

REV. FERRIS BEGINS PASTORATE

Rev. Ferris preached his first sermons as regular pastor of the Federated Church last Sunday morning and evening. He was greeted by good sized congregations at each service. At the morning service three new members were taken into the Church.

Rev. Ferris comes to the Federated Church very highly recommended. An Easterner by birth and training, he was ministerially educated in the "Southern Baptist Theological Seminary" of Louisville, Ky., during the palmist days of the distinguished and lamented Dr. John A. Broadus. Rev. Ferris has held several prominent pastorates in Ohio and Michigan and made for himself an enviable reputation as pastor and preacher. Besides

serving well his own denomination, he has enjoyed a most extensive and profitable interdenominational relation.

His sermon Sunday morning, entitled, "A Great Work," was especially interesting. He explained that he expected to do the greatest work of his career in Heppner, inasmuch as he expected to help the members of his congregation do the greatest work of their lives. Rev. Ferris preaches a very practical sermon and his delivery is excellent.

At the morning service a feature much enjoyed by the congregation was a vocal duet by Miss Long and Mr. Brunton.

COUNTY FAIR BOARD HOLDS MEETING

The Morrow County Fair Board met yesterday and transacted several important business items.

The first step was to re-elect the officers to the same capacities they filled so satisfactorily last year.

The copy for the premium list was completed and is now ready for the printer.

It was decided to use the grounds just below Healy's Stables as a place to hold the fair in the future. They have been offered very satisfactory terms on a lease agreement but prefer to buy the grounds outright. Whichever way the matter is settled, these grounds will be used in the future for the fair.

It is the plan of the directors to erect a large dancing pavilion on the grounds as soon as possible. They figure on a building 60 x 120, with a hanging platform for the orchestra. If erected this summer they intend renting it as often as possible.

A certain party who blew into town a few days ago and got a little too frisky in a local restaurant is now stopping at Hotel McCraw. The said party tanked up a little too-heavy and not being suited by the food dished up to him in the said restaurant, he proceeded to throw a cup of coffee in the waitress' face and followed this rash act with a few lines of bad talk that landed him before Recorder Williams. The judge fined him \$20 and not having the said twenty he is laying out the fine at the city bastille at the rate of \$2 a day.

Municipal Paper Works of Denver.
Employment has been given to a great many transient men and some women in the new industry of baling the waste paper of the city, three carloads of which have been recently sold at a fair price. Paper is collected from the large stores and from receiving cans on the street corners, is sorted, baled and shipped to market at about the rate of a carload a month. While not a big financial benefit to the city, this method of handling the paper serves the double purpose of getting rid of the waste paper without cost and at the same time furnishing work to jobless men. The revenue from this paper industry now supports the families of the men employed at it and in addition adds a little to the general funds of the department.

HIGH SCHOOL NOTES.
A strenuous week has just passed in which the Faculty evened up all old scores against the students. Quiz week, the terror of the under-classes. We are glad to say that no

The Tennis Club has been completed and the members are out on the court during their spare moments. Many sets have been played between the school rivals, but as the players lack experience no fancy games have yet been played. We believe by the end of school the girls will be able to claim the championship of the city.

On account of the importance of covering all the Physics work, the Senior English class will finish their English work this week in order to give the Physics class the extra period. As most of the Seniors are in this class it is impossible to take another year for it, but by taking this extra period the work will be well covered.

Class Poet Young has composed the following poem in appreciation of Emerson. Dr. Young has an unlimited ability in poetry and as a classic student is unsurpassed. The following is the learned Doctor's production.

Ode To Emerson.
Speak kind words to all about you,
Remove the frown from off your face;
Be thyself in all thy glory,
And a heaven will be this place.
Imitate and be a murderer;
What are you in this wide world?
Fake the mask from off your person,
And let the treasures be unfurled.
May the first was supposed to be
"old clothes day" but only a few of
the underclassmen came prepared,
but they wore rags enough for all.

The Seniors are one more step on their road to graduation. Supt. Hoffman has ordered the diplomas. All the records and bibles were searched for middle names and when found surprised everyone, even the owners.
Nathan, Kathryn, Agnes, Rauch, Franklin, were pretty bum, but think of Edmond.

Last Friday some of the High School boys participated in a farce ball game with the town regulars. The score wasn't bad at that but no telling what it would have been had it continued more than three innings.

Manager Maddock of the High School ball team recently received a challenge from Ione saying that they will claim the championship of Morrow County if we do not play them on May 15. As yet the manager has not decided about the game. There have been two games played, Ione winning one and Heppner winning the other.
