cost of necessary storage bins on the farm and that such graneries will soon pay for themselves in preventing waste such as goes with the old system of piling sacked grain in the field to await hauling.

GEO. WASHINGTON'S BIRTHDAY HONORED

Although almost two weeks late the pupils of the Willow Creek School, on March 9th, in the school house, gave an interesting George Washington program.

From far and near neighbors came to hear the story of George Washington retold. Every phase of Washington's life was clearly

portrayed in song, play and recitation, from the cutting down of the cherry tree to his last days on his Mt. Vernon estate.

After the program a few remarks were made by the teacher on community life and how it might be developed. A large community picnic was planned to be held in the latter part of May. Mrs. James Kirk, Jacob Dexter, and John Krebs were chosen to manage and carry out the plans for the picnic. Delicious lunch was served by the ladies which terminated the evening's activities, and all went home with plenty of good will for one another.

RUGS

Varied and Universal. Ranging from a Crex grass to a Persian Silk are now on display at The Case Furniture Co. Store.
