

FAST ECHO BALL CLUB TAKES INTERESTING GAME ON HEPPNER GROUNDS

Not Entitled To Single Score But Manage To Squirm Around Bases Often Enough To Win—Return Game To Be Played At Echo Tomorrow.

Giving their pitcher good support in the pinches, the Echo ball team held the locals to two runs and won the game last Friday by a margin of three runs. The score book should really have showed a shut-out in favor of Heppner, as all of Echo's runs were the results of errors or passed balls. The first three men to face the local pitcher whiffed the breezes and retired in order. Heppner had men on the bases the first inning but failed to score. In the second inning Chas. Hoskins, the Echo backstop, leaned

let it slip thru his fingers, and an easy out was converted into a score when the return throw went somewhere within 40 or 50 feet of the catcher. The next three men didn't even get a foul. The locals bunched three hits in the fourth inning and forged to the front with their only scores of the game. Dr. McMurdo poled out the hit that brought in the runners. Echo came back in the fifth and tied the score on an error, two stole bases and a scratch single. Two more innings passed without a hit or run on either side. Echo scored again on errors in the 8th and in the 9th added two more on passed balls by the catcher. The locals made a valiant attempt to even up the score in both the 8th and 9th but fast work behind the Echo pitcher and poor headwork on the part of Heppner baserunner left the game standing at the end of the ninth: Echo 5, Heppner 2.

The box score and summary, which follows, contain some interesting information. It shows that Harlan struck out 22 men and allowed 3 hits as against 5 strikeouts and 8 hits for Bryant. It shows that 5 Echoites stole bases off the Heppner catcher while the trusty arm of Hoskins held the Heppner runners at his mercy. Both pitchers passed four men.

Dr. McMurdo Needed a Basket in Center Field

against a swift one and sent the said ball on a line to Doc McMurdo who

instills confidence into the hearts of all the players and keeps them on their toes all the time. The entire Echo team plays a fair

Heppner Baserunners Couldn't Make Second Off Catcher Hoskins

and square game and are a mighty hard bunch to beat. They take advantage of every slip made by their opponents.

Poor sportsmanship has been shown since the game by catcher Manrud of Heppner. The boy caught a fairly good game until his hand was battered to a pulp by our swift ball. From then on it seemed to be difficult for him to even see the ball. His tale to the crowd and players that the writer was crossing signals on him is all bosh of the rankest sort. This is the first time that any catcher has brought out such an excuse for not being able to hold the ball when the writer was in the box. And this is the first time in our long baseball career that we have been accused of playing anything classed as "dirty" baseball. His story has been credited very little by our friends but a few of the ever present knockers have been doing their utmost to give his words a large circulation. It is to be hoped that the boy will see the folly of his ways and frankly admit the truth of the matter, which is nothing more or less than was apparent to the fans at the game—that he simply couldn't hold the ball.

SUMMARY
Bases on Balls, Off Harlan 4, Off Bryant 2; Hit by pitcher, Harlan Sperry, by Bryant; Struck out, by Harlan 22, by Bryant 5; Left on bases Heppner 6; Echo 2; Double plays, Bryant to C. Hoskins to F. Hoskins, F. Hoskins (unassisted); Stolen bases, Gaunt, Markham, F. Hoskins, Greiner, Esteb; Passed balls, Manrud 3; wild pitches Harlan 3; Time of game 2:20; Umpires Gilbert and Allison.

NOTES OF THE GAME
Umpires Gilbert and Allison handled the game in fine shape. In fact the writer has seldom seen such all around fair decisions on balls and strikes. Poor umpiring destroys interest in any game, but there was no interest lost in this contest from start to finish.

Fred Hoskins' catch at first of Fiske's line drive featured and won him a round of applause from all spectators.

Shortstop Rhea sneaked over a hit in the 5th inning which surprised him as much as it did the crowd. Carl formerly lived here and is known by all the fans.

The turnout from Echo helped swell the gate receipts, which amounted to over \$50. There were almost a dozen autos making the trip to see the game.

Chas. Hoskins plays a bang-up game for Echo behind the bat. He

THE CITY

STREET CLEANING IN PHILADELPHIA.

Work Is Done Under Annual Contracts With Supervision of Highway Bureau.

Street cleaning in the city of Philadelphia is done under annual contracts, the city being divided into eight districts, and the work is under the supervision of the district engineers of the highway bureau and their corps of inspectors.

The specifications provide for the removal of ashes, waste and rubbish at least once each week from all buildings and for the cleaning of all streets six feet six inches in width or over, either by machine brooms, squeegees or flushers. In accordance with the schedule. All equipment must be operated in accordance with a schedule which specifies the streets in the order in which they are to be cleaned with the various types of equipment. Squeegee machines, high pressure flushing ma-

chines and sprinklers are not used when the temperature conditions are such as to make their use undesirable, due to causing slippery streets in freezing weather. During the winter when this work cannot be done additional machine brooms and gangmen must be provided to clean the streets with the frequency called for.

Collections are made daily, except Sunday, in all sections of the city from residences. Garbage from retail groceries and fish dealers is collected daily in quantities not exceeding one bushel from each store or stand. Dead animals are also removed by the garbage contractor. The wagons used for the collection of garbage are one and two horse metal bodied wagons, water tight and of a capacity of one and one-half to two and one-half cubic yards. The garbage is hauled to the plant of the contractor and disposed of by the reduction method.—American City.

BUILDING UP A NEW TOWN.

An Authoritative Statement Regarding Scotch Plan Given Out.

An authentic statement regarding the plan given out, what might be regarded as the first authoritative and detailed statement in regard to the town planning of the new city to be erected in the vicinity of Rosyth dockyard and within the extended burg boundaries of Dunfermline, Scotland, was delivered by Ballie James Norval, Dunfermline, at a recent meeting of the Young Scots society.

Dealing with the roads of the new town, Ballie Norval said the main feature would be a triangular system. The principal thoroughfare, Primrose avenue, would be 200 feet wide, extending from Primrose farm to the proposed site for the new railway station to the east of the entrance to Pit reavie estate, which formed the base of an equilateral triangle of main roads. The apex of that triangle would be the entrance to the admiralty reserve ground.

Dealing with the housing, Ballie Norval said that, so far as possible, the cottage type of artisan dwelling would be built, except on the wide main roads, where blocks of a different character would be allowed. There were forty-one acres of open space in the admiralty ground, and ninety-four acres on Pitreavie estate would be laid out as a golf course, with a further twenty-eight acres on the same estate as a public open space. Lord Elgin had also contributed in this respect.

The population would be about 30,000 within ten years, this figure being based upon reliable information received from the admiralty.

FARMERS SHOULD ADVERTISE.

Ever since the days when the Assyrians carved their public notices upon the face of a cliff or upon some public building the bulletin board has continued to be used for community advertising. Oftentimes many farmers have been slow in disposing of their products to advantage because they have neglected to make the proper selections and then to advertise their excellence. They have failed to realize that this may be done to advantage both in the local papers and upon the time honored bulletin board.

The Spitball Had the Echo Batters Guessing

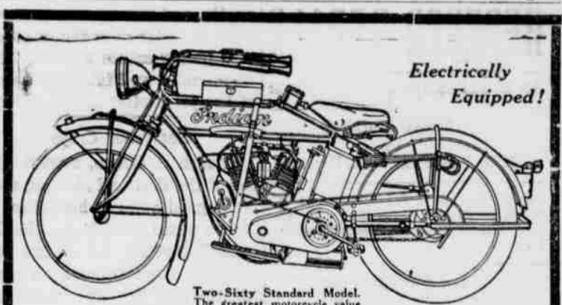

Secretary Case of the ball team announces that the locals will go to Echo Friday (tomorrow) afternoon and will attempt to even up honors with the players of that burg. The game will start at 2:15 o'clock sharp. The trip will be made in machines. All fans who can arrange to go to the game should be present to lend encouragement to our players. It is probably that lone's fast catcher will be secured to handle the slants of the Heppner pitchers and that move will strengthen the whole team considerably.

CUPID'S DART PIERCES TWO MORE HEARTS

A very pretty wedding took place at the home of Mr. and Mrs. E. G. Slocum in north Heppner at 7 o'clock Sunday morning, when their daughter Miss Elizabeth, was united in marriage to Mr. Marion Vanschoick. Rev. Ferris performed the ceremony. The bride wore cream messaline trimmed with shadow lace and carried a bouquet of white roses.

Only a few close relatives witnessed the ceremonies. Immediately following, a wedding breakfast was served by the bride's mother and the newlyweds then took the train for Portland, Eugene, and other points in the Valley and along the coast. They will return to Arlington in a short time and will take up their residence at that place. Mr. Vanschoick is a prominent woolgrower of that neighborhood and holds a high place in the esteem of the people of that section.

The bride was raised in Heppner and graduated from the Heppner High School in the class of 1911. The past three years she has taught school in Morrow and Gilliam Counties and while in charge of the school in the Montague district she became acquainted with her husband-to-be. Her many friends throughout this vicinity will wish them success and happiness and clear sailing on their voyage across the seas of life.

Electrically Equipped! Two-Sixty Standard Model. The greatest motorcycle value ever achieved. 7 H.P. Twin equipped with Electric Head Light, Electric Tail Light, Electric Signal, Two Sets Storage Batteries and Corbin-Brown Rear-Drive Speedometer. Price \$200.00. See Catalog for detailed description.

Indian MOTOCYCLES FOR 1914.

60,000 brand-new red machines will go out over the Indian trails during the coming year—the greatest motorcycle production in the history of the industry.

They will flash forth fully armed with "Thirty-Eight Betterments for 1914!" Armed with powerful and beautiful Electrical Equipment! Armed with a New Standard of Value which must completely overturn all existing ideas of motorcycle worth.

All standard Indian models for 1914 come equipped with electric head light, electric tail light, two sets high amperage storage batteries, electric signal, Corbin-Brown rear-drive speedometer. You cannot fully realize the 1914 Indian without a thorough study of the 1914 Indian Catalog. It makes plain a host of compelling Indian facts that all motorcycle-interested men can consider to their real profit. Send for the 1914 Indian Catalog—the most interesting volume of motorcycle literature you've ever read.

The 1914 line of Indian Motorcycles consists of:
