Roy V. Whiteis Heppner, Ore.

To the Farmers and Stockmen of Our Territory.

In the face of the grave crisis now confronting this nation it is the patriotic duty of every citizen to serve his country in the most effective manner that presents itself. The most effective way for the farmer to serve his country at this time is to plant every available acre of land that can be cultivated into some kind of food crop for man or beast. It is our duty to serve the nation by extending such financial aid to the farmer as will enable him to till every available foot of land, as well as promote the live stock industry.

We are prepared to assist all solvent farmers in a financial way, not only for the purchase of seed grain and money to get their crop in, but will also agree to finance them through the growth and harvesting of the crop and until such a time as the same can be marketed conveniently and to good advantage. The price of grain and hay as well as cattle and hogs is bound to be high for some time to come, and now is the time to prepare to seed every available acre, as well as to increase the number of domestic animals.

Remember, this will not only yield you a big profit, but it is your duty to serve your country in this manner.

Drop in and let us talk it over.
