## HEPPNER BALL TEAM WINS FAST GAME FROM ECHO

5—INNING TIE ON FRIDAY—  
4 TO 2 SATURDAY

### MEET AGAIN HERE SATURDAY

With One Game Each The Deciding Contest Should be a Hummer.

Those who attended the game in Heppner a week ago last Friday, between the locals and Echo, and who thought they were witnessing a classy and exciting game, missed the time of their lives if they did not see the game last Friday and Saturday between the same teams on the Echo grounds. This time, however, luck was reversed and Heppner ended up on the big end of the score.

The Friday game was called about 3 o'clock and after five full innings had been played a heavy rain came up and the ump called the game after waiting twenty minutes. The result of this game was a tie. Heppner managed to get one runner to third base, and a couple of our runners negotiated the second sack. Echo was less fortunate and only one of their runners reached second. In the five innings only two of their men reached first base. The catching of Coshov for Heppner, affected the work of the entire team and kept the rest of the boys on their toes at all times. His sterling work inspired the Heppner pitcher also, with the result that said pitcher struck out ten batters in the five innings and allowed no hits.

The rain brought a halt to what the

Rain Stopped the First Game at the End of the 5th.

natives claimed to be the best game seen on the Echo grounds for many a day. Old Jup Pluvius continued his work for a couple of hours all told and left the roads in slippery shape for travel so it was proposed that the ball team remain in Echo and play another game Saturday morning. This proposal was accepted with relish as the boys felt in fine trim to give their opponents a cleaning.

Accordingly, at 10 a. m. on Saturday the battle was renewed, with the same batteries opposing each other and the same players in their respective positions. A large crowd was on hand and after a few innings had passed they were willing to admit that it was going to be some game.

Heppner chased across a run in the very first inning and managed to retain their lead until the fourth when slow fielding allowed Echo to make the count read 1 and 1. Echo added another in the 6th when Harlan uncorked a spitball which broke about three inches too low and went between Coshov's legs, allowing an Echo runner to score from third. There were three on bases at the time. The next inning also found three Echoites on the paths but a fast double via the pitcher and first baseman and a strikeout ended the inning without danger.

Talk about a game ending in a blaze of glory; the first half of the ninth was full of sterling stickwork on the part of the Heppner batters and aided by a couple of misplays they chased across three runs and ended the battle two scores to the good. Nearly every batter up hit the ball and after (Continued on last page)

## SCHOOL NOTES.

By S. E. Notson, Co. Supt.  
The work of grading the eighth grade examination papers and recording the grades has been a very tedious piece of work. A very much larger number of applicants wrote upon the examination than at any previous examination. The examination proved very difficult for a large number. A large percentage of the applicants failed. Some of these are conditioned in only one or two studies, but many will be required to write upon all the branches in which they do not have exemptions. The next examination will be held June 4 and 5.

Teachers who have completed the reading circle work for the year should send in for blanks upon which to make report of their work. Contracts should not be sent in for registration unless the teacher at the same time sends in a report of the reading circle work and also her certificate for registration. Certificates can not be registered until the reading circle work is completed and contracts are not valid until the certificate is registered.

The National Education Association will meet at St. Paul, Minn., July 6-11. It is not likely that many of our teachers can attend, but those residing in the middle west, who go home for vacation, may be able to attend.

The new price list for the library books has just been delivered. It is unfortunate that it came after the close of so many schools. It will be necessary for the board to make the selections in many districts.

On the afternoon of Memorial Day, May 30, the Woman's Relief Corps will give an informal reception at the home of Mrs. Emilie Kelley for the members of the Post and Corps. All old soldiers whether members of the Post or not, are cordially invited.

## MISSIONARY SOCIETY MEETING SOCIAL FUNCTION

Mesdames Archibald and McMurdo and Miss Grace Hager entertained the Missionary Society of the Federated Church at the beautiful home of the Hager sisters on Chase street on Tuesday, between the hours of 2:30 and 6 o'clock.

The parlors were tastefully decorated with American Beauty Roses and Honeysuckles.

In the dining room a huge bowl of California Poppies lent color and cheer.

The Devotional Exercises were followed by a short business meeting.

Mrs. Long read a well written paper on "The Protestant Church—How it shall reach the Emigrant."

Ruth and Margaret Flesher, daughters of Rev. J. W. Flesher, who are visiting at the J. C. Ball home in the city, sang a duet.

Mrs. A. M. Phelps gave an interesting paper on "How to sustain—How to train emigrants for citizenship."

Mrs. O. G. Crawford sang, "A Perfect Day."

After the program, refreshments consisting of ice cream, coffee and cake were served.

The Hostesses were assisted in serving by Mesdames W. E. Pruney and Oscar Borg.

Miss Alberta Goulder and Edith Thorley sang several selections during the serving of refreshments.

About forty-two members and guests were present.

NOTICE.  
All parties having suitable lots upon which to erect a creamery in Heppner, are invited to communicate with me at once.

A. L. Sparling, Heppner, Ore.

The Federated Church-service of special interest and importance to all will be held Sunday morning. Bible school at 9:45 a. m. Divine worship at 11:00 a. m. Rev. Ferris will speak at this hour. Theme: "Our Task."

There will be no evening services in view of Baccalaureate services to be held in the High School Auditorium at 8:00 p. m.

All are cordially invited. Strangers welcome.

Waldo Vincent of Butter Creek is a Heppner visitor today.

## HEAVY RAINS PRACTICALLY ASSURE BIG WHEAT CROP FOR MORROW

### Moisture Comes in Time To Save Grain From Burning And Is General All Over Grain Belt of This County.

The past week has seen frequent and heavy rains throughout the wheat belt of Morrow County. Friday afternoon came the first shower and it was followed by moisture on Saturday, Sunday and Tuesday. The rain Sunday was heavy in the south part of the county. Around Ione the precipitation was less than in other sections but was fully heavy enough to insure a fine crop. It had been reported that grain in the vicinity of Lexington was being badly burnt by the hot sun a few days previous to the rain Friday, but W. F. Barnett, a heavy wheat grower of that section, brands the report as false. "Of course grain needed moisture," said Mr. Barnett to the Herald man yesterday, "but it had not begun to suffer noticeably. The rains since, however, insure our harvesting an immense yield and prosperity is assured for the farmers of this vicinity," he continued.

Up on Heppner Flat the hot weather previous to the rain had begun to tell on the grain but the rains came at the right time. From every section of the grain-producing belt of Morrow County come the good words that the crop is now practically assured and all indications point to a harvest fully two weeks earlier than usual. Old-timers, who have farmed in this county for years, are of the opinion that the summer will not be a hot one. On account of the mild winter they look for a mild summer.

## MEMORIAL SERVICES WELL ATTENDED AT FEDERATED CHURCH LAST SUNDAY

The memorial services held at the Federated Church last Sunday were well attended, the church being crowded to its capacity. Rev. Ferris delivered the Memorial Sermon. Several special musical numbers were much enjoyed by the audience. The services as a whole, it is said by many who were present, were the finest ever held in this city. Rev. Ferris preached a strong and interesting sermon and we have been requested by several different parties to print it in our columns. Accordingly, we present it in its entirety as follows:

"BY WAY OF REMEMBRANCE."  
II Peter 3:1.

"Members of the G. A. R. and Relief Corps, Ladies and Gentlemen: I appreciate very much the favor conferred upon me, making it my duty and privilege to address you at this time. "Memorial Day" I deem one of the most important of all designated or appointed days, because it stands or serves as a day of preparation for the best possible observance of what may be more properly regarded as "Our Nation's Memorial Day." May 30th, which day was officially inaugurated in 1868 by General John A. Logan, then Grand Commander of the Grand Army of the Republic.

Upon that occasion he said: "The 30th day of May is designated for the purpose of strewing with flowers or decorating the graves of comrades who died in defense of their country and whose bodies now lie in almost every city, village or country cemetery in the land. Concerning the organization, he further said, "We are organized comrades for the purpose of preserving and strengthening those kind and fraternal feelings which have bound together the soldiers and sailors who united to suppress the late Rebellion. "And then he asks, and well may we—"What can aid more to assure this result than cherishing tenderly the memory of our heroic dead, who made their breasts a barricade between their country and its foes?" "Their soldiers lives were the reveller of freedom to a race in chains and their deaths the tattoo of rebellious tyranny in arms."

And very true, as has been said by many others, "That day so auspiciously inaugurated has become a day of tender and inspiring memory to the whole people." It is today better observed than ever before and not only will it be so kept as long as a survivor of the war remains to honor the memory of his departed comrades, but so long as there shall be found in this land, hatred of oppression or the love of liberty, as long indeed as the human heart shall be moved by the story of heroic deeds and shall cherish the memory of gallant sacrifice.

For a noble purpose then my friends we are gathered this day in God's house. Men and women from almost every station and calling in life, representing almost all the various vocations which the human family engage in. Farmers, Mechanics, Merchants, Lawyers, Doctors, Teachers and Ministers of the Gospel—which fact surely indicates that God has not intended that all men should follow the same pursuit, but different avocations. Therefore God has not endowed all with the same power, to successfully pursue the same calling, neither are we endowed with power in the same degree. Not all are endowed with requisite power or faculty to accumulate wealth, not all are endowed with the power to become great men and great women intellectually. God has not made it possible for all men to become lawyers, preachers, statesmen or teachers or authors. But he has done something far better, he has bestowed a far greater blessing upon the human family. God has bestowed every living, rational creature with the power to be honest and loyal. Honest with himself, loyal to God, exercising good will toward men. These my friends, are the weighty matters of the law, these principles make strong men and women, make strong and enduring governments, and constitute the noblest work in God's creation. When and wherever honesty and loyalty are found there should be manifested a spirit of grateful appreciation. I trust your presence here bespeaks your sense of obligation and your loyalty to our country and the men who died in her defense.

Let it ever be remembered as a principle established, "No man can be loyal to this government while disloyal to those who died in her defense." And no government can be safe or counted worthy of protection, which does not cherish tenderly the lives and interests of all, who laid their all upon their country's altar, a willing sacrifice.

May this, then be the day when we as a people reverently bow our heads in humble, thankful recognition of the peace and prosperity their fidelity vouchsafed to us. To this end let us remember that the men whose forms, faces and voices are recalled today, gave their lives for the life of this government. Therefore a sad, sad reflection this day brings. We are caused to think of the husbands, fathers and sons who went out during 61-2-3 and 4, many of them never to return. Possibly I speak today to a score or more in whose hearts there is an aching void this world can never fill. Many came back crippled and diseased to enter again the peaceful pursuits of life. Many with but one limb to toil for the support of those dependent upon them. Many, many came home to die, while myriads more never came home at all. But friends, the darkest picture conceivable to finite mind, is not without its charm, is not without that finest finishing touch commanding universal attention and admiration.

It is this—Our beloved Nation is worth all the blood shed in her behalf. This my friends is not, and cannot be said of many forms of government. Oh! Friends do you realize that our government, the government for which members of the G. A. R. fought and for which their comrades died, is the best under the smiling canopy of heaven? I regard this government as the best ever conceived of by human intellect, it is so because it is far more in keeping with the teachings of Jesus Christ than any other. No wonder we love it.

The greatest principle that underlies all our beneficent institutions is that grand and sublime, almost super-human expression found in the Declaration of Independence, namely—"We hold these truths to be self-evident that all men are created equal." "All men created equal." A volume in four words. There is honest recognition in the Fatherhood of God and the Brotherhood of man. "They are endowed by their creator with certain inalienable rights among these are, life, liberty and pursuits of happiness." Ah! friends it is a conviction of mine that these thoughts originated not with the noble men of '76. They came from God. They are the embodiment of the great humanitarian principles inculcated by Jesus Christ in His sermon on the Mount, but like a great many of Christ's teachings, they have been most bitterly opposed.

Great principles are not always well understood, they seem to grow upon us until at length the fullness and beauty of truth dawns upon us.

It took a long time for a portion of this nation to learn and acknowledge that "all men" meant black folks as well as white. And it does seem as though there were those who were never to learn the lesson, for after long and fearful costly experience they are yet at sea. Notwithstanding the marvelous progress made by the negro. It is now too late to determine where he came from, it is yet too early to determine what he shall be, but God is working through this government. Yes! He wrought through you members of the Grand Army and through your comrades "after the counsel of his own will" with greater things in view than finite mind has yet conceived of. Let us see—in 1860 the understanding was that slavery should exist only in the Southland, and President Lincoln was elected on that basis. But the Southland would extend slavery boundaries and this stood as the primary cause of secession and fearful were the consequences. A conflict of opinions resulted in a conflict of arms, Fort Sumpter was fired upon. Immediately a mighty wave of patriotic indignation swept the land like fire upon the prairie. Some of you remember the thrilling scenes and experiences that followed. Some of you had husbands and fathers, brothers and lovers, yea, some of you yourselves signed your names to the "muster roll" and bid adieu to loved ones, making sacrifice of "home sweet home" and marched away into what proved to be worse than the jaws of death, but you went—in the name of God you went. Whether you understood it or not God went before you, ruled in and through and above you. The victory and not only the victory won in the end, but the kindly providence manifested on a hundred battle-fields, proved that your cause was right, and that God in His almighty-ness was there.

I love the Southland, beautiful Southland, and entertain the hope of some day making my home there, for they are a kindly people and they are our brothers, members of a common Anglo-Saxon race, nor are they lacking in heroism, for no braver or more enduring set of men ever shouldered arms, than those who met you gentlemen and your fallen comrades on field of battle.

I once enjoyed the privilege of (Continued on page three)

## CIGARETTE ADDICTS TREATED FREE IN HEPPNER

Dr. J. Perry Conder has received a request from the Anti-Cigarette League, with headquarters at Chicago, also a personal letter from the originator of the treatment for the cigarette and tobacco habit, Dr. D. H. Kress, requesting him to conduct one of the Free Clinics such as is being conducted in other cities and towns.

Dr. Conder has consented to do this and will treat all who will apply at his office, in the Bank of Heppner building, between the hours of nine and ten a. m. each day except Sunday. We print below some of the correspondence Dr. Conder has had with the Anti-Cigarette League in regard to this work also a personal letter from Dr. Kress, himself, urging the establishment of such a clinic. Headquarters of Anti-Cigarette League of America, Chicago, April 21, 1914.

Dear Dr. Conder,  
Bank of Heppner building, Heppner, Oregon.  
Dear sir: We have your inquiry regarding the work of our Clinic and undertaken by Dr. D. H. Kress and enclose herewith the formula and instructions which we have given to over 12 hundred persons and we are gratified to state that in nearly every instance where faithful attention has been given to the suggestion of the doctor cures have been effected.

Very sincerely yours,  
(Signed) C. F. Grow.

NEW ENGLAND SANITORIUM  
Middlesex Fells Health Retreat  
A Medical and Surgical Institution of Physiological Therapeutics  
Melrose, Mass., May 12, 1914.

Dr. J. Perry Conder,  
Heppner, Oregon.

Dear Doctor:

Your communication reached me yesterday. I am pleased to know you are taking an interest in the Cigarette Addicts. You will find this a field that affords wonderful possibilities. In Detroit, Mich., recently during one week's time I treated over 900 men, boys and women at the free clinic which I established. This has become a permanent clinic and is conducted by doctors connected with The Grace Hospital.

In swabbing out the mouth I advise the use of a 1 per cent or 2 per cent solution. When the prescription is placed in the hands of patient for home use I advise a milder solution, usually 1/2 of 1 per cent. The dirt I consider the most essential part of the treatment as this will in time entirely eliminate the desire. I always instruct those who apply for treatment, to be prepared to make a brave fight for a few days—The result we

## FINAL ORGANIZATION OF CREAMERY IS COMPLETED

### BY-LAWS AND CHARTER ADOPTED YESTERDAY

### BOARD OF DIRECTORS ELECTED

### Ratification of Purchase of Lexington Creamery Left to Directors

The final organization meeting of the stockholders of the Morrow County Creamery and Cold Storage Co., of Heppner, was held at the Oddfellow's Hall yesterday afternoon.

The by-laws and charter were read. After some discussion on various sections, and after a few changes were made, the by-laws were adopted.

The matter of ratifying the purchase by Mr. Sparling, of the Lexington Creamery was discussed and it was decided that the new company could not legally sanction the deal until their organization was completed and officers elected. The sentiment of the meeting, however, was favorable to the deal.

Nominations for members of the board of directors were made and the following five men received the highest number of votes: Wm. Barrett, Jeff Jones, O. H. Wightman, J. T. Knappenberg and F. E. Bell.

A motion was made that the board of directors be empowered to investigate and sanction or reject the deal made by Mr. Sparling for the Lexington Creamery.

The meeting then adjourned. The newly-elected board of directors will meet Saturday afternoon to elect their officers, and discuss their plans for business.

It will good news to the dairymen of this county to know that at last the organization of the new creamery has been completed and that active work will commence in the near future. It will also be good news to business men and property owners of the entire county, for it will serve to advance the cream producing industry—and everybody knows that where dairying is one of the leading industries, the price of land takes a steady rise, and the business of the county and various towns is soon on a cash basis.

Married—at Hardman, Oregon, Sunday, May 24, 1914, Mr. Guy Chapin and Miss Elva Coats, Justice Bates, officiating.

No little interest is manifested in this marriage, especially among the young people of the community, as the contracting parties are so well and favorably known.

Guy Chapin is the only son of Mr. and Mrs. George Chapin, pioneers of the Hardman section. From early boyhood he has been a general favorite. Miss Coats was born and reared in the County, within a few miles of present home of the Coats'. Her genial disposition and lady-like manner endeared her to all.

These young people are certainly beginning their married life under most favorable circumstances.

The Herald joins with their many friends in wishing them a prosperous and happy voyage over the matrimonial sea.

Oscar Borg is one of the latest to join the ranks of automobile owners and has one of the Buick cars like he recently sold to Joe Hayes. Wm. Barrett, N. S. Whetstone and Henry Vance are all owners of new Ford cars and Whetstone sold his old Ford to Mr. Brunton. Albert Bawker went to The Dalles today after another Overland car to use for a demonstrator.

obtain is satisfactory in every case when the directions are closely followed.

Why could you not open a free clinic? Have it advertised and give the first treatments free. You are at liberty to duplicate my prescription. You will be surprised to see how many will apply to you for help—if it is known that a free clinic has been established. A number of physicians are doing this. I shall be glad to hear results. I am,

Yours fraternally,  
(Signed) Dr. D. H. Kress.
