To The People of Heppner and Vicinity:

Having permanently located in Heppner, I am prepared to attend to all work in my line and at reasonable prices, and having more than thirty years experience in different climates, I feel justified to say that I understand the needs and requirements of this kind of work. I believe in Economy, not Extravagance, therefore, work should be done in its class.

Neatness and Durability are two essential things in painting. The surface to be painted is to be considered as no two sides of the house need the same treatment, therefore, it requires knowledge to know the requirements of each job to be done.

The Best paint is the cheapest, as good paint takes as much time as any paint to apply, it's economy to have it applied right.

We are here with malice toward none, goodwill toward all. We want to live and let live, therefore, my prices are the same as other workmen in my line and my work will be my reference. It will consist of Painting, in all its branches, Paperhanging and Decorating, so what you want done with paint can be done by Vickers the Painter. Come in and let's get acquainted. Tell me your paint troubles. I can tell you something about your walls. Look over our suggestions for house painting. Let's exchange ideas, one helps the other. There is no job too large, no job too small to receive my personal attention.

Thanking the people of Heppner for the way in which I have been received and hoping for a continuance of your patronage, I am,

SINCERELY YOURS,

VICKERS
The Painter
