MAN WHO ARRIVES

The man who arrives in the
morning who has with him a
video and better into the future
to make his work white. In
business he is not satisfied to do
the work that is before him. He
will do the work of the other
man. He can do two men's work
as well as one—the kind of man
who goes to school at night
to better his position. He is the
kind of man you cannot down,
the kind of man that you see, for if
there ever was a man to arrive
it was certainly Fred. J. D.
Buckholder, Jr.

Any Time's Lucky
For Home Builders

who sidetrack procrastination for action and decide definitely on their building
plans. The kind of lumber you would be satisfied with is as cheap now as you
will ever see it and, at the prices we are quoting on the quality you would ex-
pect, we say, with all emphasis, BUILD NOW. With our knowledge of the dif-
ferent woods and their application to home building we can doubtless show
you how you can attain your ideal home at a much less cost than you think.
Price per thousand for lumber is very misleading to the inexperienced, but
when a plan is figured judiciously and the right lumber specified in the right
place the total cost is often a pleasant revelation. Our business requires this
knowledge and we are sure we can satisfy you in price, quality and service.
Let's talk it over. We have everything from joist to shingles.
