had always said he would come back, welcomed him with open arms.

Cottage Grove, Ore.,—Bert B. Nokes set a hen and then decided to move to Spokane, 600 miles distant. He shipped biddy, her nest and all, by express, and 12 of the 14 eggs hatched.

Rulo, Neb.,—Years ago Arthur Lytle, a fisherman, located his hut on a small sand bar lying near the Missouri shore. Dirt washed onto the bar, and now it is the size of two sections. Lytle turned farmer and has made a small fortune. Neither Missouri nor Nebraska demand taxes of him, but he cannot vote as his holdings are regarded as under the jurisdiction of the national government. He has resided on the land 22 years.

Wichita, Kas.,—Whenever Mrs. Louis E. Fisher tries to telephone, her right arm becomes numb and she becomes unconscious. Her affliction is a case of nerves. Several years ago she received a shock while telephoning.

Biddeford, Me.,—James Sargent has the original human calf. It has human skin, covered with human hair. A luxuriant beard hangs from its chin. When it attempts to bellow, it emits sounds resembling a child crying. Otherwise it is a normal calf.

New Manchester, Ind.,—For 90 days a hog belonging to C. O. Hudgleson lived off the fat of its own body. The hog got into a huge stack of straw and couldn't get out. It weighed 250 pounds, but when found had shrunk to less than 100 and was still alive.

Springfield, Ill.,—Mrs. Isabelle Arnold who weighed 400 pounds died recently. It was necessary to hold the funeral on the porch as the coffin was too large to pass thru the doorway. Ten pallbearers were required.

A GREAT MOVEMENT.

A great movement for city planning has spread over the country within the past few years. The same business forethought is being applied to the community that the successful business man is applying to his own private affairs. Communities are profiting by the mistakes of the past and planning to avoid them in the future by arranging for an orderly growth.

The various phases of the development of a community can be grouped under four heads—Industry, city planning, administration and social welfare. It is obvious that the first work of the chamber of commerce is along industrial and commercial lines. After the industrial work it will be seen that city planning is the next most important work for the commercial organization to take up, because city planning, in its right interpretation, is the making of the city as a whole a better place in which to work and live. One of its functions is to provide attractions for industry, business and labor so that the community will have a prosperous and satisfactory growth.

A new world's altitude aviation record is 26,540 feet. But man still climbs higher than he flies.
