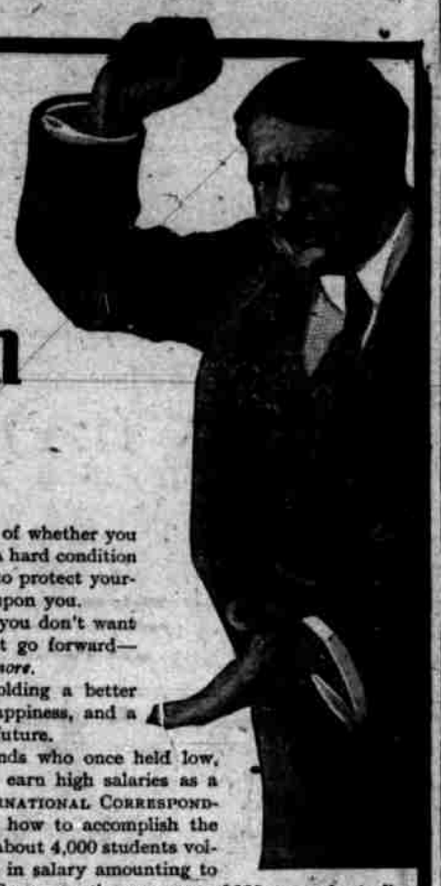
CURIOSITY
DOES LOTS OF THINGS

Some people do not believe I can quote prices on large orders or small, but use your curiosity and see.

The Egg City Cash Store

Joe Mason, Prop. Ione, Oregon

"You've GOT To Earn MORE"



It isn't a question alone of whether you want a better salary—it's a hard condition of life that you must face to protect yourself and those dependent upon you.

You can't stand still—if you don't want to go backward, you must go forward—that is, *you've got to earn more.*

Earning more means holding a better position—independence, happiness, and a chance to provide for the future.

Thousands upon thousands who once held low, poorly paid positions now earn high salaries as a result of letting the INTERNATIONAL CORRESPONDENCE SCHOOLS show them how to accomplish the change. During last year about 4,000 students voluntarily reported increases in salary amounting to over two million dollars! Every month an average of 300 men voluntarily report to us advancement in position and earnings. Why not make YOUR start this month?

HOW TO DO IT

Simply mark on the coupon the position you wish to secure, then tear out and mail the coupon to the International Correspondence Schools. This puts you under no obligation whatever but allows our experts to adapt a Course to your individual needs and circumstances.

You've got to earn more money.
The I. C. S. will help you.
Will you take the start today?

International Correspondence Schools
Box 888, Scranton, Pa.

Please explain, without further obligation on my part, how I can qualify for the position, trade, or profession before which I have marked X.

Leghorn Hats.

Leghorn hats are being made up with yellow dahlias and lacquered black ribbon. Some of the Italian straw pictures are worn over one ear and trimmed with mingle pink roses and blue ribbons in the style of Louis XV.

POULTRY PICKINGS.

If birds show signs of scaly legs during the hot weather either rub the shank with carbolized vaseline and sulphur or dip the leg to the knee in crude petroleum.

Go over the roosts occasionally during the summer with crude oil to kill any germs that may be present.

The presence of gapes in chicks indicates foul ground, and the broods should be moved at once to fresh ground.

Remember that the natural feed of fowl is largely grass and give the growing chicks especially all the grass pasture you can, and if that fails feed fresh lawn clippings, lettuce or rape.

Add a little sulphate of iron solution to the fowls' drinking water twice a week.

Keep the water pans clean by washing once a day with creolin solution to prevent the growth of spores and fill often with fresh water.

Money in a Melting Mood.

The Spanish owner of a Mexican ranch in the days of President Diaz conducted a soap factory, this being common among the big ranchers, who in this way use the waste product of the cattle and sheep business. He ran a general store and paid his men in soap, which could be turned in at the store for the necessaries of life. The soap was soft, and it melted or wasted away so that its purchasing price was much decreased when it was weighed in at the store against other commodities. The ignorant peons had heard vaguely of Diaz, and eventually they mounted their horses and rode 500 miles to the City of Mexico. A house servant would have turned them away. It is related, save that the president happened to see them through a window. He ordered them admitted and heard the story in great wrath. His verdict against the oppressor was that all back wages, irrespective of the soap currency, should be paid them and other reforms instituted on penalty of confiscation of the ranch.—New York Times.

A Russian prince, Alexandrovitch Abachidze, has been arrested in a Paris bomb plot. Why should he use a bomb? Why not hurl his name at somebody and let it explode?

CLEANUP DECALOGUE.

[Issued by Hoboken board of trade.]

First.—Remember thy garbage can to keep it covered.

Second.—Thou shalt cut the weeds in thy vacant lot lest it becomes a hiding place for old tin cans.

Third.—Thou shalt bear witness against thy neighbor's rubbish heap.

Fourth.—Thou shalt clean out the habitation of thy horse.

Fifth.—Thou shalt prevent the breeding of the fly, that thy children unto the third and fourth generation need not swat him.

Sixth.—Remember thy back yard and alley to keep them clean. Six days shalt thou labor. If yet the task is not accomplished thou couldst do worse than continue on the seventh.

Seventh.—Thou shalt covet the air and sunshine.

Eighth.—Look not upon the milk when it cometh from the unclean dairy.

Ninth.—Remember thy cleaning up day and keep it holy.

Tenth.—If thou hearkeneth unto these sayings to do them thou shalt live long in the land and the "cleanup" spirit shall last 365 days in the year.

Farm Briefs.

The farmer who has planted tested seed is likely to be the man of whom his neighbors will say next fall: "He's always a lucky fellow. Look at the crop he's got."

One of the advantages of swine husbandry is that it gives quick and remunerative returns.

Raising live stock is one of the most farreaching means of economy on the farm.

Intelligent specialization pays in farming as it pays in any other line of work.

Sob Stuff.

Society Daddy—My son, it is the dearest wish of my heart to see you divorced and settled down before I die.

Society Son—But, dad, I could hardly do that on my income, with alimony as high as it is now.—Puck.

Yearly subscriptions for the Journal are $1.50. How about it?

NEW POSTER IS OUT

1916 Rose Festival Design Advertises Scenery of Famous Columbia River

Portland's 1916 Rose Festival poster is the first publicity, national in scope, to go forth advertising the beauties of the Columbia river. The festival will be held June 7, 8 and 9. Opening day will witness the national dedication of the Columbia river highway. The poster carries the slogan "For You a Rose in Portland Grows." The poster was donated by Fred G. Cooper, former Oregon boy, now famous as an artist. The design will soon hang in transportation offices all over the United States.

FOR YOUNG FOLKS

Baby Girl Who Is Being Taught Not to Be Afraid.

COURAGE A FINE QUALITY.

Olive Whitman, Daughter of a Noted Lawyer, Schools Her in Fearlessness. Hardworking Animals—Many Things to Interest Children.

Not long ago Mrs. Charles S. Whitman, wife of the district attorney of New York city, flew a thousand feet above the Hudson river in a flying boat. These boats can go on water or in the air, as the driver wishes. When Mrs. Whitman entered the machine she put on a life preserver, because one never knows whether there may be an accident or not. At any rate, she sat beside the driver, and after skimming along the Hudson river for a short distance the machine flew into the air at a speed of seventy miles an hour. After reaching a height of a thousand feet

Photo by American Press Association.
OLIVE WHITMAN.

the driver brought his machine back to the surface of the water. Volplaning is the term used by aeronauts.

When, Mrs. Whitman alighted from the machine she said she had experienced no fear. "I used to be afraid of the water," she said, "but I overcame that fear. I dislike to have fear of any kind, and I am teaching my little girl not to have a fear too."

Mrs. Whitman is a prominent charity worker in New York city, where she was born. Before she was married she was Miss Olive Hitchcock. Her only daughter's name is also Olive and when the little girl grows up, if she responds to her mother's teaching, she will be brave like her mother. It is a good thing for children to cultivate courage and to be fearful only of doing wrong.

ABORTION IN CATTLE.

Sulphur and Saltpeter Mixture Recommended as a Cure.

In circular No. 16 on the "Care and Management of the Dairy Herd," by Professor H. H. Kildee of the Iowa Agricultural college, occurs quite a lengthy treatise on abortion in which we find the following recommendation of a mixture for the herd. It says:

"A mixture made up as follows is highly recommended by a number of leading dairy farmers: Ten pounds of sulphur, six pounds of copperas, three pounds of saltpeter, three pounds of air slaked lime and one pound of asafetida."

One pound of the above mixture is mixed with each ten pounds of salt and placed where the animals can eat what they desire. The herd on the college farm was handled in the manner outlined above upon the outbreak of contagious abortion a few years ago, and the trouble soon ceased.

Dust Recovery at Cement Mills.

Recovery of dust from the waste kiln gases of a cement manufacturing plant in California is accomplished by a system of gravity separation and washing, says the Engineering Record. The dust collecting system is the outcome of a lawsuit brought against the cement company by orange growers, who contended that their fruit was being spoiled by the dust from the plant. The total amount of dust recovered per day is seventy-five tons.

Where Truth deigns to come her sister, Liberty, will not be far.—Akenside
