To raise better crops by cultivating more and raising less weeds. It will pay you to invest in a JONES' WEEDER. This machine has been greatly improved this year and will be a great factor in bigger crops. Built in sections like a harrow, each section cuts 5 feet. You can use as many sections as needed, six horses pull 3 sections cutting 15 feet. Absolutely the best machine ever built for cultivating summer fallow, does the work speedily and thoroughly. Get a JONES WEEDER before the weeds get big and ruin your summer fallow.

New Realty Firm

N. E. (Pat) Crow and A. D. (Dave) McAtee have formed a partnership to handle real estate, life and fire insurance under the name of the Morrow Land Company, and will soon open a well equipped office on Main street.

Mr. Crow is a capable office man and thoroughly versed in the insurance business and Mr. McAtee, being an old timer here with an extensive acquaintance all over the county as well as a wide knowledge of lands and land values, their venture will no doubt prove a success.

Officers Training Camp

S. W. Spencer, W. P. Mahoney and W. O. Hill have been appointed by the Officers Military Training Camp association to represent that organization in this county. Anyone interested in the matter of military training with an officer's commission in view will do well to secure full information and literature from any one of these gentlemen.

Heppnerites Hike to Tall Timber

Heppner was quite a "Deserted Village" last Sunday and it would be easier to name the few of us who remained in town and went to church than to name those who went to the mountains and—fishing. One or two parties braved the bad roads above the Slocum sawmill and reached Ditch creek where some good catches of fish were made. All those fortunate ones who have permanent camps in the shady spots were there and many others made temporary camps and enjoyed picnic dinners by some gurgling, ice-cold spring. Following is a carefully prepared list of those Heppner people who spent the day out of town:

Everybody but the preachers, the printers, the pastime people and a few other pious persons who have no cars or other means of making the trip.

Olds Makes Remarkable Run

A 930-mile run from Lansing, Michigan to New York City in thirty hours driving time, with twenty-four and three-quarter miles to every gallon of gasoline—that is the newest gas record set up by an Oldsmobile. It was one of the incidents that grow out of the many drive-a-ways made by dealers from the factory recently when railroad equipment was not obtainable. That the mark established then was not a chance performance is proved by the fact that a six-cylinder driven by the same driver practically duplicated the splendid result a short time before.

News of this run came to Harold Cohn, local dealer in Oldsmobiles, from the Hoboken dealer who has this to say of the run:

"I left the factory at Lansing on Thursday and was at the Forty-second street ferry Sunday evening. I had covered the 930 miles in thirty hours' driving time, an average of thirty-one miles an hour."

Ellis Minor Buys Fine Ranch

Ellis Minor of Cecil, closed a deal last Friday for the purchase of the E. M. Shutt ranch below Lone. The place contains 320 100 acres of which is first-class alfalfa land, and is regarded as one of the best places on Willow creek. Mr. Minor is one of Morrow county's rising young sheepmen and has already demonstrated his ability to make a success of that line of industry.

Not Married

The story published last week to the effect that Charlie Wattenberger was married at Huntington, was not true. The statement that "Immediately following the ceremony the happy couple left for Salt Lake on a honeymoon trip traveling in Mr. Wattenberger's new National Six" was not true. The only grain of truth in the whole story that the Herald can now discover was that Charlie is employed by the O. W. R. & N. Co. at Huntington. It may be true that Charlie would like to be married, and have a new National Six, and go to Salt Lake on a honeymoon trip but the Herald is not going to make that statement until it is authorized by Charlie himself. But, here's hoping it will all be true some day.

FOR SALE--320 Acre Wheat Ranch

Here is a chance to buy a going wheat ranch at a price that one year's crop will pay in full. I have three ranches and feel it to be my patriotic duty to get these farms into cultivation, in view of the urgent need of the Nation for Bread. I can't cultivate the other two unless I sell this ranch on account of lack of capital and insufficient stock and equipment.

This ranch lies 12 miles due North of Lexington, Morrow county, Oregon, being the East one half of Sec. 26, Township 2 North of Range 25 East W. M., and in Oregon's Best Wheat Belt. There are good producing farms all around this place. The average wheat crop in the United States is 12 bushels to the acre. This land in this section averages about fifteen. Sometimes the crops run as high as 25 bushels but 15 is about the average.

Ten acres of this ground is on a rocky side hill and suitable for nothing but pasture. Forty acres is light sandy soil and suitable for rye, the balance is wheat land and lays nearly level. The soil is deep and rich and if properly farmed will raise a crop. 100 acres in Bluestem Wheat seeded this spring on spring plowing. 100 acres more summer fallowed 200 acres ready to seed this Fall by discing the land in crop this season. Fenced with three wires on part, balance two wires, new posts well set and fence in good shape. Four room house, bunkhouse, cellar, well, barn for ten head of horses, barn for ten head of cows, corral, chicken house. Splendid crop of potatoes, corn, beans, and other garden varieties growing. I have one sample of wheat over two feet high now (June 4th). If you think this country won't raise anything come and look at it and you will change your mind. I expect to get from my crop this year one half of the price that I am asking for the land and the improvements, and I have less than one third of the place in crop. Will give possession immediately after harvest or will sell with the crop and give possession now. Price of crop to be estimated. There is a farm for sale one half miles west of the ranch of 480 acres about the same quality of land at \$30.00 per acre. Raw land joining me on the Northeast for sale at \$15.00 per acre, others \$20.00. This place is a bargain at the price asked. Buy it and I will move two miles east to my other ranch. Price \$15.00 per acre, no stock or equipment included at this price and all crops reserved. No trades considered. \$149.00 of purchase price can stand, balance of \$349.00 cash.

Address all inquiries to the owner, C. GUY, WAKEFIELD, Lexington, Oregon.

"Cured!"

Mrs. Gus Griffith, of Everett, Mo., writes: "I suffered for three years with various female troubles. My life was a misery. I was not able to do anything, bearing down pains in my back and limbs, and headache... weak and nervous. Dr. — recommended Cardui to me."
