THE ROAD QUESTION

The plan for solving Morrow county's good road problem which was inaugurated last week by a number of Heppner's representative citizens, as reported in the Herald last Friday, seems to be working out very satisfactorily. Petitions for an election to vote on the matter of a five mill tax have been filed from all of the interested districts and those in charge of the movement are hopeful that their plan will be endorsed by the taxpayers at the elections to be held next month. Such movements, however, require some effort on the part of those who desire to see them put through and this matter is not likely to prove an exception to the rule.

The Herald believes in publicity on a matter of this kind and therefore offers its space to all citizens who are interested in the road question whether they are for or against good roads. We therefore invite a discussion of the road question, in these columns and believe that with due publicity, the question will be settled right.

SENATOR McNARY ISSUES STATEMENT

Washington, D. C., Oct. 3rd. (Special.)—Following the passage in the Senate of the two billion dollar war revenue bill, and while awaiting the final action of the conferees with respect to the adjustment of all differences in the measure as it passed the two branches of Congress, Senator Charles L. McNary made a public statement in which he said:

"I voted for the revenue bill upon its final passage as the war cannot be fought without money; yet, I hoped that a greater portion of the revenue could have been collected from those colossal institutions which are enjoying the fruits of the war and are thriving upon the enormous expenditures made necessary by this world conflict. I would not advocate a revenue policy that would disturb or frighten business nor would I support a measure that considers the profitters too tenderly.

"The only objection I have to the bill now in conference is that it does not bear down more heavily upon the reapers of large war profits. For example, the Dupont Powder Company made annually from 1913 to 1915 inclusive profits amounting to five million dollars while in 1916 its profits climbed to the stupendous sum of eighty two millions. The United States Steel Corporation made in the year preceding our entrance into the war sixty-three millions of dollars and based upon the first six months of the current year it is estimated that its profits for 1917 will rise to the unprecedented figure of five hundred millions. Many similar examples could be cited though these are of the larger class.

"One excellent result obtained in the Senate was striking from the bill the provision relating to table taxes—those upon tea, coffee, sugar and the like. Every dollar now paid is a dollar and accumulated interest less to pay in the future by the long and distressing process of taxation, which eventually falls upon the shoulders of the great mass of the people. A failure sufficiently to tax great profits, which are an accompaniment of war, and an over issuance of bonds, brings about inflation, increase in cost of living and commercial distress following the arrest of the war, and for these plain reasons I supported every effort to impose a heavy load of taxation upon those thriving institutions which are enjoying a harvest of profits above the dream of avarice."

Why C. Guy Wakefield Recommends Especially

THE BRUNSWICK PHONOGRAPH

- 1 Because The Brunswick is all phonographs in one. It has all of the merits and none of the faults. It is the result of years of experience and is made by one of the most responsible companies in America—The Brunswick-Balke Collender Company.
- 2 Because The Brunswick plays all records. It removes the limits which phonograph owners have had to face in the past. All records have a new and better tone on The Brunswick because of its all wood sound chamber, built like a violin.
- 3 Because with The Brunswick we are entitled to offer Pathe records—both European and American. This brings to all artists hitherto barred because they performed only for Pathe. Now The Brunswick brings Pathe records and all others.
- 4 Because the House of Brunswick has been famous for seventy-five years in the wood-working art. Brunswick cabinets are made of the choicest wood. The designing, the carving and the finishing cannot be matched.
- 5 Because we can offer you a reduction in price over other phonographs of the same class. In addition we offer terms which make it easy to have a Brunswick in your home.

Let Us Prove All This

Come in today and let us play your favorite records on The Brunswick. Hear especially Pathe records. Make comparisons between The Brunswick and others. Check up the prices. Then decide for yourself.

If you can't come to Portland write for my special proposition. I have been slow to enter the Phonograph field because I wanted the best. An instrument that was an actual reproduction of the artist's music. I have that in this Phonograph and my many friends and customers in Heppner and vicinity will vouch for my having to be right before I will go ahead. My Portland store is not an abandonment of this territory but a branching out for more business.

Note the new firm name and new store address.
